—A communication in this issue from Pearl Geer, son of our townsman Cal Geer, referring to Katie Kehm Smith, who is billed to lecture here next Saturday and Sunday. Pearl speaks in the highest terms of the lady's attainments and character and he is perfectly reliable.

—People seem to be dissatisfied and on the move. The movers passing through this place, going each way, will average about seven families a day, some going to the southern and western part of this state, some to California, some to Washington and others stopping in this county.

—No correct news has been heard here concerning the hunting party that left here for Logan valley last week, but we heard a rumor, yesterday, that a Cinnamon bear cub had treed the whole party except Geo. Stanelift, who was out hunting, and they were patiently awaiting his return to rescue them from their perilous situation. If this rumor is correct we may expect them home at any time.

—B. F. Sinnott, U. S. Marshal, of Portland, came into Burns on the evening of the 12th inst. and went to Harney yesterday and arrested Price Withers on information filed at Portland in the proper court, charging Mr. Withers with retailing whiskey without paying special tax as required by law. Mr. Withers gave bonds to appear before the proper tribunal in Portland some time in Oct., we did not learn the exact date.

—Women riding the bicycle astride is setting the fashion of riding horses the same way. We all have to acknowledge this, at least, is the safer way of riding and will be quite different, with the short open skirt, to the old days of long riding skirts reaching nearly to the ground, and which we are still persuaded to believe the most picturesque and becoming to the sex, if it isn't the safest.

—Engene Denprey, one of the celebrated Bay city criminal lawyers who is defending Durrant was, about twenty years ago, when a very young man, in partnership with James B. Fay and Harry Kind, both of whom killed themselves. Fay was a well known and brilliant lawyer and politician of Southern Oregon, before he went to San Francisco, and shot himself while on a visit to Oregon. Kind soon after took poison.

In case she gets well, as soon as convalescent, she will go to her home in Silverton.

—Why is it that the daily papers, when alluding to the secretary of the interior, always use his first name as well as his last name? They do not write "Secretary John Carlisle," or Secretary Daniel S. Lamont" but they invariably write "Secretary Hoke Smith." There is no other Secretary Smith to justify this. The editors seem to be infatuated with the name "Hoke." They seem to think it a great joke to keep repeating the name Hoke.

—It is stated that the massacre at Ku Chang, China, was a most diabolical outrage and evidently a premeditated and carefully arranged attack. It was made upon the occupants of the missionary station while asleep. It is also stated that if any further outbreak occurs the native officials will be unable to cope with the mob. Fukein province is in a state of rebellion and the American mission at Fung Fuk, has been burned. Europeans and Americans have telegraphed for gun boats to protect the foreign settlement.

A PLEASANT SURPRISE.

On last evening we were pleasantly surprised by the coming of about forty friends and neighbors to our home. They came with joyful hearts and full hands, and as a result our kitchen was filled with the substantial of life and a pleasant social hour was spent which closed by songs of praise and thanksgiving. We take this occasion to publicly express our thanks and gratitude to all who were present and to many who did not come but sent their donations as expressive of their kind interest in us and the cause of our Master whom we serve.

MR. AND MRS. W. H. GIBSON.

A Communication.

SILVERTON, Aug. 8.—[EDITOR HERALD:] I wish to state to the people of Burns and vicinity, through the columns of your paper, that Katie Kehm Smith, who is billed to lecture at Burns Aug. 17 and 18, is a perfect lady in every respect and admired by all who meet her. She steps forth boldly advocating a heretofore unpopular cause, strictly adhering to the truth, with sound logic and makes no statements she cannot prove. No one can afford to miss hearing this intelligent lady.

Very truly yours

PEARL W. GEER.

Pres. Silverton Secular Church.

In the country near a large city we saw the following inscription upon a tombstone: "In loving remembrance, this stone is erected to the memory of Rebecca Sniff by her loving and heart broken husband, Isaac Sniff, who can be found at 817 Pleastine avenue with a first class line of second hand clothing furniture, etc. The Lord giveth, the Lord taketh away; Blessed be the name of the Lord. Highest market price paid for bones, rags and feathers.—Ex.

Word reached here Wednesday that a little "gun practice" took place on Beaver last Tuesday, between Charlie Woods and a man named Melograff. Very little could be learned concerning the fracas, but it is reported that the difficulty grew out of a dispute over range. Both men were herding sheep at

the time—Melograff for Boö Odell and Woods having Mrs. Osborn's sheep in charge. The Review's informant said the men met on the range and quarreled, and Melograff drew a pistol on Woods, who, being armed with a Winchester, poked it against his adversary's leg and pulled the trigger, sending a ball through his thigh. Up to the present date no arrests have been made, nor have any complaints been entered.—Prineville Review.
