W Harp's ILLUSTRATED

Harper's Weekly is acknowledged as standing first among illustrated weekly periodicals in America. It occupies a place between the hurried daily paper and that of the less timely monthly magazine. It includes both literature and news, and presents with equal force and felicity the real events of current history and the imaginative themes of fiction. On account of its very complete series of illustrations of the World's Fair, it will be not only the best guide to the great Exposition, but also its best souvenir. Every public event of general interest will be fully illustrated in its pages. Its contributions being from the best writers and artists in this country, it will continue to excel in literature, news, and illustrations, all other publications of its class.
