MOVE TO TRANSFER LANDS.

Another Effort to Cut Down the Lakeview District.

Washington, July 17.—Renewed efforts are being made to have a part of the Lakeview land district, in Oregon, transferred to the Burns district, but what success will attend this effort remains to be seen. A large petition has been received at the General Land Office asking that a tract of land about 60 miles square, forming the extreme southeastern corner of the State of Oregon, be removed from the jurisdiction of the Lakeview office and placed under that at Burns. The signers of the petition assert that the lands in this tract are more accessible to the latter office than to the former. Their allegations, however, are in general terms, and because of their indefiniteness the papers in the case have been returned.

About a year ago many of the people interested in this move petitioned for a similar change, but at that time were concerned in a smaller tract. The names appearing on the original petition generally appears on the one just received, together with many additional ones. While the assertion is made that this fact is more accessible to the Burns Land Office than to Lakeview, the map seems to show the contrary to be the fact.

No member of the state delegation appears to be interested in the proposed change, for there is no record of congressional recommendation one way or the other. However, when the petitioners make reply with more details the department will decide upon some course of action.

Not a single pound of wool is stored in the Huntington warehouses at the present time. During the week J. H. Neal and Jones & Williams, of Stein Mountain, disposed of their wool at 11 cents, and the O. C. Co. received 9 cents for their clip. There has been a good demand for wool this year and the market has been strong and active. The prices received have been satisfactory to the growers, much better than some expected at the beginning of the season, and they are pleased that they could sell their wool as soon as it was offered and be able to return home to attend to other business.

Active preparation are under way for holding Harney county's second annual fair, which is to be held September 16 21. The past season has not been up to the average but abundant crops are being, or will be, harvested, which insures a good exhibition in this line. It is an excellent year to show to outside visitors what can be done in this county notwithstanding the season. The live stock show promises to be much larger than last year. The total amount of premiums will amount to about \$1600 of which the county court will give one eighth. A race program will be given that will eclipse any former meeting in the interior, and in all probability a baseball tournament will be held. "GOOD SENSE"

It is "Buy Where You Can Buy Best."

Many people who believe in this principle, go wrong in the application through lack of judgment, or are misled by alluring descriptions and impossible promises of eastern "catalogue" houses.

The Queen City Furniture Co., of Baker City, will sell you most anything in their line cheaper than you can buy elsewhere. You owe it to yourself and to your family to take advantage of the opportunities offered. You can make one dollar do the work of two.

The Queen City Furniture Co. is the largest house furnishing establishments (outside of Portland) in Oregon. They buy direct from factories east, in carload lots for cash and they will duplicate it price and quality any article you see advertised by large catalogue houses east or west (allowing for difference in freight) and you don't assume the risk (of freight, damage in transit, etc.) as prices quoted will be F. O. B. Baker City.

Some Prices

For instance you see advertised by an "eastern catalogue house" wall paper at 4c and 5c per single roll, 8c and 10c double roll. You can buy same grades Q. C. Furniture Co. at 5c single and 10c double roll in Baker City. Take the item of iron beds. You will have to pay east \$2.90 to \$3.50 for an iron bed that you can buy from Queen City Furniture Co. at \$3.50 to \$4 in Baker City.

The carpet department of the Queen City Furniture Co. is most complete and a new electric carpet sewing machine will soon be added with a capacity of over 2000 yards per day.

It will pay anyone interested in the above lines to write us before placing an order.
