

Juggling In The Treasury Department.

The treasury department in trying to prove the government on a self-sustaining basis at the close of the fiscal year, did, what it thought to be very cute juggling. This attempt to deceive the public, because of fear of criticism from the world and press, shows that the administration is up to trickery such as when resorted to should receive the condemnation it certainly deserves, and that censure from the press and all candid men that trickery, dishonest statements and deception, which condemns a government resorting to juggling the treasury figures to deceive the people for purely political purposes.

Will Uncle Sam explain why on the 29th of June the government expenditures for that day is put down at \$199,258 and wholly for pensions, all other branches for that day we presume were run on private means or by subscription or by public donations.

If no other money was paid out on that day it probably was due to the fact that the government refused to pay it for the purpose of making it appear that the deficit was less than it really was. This deception is uncalled for and at variance with the true state.

Why is it done? Is it meet that the parent should deceive the offspring in things vital to its interests and directly concerning it?

According to information gathered from exchanges and other sources, the condition of the treasury, had it been frankly and truthfully stated, the last days of June, and the government business conducted in a legitimate manner as it should have been and a true statement given, was, instead of a surplus of \$3,931,445 for June as was pretended the actual deficit for the fiscal year should have been increased to \$48,000,000.

Now since the end of the fiscal year no explanations are given for the rapidly increasing deficit.

Had it not been for the licenses for the sale of beer and liquors going all over the country the deficit would have been much larger than it is.

The first nine days of this month the deficit amounted to \$10,640,592.63. These figures show and expose a system of skullduggery employed by the government to manipulate and keep down the deficit.

Why the administration should seek to deceive the people in this matter is not explained unless it is simply to hold out the idea that times are getting better and the cause is the demonetization of silver. As the administration is gold standard and straining every nerve to kill silver and make it worthless it may be this is one point in favor of gold and the administration has stooped to intrigue and false statements to kill what three fourths of the voting population so earnestly desire.

The Monetary Conference.

From the New York World we learn that French delegates have been in Berlin, in consultation with Von Kardoff, Count Von Mirbach

and Herr Arendt, concerning an international monetary conference.

It is stated they have come to an agreement upon all essential questions. The idea of a gradual rehabilitation of silver, by a system of seignioral rights, was abandoned and an agreement reached that the international monetary conference, when it meets, should be urged to fix the ratio of silver to gold at 15 1/2 to 1.

The reasons given for the cause of the delay in calling an international conference, was the desire of the German bimetalists to await a change in the government of Great Britain.

England, France, the United States and several other principal nations of Europe have indicated their willingness to participate.

The Germans believe that with the accession of the conservatives to power in England the bimetallic cause will gain ground, that is, the delegates that would be named by the government headed by Balfour, Chaplin and Goschen, would be far more favorable to the restoration of silver than representatives named by Rosebery and Harcourt.

The object of the conference shall be to secure a fixed relative value between gold and silver internationally. Also free mintage at a certain ratio. If Germany, France and England advocate the ratio of 15 1/2 to 1, the United States can afford to adopt the same, although the free silver men of this country are in favor of 16 to 1.

This, of course, would necessitate the recoinage of our silver money.

ONE point, says the Statesman, of "Coins Financial School" singled out for especially bitter attack by the goldites was the assertion that silver was the unit from 1792 to 1873. This point was taken up early in the debate between W. H. Harvey and Roswell G. Horr and it was clearly established that "Coin" was correct.

The development of facts as the argument progresses in the debate, proves conclusively the correctness of the theory advanced by Mr. Harvey and the untenable position of Mr. Horr.

The positiveness of the position of the free coinage debater and his facts to back him show clearly the unmistakable position of the free coinage element, and further illustrates the object of the goldites the monopolistic intentions of the adherents of the single standard and the ultimate result to the common people and the country.

Mr. Horr has undertaken to prove that "Coin's Financial School" is an error in every essential particular. That he has signally failed is now proven to the satisfaction of all readers of the controversy.

On Gaupitil island in the South Seas there is a plant from which the natives make liquor that discounts anything we have in this country. One drink puts the drinker to sleep for two days, and if he fills his mug too full he is likely to waken up crazy. In view of the fact that a great deal of time and money are consumed in the process of getting drunk in this country, would it not be a good idea to import that South Sea tippie so that the process might be facilitated?—Statesman.

Women In Utah.

SALT LAKE, July 19.—At a meeting of the Utah commission today a resolution was passed instructing the registrars to enroll all persons regardless of sex, who are or may be qualified electors under the provisions of the enabling act and of the constitution. This action was taken in view of the uncertainty which prevails as to who may be entitled to registration under the provisions of the enabling act and of the constitution for the proposed state of Utah.

Promises of the Syndicate Do Not Keep Gold in the Country.

NEW YORK, July 18.—Notwithstanding the many promises of the "bond syndicate" to prevent the exportation of American gold, \$750,000 was shipped to London on Saturday's steamers.

The rate of exchange is so high that importers of coffee and sugar find it cheaper to buy gold. The exports of the present week will be fully \$1,000,000, with good prospects of a steady increase for the future. The "syndicate" say it is all right, and that it is the "ordinary course of business," and can't be helped.—Sun.

In the vicinity of Boquet, Westmoreland Co., Pa., almost any one can tell you how to cure a lame back or stiff neck. They dampen a piece of flannel with Chamberlains Pain Balm and bind it on the affected parts and in one or two days the trouble has disappeared. This same treatment will promptly cure a pain in the side or chest. Mr. E. M. Frye, a prominent merchant of Boquet, speaks very highly of Pain Balm, and his recommendations have had much to do with making it popular there. For sale by all druggists.

America's Great Danger

AN ENGLISH COMMENTARY.

Said an eminent English scientist recently: "The danger that confronts the great American people to-day is not the possible adoption of a wrong financial policy for the nation, or the spread of socialism, or the increase of corruption among public men. All these are bad enough, to be sure, but they are as nothing compared to the terrible national disease—I had almost said nation crime—of overwork. The mad rush for wealth is set at a killing pace, and thousands fall by the way every year."

You are likely to be one of the victims! How do we know? Because it is the exception to find a man or woman of adult age in perfect health. Nervous Disorders are spreading with fearful rapidity. Among the symptoms, are—Backache, Biliousness, Cold Hands and Feet, Dizziness, Hot Flashes, Fluttering Sensation, Fainting, Headache, Hysteria, Irritability of the Heart, Melancholy, Failing Memory, Palpitation, Rheumatism, Short Breath, Sleeplessness, Nervous Dyspepsia, Sexual Debility, Fits, etc.

REV. C. A. CARROLL, pastor First Baptist Church, Yellow Springs, O., writes as follows: "I have used Dr. Miles' Restorative Nervine for the past six months. I find it acts like a charm on the whole nervous system. I have not found its equal in giving immediate relief. Dr. Miles' little Nerve and Liver Pills only need a trial and they will recommend themselves to be the best pills in the market."

"For five years I have suffered from Nervous Prostration, I was unable to work or sleep. The first dose of Dr. Miles' Restorative Nervine gave me relief, and one thousand dollars would not cover the good it has done me."—JOHN MINCHER, Youngstown, Ohio.

Dr. Miles' Restorative Nervine is unequalled in curing Nervous Diseases. It contains no opiates or dangerous drugs. Sold on a positive guarantee by all druggists, or Dr. Miles Medical Co., Elkhart, Ind.
