 LEE CALDWELL.

The fact that Cleveland is a stumbling block in the way of relief to the burdened millions of our people, through silver legislation, and that fact coupled with the one that he is sustained by the republican element in congress, is certainly no good reason for the voters in the west to fall back into the old grove of McKinleyism supporting high tariff and the single gold standard.

The large republican gains in all the late elections prove clearly the above assertions. Cleveland is working in the interest of the republican party and the republicans are helping him.

The democracy south and west is doing, willingly, every thing possible for the people but its force is not sufficient to take legislation in to hands and pass acts of relief over the veto power sustained by eastern democracy and the solid ranks of the republican wing of both houses.

Then we ask what possible tangible reasons can the west give for a voluntary surrender of previous views and fall directly into line as advocates of the Cleveland, McKinley, Sherman regime at the same time cursing Cleveland as if he were the sole instigator and chief manipulator.

The republicans of the west know how impossible it is for Cleveland to hurt us except he is helped by the party they uphold, but instead of standing by conscientious principles they must needs fall back into the old groove where they cannot expect relief, and help rivet the chains they claim they want severed.

Bob Ingersol said in conversation once, "that the American people, for an enlightened people, had less sense than any people on the face of the globe."

The Chicago national platform, if we judge from the overwhelming majority of voters who supported it at the last presidential election must necessarily be about what the people want, and because one man, Cleveland, with the help of the republican members of congress, throw an impassible barrier in the path of democratic legislation to fulfill the promises made the people by that platform, is certainly not a consistent reason, after sustaining by their votes, the declarations set forth in that platform, at so early

a period and before the changes the people asked for are tried, to fall back into old ditches and trenches that caused the control of capital to be placed in the hands of a few and the almost utter annihilation of the common people.

It is not likely the Pollard-Breckinridge case will end with the verdict of the jury giving Miss Pollard \$15,000 the best of it.

Many hard things were said pro and con, by lawyers and witnesses during the trial which according to the hot blood of the Kentuckians will be resented in the form of duels, and blood will have to answer for insults.

But one thing is sure Breckinridge has dug his own grave and hence forth reap the reward that naturally overtakes the hardened transgressor.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is a least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
