COUNTY OFFICIAL PAPER

SATURDAY JULY 13, 1901.

If the democrats read all the men out of the party who endorse expansion and sound money there will soon be nothing but populists left.

Uncle Sam is somewhat of a multi-millionaire himself. He cleaned up in profits on his business for the last fiscal year the tidy sum of \$76,000,000.

According to the decision of a Colorado judge, women have the same right as men to go into a saloon and imbibe freely or otherwise of Colorado bug juice.

The St. Louis preacher who wore a shirt waist in his pulpit while he preached on "Fads in Religion," should have called his sermon "Fads on Preachers," or "Fads in the Pulpit."

An Ohio man who had held office for twenty years has been placed in an asylum in consequence of his defeat. He was bound to make the public support him. This has no local application.

Democrats who accuse republicans of being afraid of the tariff question have short memories. The record of the republican party shows that it has never been afraid of any public question.

The world wants things that are genuine. It wants people who seem to be what they are. It is tired of pretentious, of cant, of fakirism, of flubdub and nonsense. It is sick of goody good people. It wants a little wholesome common sense. It needs more warm hearted, broader minded, sincere goodness—the real thing and not the counterfeit. —Denver News.

The press of the state has it that Judge Lowell, of Pendleton, is an aspirant for the republican nomination for governor. The vast empire east of the Cascades would not object to have both parties select their gubernatorial timber from its locality. In that event Eastern Oregon would have a representative in the state's executive chair, matters not what the result of the election would be. The candidacy of any Eastern Oregon man in the past has not been seriously considered, yet there is no reason why each of the leading parties should not recognize the section east of the Cascades oftener than they do.—Canyon City Eagle. There is no danger, however, that this plum will tickle the palate of an Eastern Oregon man. There is no reason for this, other than the center of Oregon state politics lies a little too far to the West.

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper.

THE OHIO PLATFORM.

In touching upon Cuban Independence and the Philippines, the Ohio state republican platform says:

"The nation's pledge to the island of Cuba is being faithfully kept, insuring freedom and independence to her people. Order has been maintained, the interests of the United States conserved, and the island today is enjoying more national prosperity than ever before. We congratulate the people of Cuba upon wise and conservative action in favor of stable government. Porto Rico is flourishing beyond all her former experiences, Hawaii's entrance into full territorial relations with the United States government has been marked by the most marvelous progress known in the history of those islands.

"In the Philippine Islands a wicked insurrection has been suppressed, the chief leaders have taken the oath of allegiance and the anticipated large increase of our regular army has been rendered unnecessary. Civil government, contemplating the largest practicable degree of home rule has succeeded military control. The American educational system has followed the flag into these islands, and personal freedom, with an equality of rights heretofore to them unknown, is secured to every inhabitant."

The Iowa supreme court has held that an editor may freely criticize any public entertainment if not actuated by malice. Speaking of a libel case that recently occupied the attention of the courts of that state the Boston Transcript says: "That Hamilton did exercise considerable license is seen in the fact that he referred to the Cherry sisters as 'spavined, stringhalt and with legs as elastic as the curves of a broom-handle,' and their dancing was described as 'a cross between the hoot-hie kootchie and a fox-trot.' One of the sisters was referred to as a 'jade,' another as a 'frisky filly' and a third as a 'capering monstrosity.' Their fingers were called 'talons,' their mouths 'caverns,' their features 'rancid' and their voices 'the wails of damned souls.' They were 'strange creatures' with 'painted faces and hideous mien,' and other compliments of a like nature were freely bestowed. In a word, the dramatic critic appears to have the right of way of Iowa."

It is pretty hard to convince the average advertiser that returns do not come in immediately after the first insertion of an advertisement. The most successful advertisers have taken years to educate the people to believe their advertising. Their firm name has been kept constantly before the public and each ad. has stuck constantly to the truth. Truthful advertising pays because the people, who know, place confidence in advertising of that kind.—Baker City Republican.

Whenever you hear an old "blow-hard" talking loud enough to a stranger for everybody within a block to hear him, about the country not being fit for anything, and no land in the country left that would, if cultivated, keep a jack rabbit alive, you can put him down as a "chronic kicker" and "calamity howler," who is no good to himself or anybody else. A man who thinks his own county is no good ought to move out.—Lakeview Examiner.

Maine people have been celebrating the 50th anniversary of the enactment of the prohibition law, and every body who wanted to celebrate by becoming hilarious or inebriated liquor could do so just as easily as the same could be done in any other state. It was the celebration of 50 years' failure.—Portland Telegram.

A Judge in Canada has recently decided that American divorcees are not good in that country. The fact of the matter is they are considered rotten at home.—Exchange.

PUEBLO DISTRICT.

Sumpter People Who Are Interested There Bring Favorable Reports.

A. H. Steel of Sumpter, returned Monday from the Pueblo mountain district, in Harney County, where the recent copper discoveries were made, says the Sumpter Miner. While there he and James Barnett, another Sumpter prospector, beat several very promising claims, the ore from which is identical with that exhibited here by Messrs. Cupid, Canfield, Davidson and others interested in a large group, of which The Miner has already made mention.

Mr. Steel says the average width of the vein on their claims is fully four feet between clearly defined walls, and that besides a large percentage of copper, the ore carries high gold values. He speaks highly of the country where they are located and says it will be particularly easy to open up, the country rock being easy to work. The ledges are strong and show well on the surface. Compared with the Montana copper country, where he has worked for years, he says this is so far ahead of it that there is no real comparison. That a railroad is sure to come into that district soon, Mr. Steel is positive.

Recent advices from there also say that a splendid quality of coal has been discovered near the copper finds, which if true, will create a lively stir. The vein is said to be from sixteen to eighteen inches thick. This will be better than a gold mine in itself, but when the two together can be worked at a

profit nothing would keep a railroad out, with only 100 or 120 miles to build.

Mr. Canfield also returned from the Pueblo district a day or two since and confirms the favorable reports from there that have reached here during recent months.

Half a Million Pounds of Wool Sold.

The importance of Huntington as a wool center may be judged from the fact that during the past week over half a million pounds of wool have been sold here. The growers who have disposed of their clips and the prices received by them are as follows: Whittier Bros., 9 1/2 cents; Lyon & Swain, 11 cents; O. E. Thompson, 11 cents; G. W. Harkness, 1900 clip, 10 1/2 cents; 1901 clip, 10 1/2 cents; E. L. King, 10 1/2 cents; Frank Porter, 10 cents; R. H. Brown, 1900 and 1901 clips, 11 1/2 cents; Washburn & Robbins, 9 cents; Ellsworth Brown, 11 1/2 cents; Daly & Robbins, 9 cents; Porter, Jones & Test, 10 1/2 cents. The wool was bought by J. Koshland & Co., Jeremiah Williams & Co., Hollowell & Donald, and Denby, Rice & Benedict, all of Boston. Among the clips sold by the O. C. Co. were those of Ellsworth and R. H. Brown, these being particularly choice clip and bringing the top price of the season, 11 1/2 cents.—Huntington Herald.

WANTED—TRUSTWORTHY MEN AND WOMEN to travel and advertise for old established home of solid financial standing, salary \$750 a year and expenses, all payable in cash. N. canvassing required. Give references and enclose self-addressed stamped envelope. Address Manager, 255 Canton Bldg., Chicago.
