ties of life. During these years crops have
been abundant, clothing, groceries, in fact merchandise of all sorts has been and is, wanting purchaser yet want and misery envelope us, to our relief! This ery goes up from thousands and thousands of bouseholds of honest, industrious households of honest, industrious
citizens, to the government and cur ditizens, to the government and cur
law-makers, for help in need and distress.
Does the administration heed the cry? Does corporations and money syndicates headed, by the soministration, give attention to
the prayer of the people? the prayer of the people?
The syndreate 18 very properly
named the" Belmont-Morgan-Roths child Carlisle-Cleveland"sondicate The people remember "Black Friday," of 1869, when Jim Fisk and Jay Gould got a corner on gold The ahove mentioned s.ndicate, if continued in power, will see the same result that followed the Jay Gould and Fisk financial break, only the consequences will be very much greater and the distress and misery heyond language to express The single gold standard adhersats are laying up treasures in that way which in their last hours will cause them to pray for the mountains and rocks to cover them from the sight of the sorely afflicted Those misery starvation and want cedings of gold men. Then we have the best government the sun thanes on.
The poor man is respected and protected. Better say the poor man is kicked, cheated hood-winked swindled and robbed of his birthliberty, his living, his enjoyment, his inderty, and in this great free and man is a fremerica, where eyerv saffrage o freeman with the right of thrse rights supposed to have all Jay Gould and Iinges. reap their reward isk have gone to if that reward is in eternity, and that reward is what a majority people predicts, what will be Rereward of the "Belmont. KANsas and Nebraska have been thately visited with soaking rains regetables and all kinus of grain, regetables and hay will be tremen-
doos.

The ground has been soaked good financiering we believe can be thoroughly. The corn crop is al- accomplished, no providential hinmost assured and the fars, last accounts, were still ploughing aud planting. It stands to reason, when the corn crop is a sure thing and a big one, all farmers who are able will be found buy'ng stock able will be found buy'ng stock
cattle to feed; the result will be a great help to the cattle men of this county, both the large and small stock raiser. We will have a good market and fair prices, at least, Were is every reason to think so. We see it stated that Kansas and Nebraska will not have nany cat-
the to feed this fall. That being the case the outlook for Castern Oregon cattle men is much better and guarantess much better prices for us. The sheep business will also be lively, for feeders back in those states will invest in' sheep to feed, so these rains have been a great blessing to peuple here as well as in the vicinity where they fell fell

We also see it stated that the exort demand for mutton has inreased in the United in the last vear very much, which is another great oenefit to our sheep men. The demand at the butcher shops for the last two vears has been very light liecaupe of the exceedingly hard times and scarcity of money. Pour peop'f, and this class is the rreatest meat eaters, have not been able t/ buy it, consequently not near the quantity has been used that otherwise would have been.
Times are getting better and the unemploved, we hope, will get work which will enable them to respectably support their families, which means a great deal more beef, pork, mutton and everything else that makes up the living of he labering man, will be consumed which will have but one ending and that will be a good one for the farmer, merchant, grocer and stock feeder
A government which gives em ployment at fair wages to the laborer is the only safe and prosperous goverument in the civilized world.
We hope we will be able to repsrt a good season from now on, and the farmer realizing a good price or produce atd the laborer em ploved at fair wages.
If silyer was only remonetized and put into circulation as business equires $i t$, in a short time we would realize and acknowledge the saying hat "we have the best government the sun ever shone on." Then business that has been lying dorment for so long would be put in motion and the place of tears and lamentations we would have smiles, congratulations and grateful hearts for blessings enjoyed.

OUR town authorities have orderd the improvement of two other atreets in our little city, if this is kept up we will all have reason to be proud of our town. The fact is these improvements show energy and enterprise and proves to the visitor and traveler our thrift and prosperity, and this advance is not prosperity, and shis advance is net
put on, but our citizens are able, willing and believe it is necessary to our comfort and euccess.
In conversation with our present mayor, a few days since, he affirms his determination, assisted by the council, during h:s \&erm of office ness of the town, or at lhe indebted ness of the town, or at least to put This we hope will be do

One great drawback to our town and its advancement is our inability to cope with fire. The result would be terribly disastrous, in case of fire, to our town, and some steps should be taken to make the town more secere. This is not idle talk but for the serious consideration of our peuple.

Persons who sympathize with the afflicted will rejoice with D. E. Carr of 1235 Harrison street, Kansas City. He is an old sufferer from inflammatory rheumatism, but has not heretofore been trcubled in this climate. Last winter he went upinto Wisconsin, and in consequevce has had another attack. "It came upon me again very acute and severe," he said. "My joints swelled and became inflamed; sore to toueh or almost to look at. Upon the urgent request of my mother-in-law I tried Chamberlain's Pain Baln, to reduce the swelling and ease the pain, and to my agreeable surprise, it did both.
