Huntington To The Front.

To Patrons—Huntington is now the envy of competing points in a Railroad sense in particular, we have advantage over all, we are now a competing point for two R. R. lines the Union Pacific and O. R. and N. Co's. We have the choice of two roads and each one after your business. No better rates can be gotten at any point than here on wool and other goods send your wool to Huntington and get benefit in prices received by cut rates on either road the O. R. & N. Co. will prevail on you to ship to other points on their road than Huntington thereby controlling your shipments and cutting off the U. P. Ry. and the O. R. & N. Co. agents may visit you and make statements to the contrary but bear in mind they are looking for their own interests not yours. No point offers greater advantages than Huntington. None can work for less wages, no point will have more wool buyers, our charges as low or lower than others, this being true is it possible considering above conditions that any point can do as well by you as Huntington? We are here to stay and give you square deals our past record is our recommendation. Don't be misled by agents or others statements ship your goods, wool etc. in our care.
