WHAT class of our government is the truly American type? Is it the bloated bondholder that lives in this nation temporarily in gilded palaces? But most of the time these splendid edifices are closed and the Lords of the manors, with their families are in foreign parts having a good time at the expense of the truly American patriotic citizen. Are the minions of Wall Street our truly American citizens? Who never take a thought as to the ultimate result to the people occasioned by their diabolical scheming to enrich themselves at the expense of the government?

Corporations and trusts of a nature solely to work out their own selfish interests are detrimental to the true interests of the people at large and as such should be carefully bitten and the rein drawn taut, and instead of being protected and petted by the government should be compelled to hoe their own row, and the people protected from their iniquitous designs.

It's the middle class of our society that is our truly American citizen. The other two classes, which are the extremes, we mean, the millionaire and the vagrant. The middle class upholds the government and is infused with true patriotism and love for our country.

What does the vagrant or millionaire care for our republican institutions? The vagrant's only desire is to live at the expense of the middle class, and the millionaire has the same patriotic feelings and intentions of the vagrant, that is to enure, the laboring true American citizen, out of his hard earnings and grow rich.

Both the millionaire and vagrant class receive more attention to-day than the truly deserving class, that is called upon to support the government. It is to the intelligent middle class that the government owes all its wealth, former prosperity—Now Alas! rapidly declining—and greatness. It is to this class the government must turn for that true support to save us from utter destruction. The hand-writing is on the wall, this class must be honored and their advice taken or the vagrants and millionaires will certainly sever our independent institutions.

It is this class that urges the re-

monetization of the silver dollar. It is this class that urges the necessity of restriction of foreign immigration. It is this class that urges tariff for revenue only. It is this class that bitterly opposes legislation in the interest of corporation when detrimental to the welfare of the laborer. It is this class that urges congress to carry out the Chicago platform which is almost wholly ignored by President Cleveland backed by most of the republican members of the house and senate. It is this class that says a majority shall rule and that a president has a constitutional right to veto any measure, a majority of the people, as represented in congress, wants to become a law, because our constitution is based upon the principle of the majority shall rule, and any authority taken by congress or the president conflicting with this principle is dangerous to our liberties, and dictatorial in its effect and consequently treasonable in its character towards the people and the people is the government, and have the right to dictate to servants in office what they wish or desire for the good of the government but the servants have no right to dictate to the people.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietor has so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
