

HAS THE LARGEST CIRCULATION OF ANY NEWSPAPER IN THIS COUNTY.

I. S. Geer and Co. have an excellent selection of garden seed from the firm of D. M. Ferry & Co.

The hay crop of Harney county this season is immense.

The series of meetings conducted by ministers, Winans and Richmond are still going on here.

Messrs. Chas. Garred, Mahaffy and Dodson are sinking the town wells.

The whistle at the Burns saw-mill now greets us every morning at six o'clock.

BORN—To Mr. and Mrs. Martin Byerley, residing near Burns, a girl on last Friday.

From the information we get the rioters killed at Chicago, a short time since, were all foreigners.

Hay-harvest has commenced here, and the quality of the hay never better, and quantity immense.

Miss Clara Stenger in the last week has been very ill, but we are very glad to publish the information that she is now improving, and we hope to see her out again in a few days.

The Odd Fellows at their last regular meeting—last Saturday evening—installed the following officers for the ensuing term: I. S. Geer N. G., E. J. Martin V. G., W. C. Byrd Secretary, H. M. Horton Treasurer.

The grasshoppers and crickets up to this time have done but little damage in our county. The grain crop according to acreage is excellent and the yield, no providential hinderance, will be very large. Vegetables are doing splendidly and the crops are equal to or better than usual. The hay crop is the best we have seen in the county.

J. F. Boyle, photographer, now located here for three or four weeks is doing work of a superior quality. His price is \$3 per dozen cabinets. He makes a specialty of family groups and baby photos, and guarantees his work. Those desiring work in his line are invited to call and examine his samples.

The report comes from Grant Co., that two houses in the suburbs of Canyon City were consumed by fire on the evening of the 14th. In one of the buildings an old man by the name of Anderson was burned to death. The report says his house was locked and it is thought he set the house on fire with intent to burn himself up with it.

Eugene V. Debs, president of the American Railway Union, Geo. W. Howard, vice president, Sylvester Keleher, secretary, and L. W. Rogers, one of the directors, have been arrested by the government, charging them with violating the laws of U. S. by interfering with transporting of the mails. Mr. Debs, it is said, stands high at his home and is universally respected and honored by all classes of citizens.

Vic Ottmer will sell you bacon at 10 cents a pound, hams, shoulders and sides. The bacon is well cured. Leave your order at Geer & Co's. store.

Burns always "gets there" with both feet. The races here this fall will eclipse anything heretofore in that line in this town. The Burns Jockey Club are perfecting a programme, which will appear in the Burns papers next week.

We are getting some through mail now, but the great strike is not yet finally settled. Disapproval of the arrests of Debs and other leaders of the A. R. U. is making a big stir and the consequences are yet to be seen.

Rev. Richmond of Baker City is in our town this week, assisting Minister Winans in his series of meetings being held here. Mr. Thurlow an M. E. Minister who was here about three or four weeks since is expected back at any time to join Rev. Winans in his effort to organize a church membership here.

TELEPHONE LINE—A movement is on foot to connect our town with Ontario by telephone, and we hope it will be brought to a successful consummation. We have no estimate of the cost, but if we are able to put up the wire with the convenience, worth and satisfaction of having such communication with a point on the railroad, will richly pay us for the outlay.

Notice is give for sealed proposals for the delivery of 3,510 poles 18 feet in length and four inches in diameter at convenient points on the route from here to Ontario, the poles to be used in constructing a telephone line between Burns and Ontario. This does not necessarily say that a contract has been let or the construction of the line, but to get at the cost of the construction, that those interested may more fully understand the amount of money it will take.

Mr. Sylvester Smith known here by many and who has a ranche in Happy Valley on which he lived a bachelor life for several years but went back to his old home in the valley about three years since, and shortly afterwards he married. We understand he and his wife are here at this time, but whether to remain or not we have not been informed. Dr. Marsden was called to Harney to see a patient the latter part of last week and it proved to be Mrs. Smith, but we are informed she was not in a dangerous condition, she and her husband were then on their way to his ranche in Happy Valley.

Last Friday or Saturday—we are not informed as to the exact date—an accident occurred on the Ontario and Burns road, near Jos. Buchanan's, 25 or 30 miles from this place, in which a man lost his life. From the most reliable information we have received up to this date the man killed was Mr. Jap Smith a resident of Diamond Valley, this county, a man about 40 years old, he has a wife but no children. He was driving a six horse team loaded with wool, several of the horses were unbroke broncos and while going down a hill his break gave away. Smith it said jumped from the wagon but it upset and caught him resulting in almost instant death to the poor man. We have not as yet received any further particulars regarding the sad casualty.

J. P. Dickenson is agent in this count for a ball bearing sickle adjuster, which can be applied to any mow or reaper. It is a very neat arrangement runs very smoothly and with great ease preventing the wear of the sickle bar to such an extent that it is a big improvement. Mr. Dickenson warrants the adjuster to be all it's represented and if not makes no charges.

Mrs. Harkey informs us she is expecting her daughter, Lena, who is employed in Portland in a large mercantile firm, at home in a short time on a visit to remain probably six weeks.

We visited Mr. Harkey's ranche yesterday afternoon, and found him reaping his crop of rye hay which is very good, indeed. Mrs. Harkey has we presume about 60 acres in rye, wheat and barley. The rye and barley is splendid, the grasshoppers have done some damage to the wheat, still we think he will reap a pretty fair crop. The grain crop on the Geo. Stanchit ranche looks as if it will make a heavy yield and also on the ranches of Geo. Maupin and N. Brown.

The two brothers of Mrs. Orville Rusk, who live in California, but have been in this county for several months, left here this morning for California. Till Glaze went with them, he will stop at Lakeview where he expects to remain ten or fifteen days and then return here. Till has some fine thoroughbred mares with colts, sired by a first class stallion, following them in the neighborhood of Lakeview, is the object of his trip to that place.

The county court at its last session authorized Mr. Kellogg to sink another well near the one in which the drill is fastened, which he is going to do, in fact, already at work, he charging only incidental expenses, that is for moving the machinery etc. This effort is at his own expense to the depth of the one already sunk. We think this is just and proper, because the old well has demonstrated the fact that we have artesian water, and many think that had Mr. Kellogg succeeded in getting the drill which is now fastened in the well the flow would be very large, as it stands to reason the drill obstructs the flow of water.
