

# Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

will generally correct this difficulty. If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

**A Prominent Chicago Woman Speaks**  
Prof. Roxa Tyler, of Chicago Vice President Illinois Woman's Alliance in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but it seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering and I will never be without this splendid medicine again." For sale H. M. Horton, Burns; Fred Haines, Harney City.

**A Profitable Investment.**  
"I was troubled for about seven with my stomach and in bed half my time," says E. Demick, Somerville, Ind. "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well." You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles. City Drug Store; Fred Haines, Harney.

**Beat Out of an Increase of His Pension**  
A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48, I contracted Mexican diarrhoea and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me. It is unequalled as a quick cure for diarrhoea and is pleasant and safe to take." Sold by H. M. Horton, Burns; Fred Haines, Harney.

## NATIONAL SYSTEM OF IRRIGATION.

Continued from First page. America are equal to any demand made upon them in plans for irrigation, the money resources of America are equal to its entire needs, and the water in America is ample to eventually water every foot of our soil which can be used for horticultural or agricultural purposes.

**A Race of Land-Owners.**  
With one honest, intelligent, extensive plan, well considered and wisely carried out, we could not only add to the old triumphs of this Republic new illustrations of our power, but we could, in the settlement of our new farming and business population on what are now desert lands, do wonders—wonders such as all our past works would pale before. We could reforest the continent in 400 years. Suppose each man who owned 160 acres put in ten acres of trees; we could perceptibly change and improve the climate. We could give an impetus to every kind of trade which, with our new advantages in the Orient would more than double our present trade and traffic. We could supply a field for the exertion of every kind of skill and every attainment of handicraft. We could work out many of our most vexed questions, for we could, I am sure, in giving to the nation a race of land-owners, give it a race of men and women who by interest, instinct, and choice, would be patriots. We would create a field large beyond the dreams of most educators of to-day—a field where the college president, the school teacher, the newspaper editor, and, above all, the Church of God could do their holiest and best work.

Bound up with the irrigation and the land problem on a national scale is every other question which is for the progress, the greatness, the moral, the religious, and the commercial supremacy of this the most wonderful Republic in the world's history.

Mr. Editor—neither my time nor your space permits me to elaborate many of the possible advantages of irrigation. I may, however, do this. I may say that in the development of the West the railways must play an important part, and I appeal to those who honor me by reading this paper, who have a share in shaping the policy of the transportation of persons and goods to remember that in best serving the public they best serve themselves. I have no class of men in America who have done so much for the development of the national resources, who have been so subject to vulgar abuse, or who have received so little credit. This should cease, and we all, with noble purpose, should seek steadily to advance the mighty ends we have in view in our nation's plans and history. Our banners should be inscribed with:

"The public lands for those who will live upon them and use them well."  
—William Wilkinson in December National Homemaker.

**Children Especially Liable.**  
Burns, bruises and cuts are extremely painful and if neglected often result in blood poisoning. Children are especially liable to such mishaps because not so careful. As a remedy DeWitt's Witch Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of counterfeits. Sure cure for piles. "DeWitt's Witch Hazel Salve cured my baby of eczema after two physicians gave her up," writes James Muck, N. Webster, Ind. "The sores were so bad she scalded two to five dresses a day." City Drug Store, H. M. Horton, prop; Fred Haines, Harney.
