In Business at Burns.

Mrs. R. D. Scheiber, the erstwhile popular boarding house keeper at the White Swan and La Bellevue mines, and of whom it may be said she has few equals and no superiors in looking after the wants of the inner man, is now owner of both hotels in the town of Burns, Harney county, and is conducting both hostleries in the highest style of the art. The Democrat but expresses the well wishes of hundreds of people in Baker county in hoping that she will be rewarded with the financial success she so well deserves - Baker Dem.

To The School Boards and Teachers of Harney County.

It has been reported to me, that in many school districts of this county, school affairs are conducted in a very careless un-business like form.

I am informed that in many instances agents employed in selling school apparatus and furniture, presents himself to one director commends his goods and probably gets encouragement to the extent that his goods are needed in the district. The agent goes to the second director and gives a glowing repetition of what is said by the director already seen and ends by saying the one consulted is willing to purchase and desires his consent. Many directors not thinking or caring much about it, will consent. Then the agent, highly elated, goes to the third and gets his consent. This manner of doing business is irregular and such contracts void.

A contract made in this way by an agent, if the law is strictly observed, the consideration cannot be collected.

In many cases, much of the apparatus purchased, is not applicable to the school of no important advantage, consequently thrown to one side, and money expended for nothing.

And again directors should not buy of agents at all but directly of the firm, because in buying of an agent you have his salary to pay, and also the worth of the goods.

Any information I can give the school boards in this matter, shall be given willingly.

Another matter to which my attention has been directed is using money for the purchase of apparatus, not intended for that purpose the law is very plain on that point and monies, if used, must be replaced to the fund where it properly belongs.

Teachers can assist directors, greatly, in this direction, knowing just what kind of furniture is best adapted to the wants of the pupils, and advise to buy just what is wanted and nothing more.

A lot of maps, charts, etc. not actually needed soon becomes rubbish, and the expenditure of a good many dollars finds its way to receptacles where such unnecessary articles are deposited.

W. C. BYRD, School Supt.
