

W. C. BYRD Editor.

Now that our county and state election is over people can view the past campaign and compare notes. Our county, except in one case gave a handsome democratic majority for the state and district candidates. The county tickets the democrats got the clerk, assessor, and county surveyor, the republicans have the sheriff, treasurer, commissioner and school superintendent. The populist one, the county judge.

Each party is represented, which probably is all right, but at any rate we have to take it as we find it and expressing dissatisfaction at the result will not mend matters.

But this county election shows one thing very plainly, that is, hands off of nominating conventions. Let the delegates go into the convention free from outside influences, bribes or intimidations of any nature, then we can expect a fair deal and no kicking at results. But so long as delegates are handled by outside influences of a corruptible nature, as the people think, done for a purpose to force the objectionable candidates upon the ticket, the voter will rebel and try to help matters by bolting his party ticket, and selecting from each the candidates he thinks worthy of his support.

We see it stated, that the senate plunged through nineteen pages of amendments to get to the wool schedule. This is considered to be the last of the important tariff amendments.

The fight will be bitter because of the general interest of the wool schedule, as nearly all sections of this country is more or less interested, sheep raising being a common industry.

The annual income from wool is a big thing, hence it is of universal interest.

It being a debatable question, if a protective tariff increases the price of this commodity.

It is the doctrine of a great many well posted men, that free trade and an open market is much better for the wool grower, while others contend to the contrary.

The idea that a protective tariff increases the price of the thing protected is stubbornly disputed by many, therefore the wool-growers are particularly interested in this fight.

SILVER LAKE, Ore., May 28 '84. ED HERALD: The health of our vicinity is very good.

We are having fine warm rains. Fall grain is heading out.

Silver Lake is brim full and has broken the levy and sped on its way over the desert for a distance of 8 or 10 miles which is lucky for us for the break on that side saves our gardens, etc.

Politics is raging, the pops are speaking here, but do not have very large audiences.

The cow boys are just in from the desert bringing with them a large band of fat cattle.

Several of our neighbors are putting in large crops of grain.

IT PAYS THE BEST AND IS THE SAFEST INVESTMENT I EVER MADE.

There are single retail shoe stores in our cities which sell 2,000 pairs of shoes a day, making a net profit of \$25,000 a year. We sell shoes for our ladies, misses' and children's shoes for 10 cents a pair, and on our men's and boys' shoes 15 cents a pair. We shall establish shoe stores in each of the fifty largest cities of the U. S., and we sell only 500 pairs of shoes a day they would cost us \$25,000 a year. We should be able to pay a yearly dividend of \$3.25 a share, or over 20 percent year on the investment. We sell the stock at \$100 a share. The price must inevitably be much more than this price, which is a par value. \$100,000,000. Incorporated, Capital \$1,000,000. We have over 1,000 stockholders, and the number is increasing daily.
