A convention of the leading modistes of the country, held in Chicago last week, decided that that city and not Paris, London or New York should set the fashions for American women. This may cause disappointment to the superseeded cities, but, coming from Chicago, it ought not to cause surprise.

Don't ask for credit if you can possibly avoid it. If, however, you find it necessary to ask credit, be sure to meet the obligation when due. Business men of experience and intelligence generally look upon the credit system as a breeding of extravagance, the abettor of dishonesty, the estranger of friends and the murderer of hopes. Pay as you go and you will escape many temptations and lead a more happy life.

It is no use trying to please everybody in editing a paper. You may say all the good things that can be thought of about some persons and things and nothing is said in commendation. But let an item appear that some individual constricts as a criticism and all at once the editor is condemned and maligned privately and mentally by the people who should show better judgment. And too the editor has to grin sometimes at the weakness of human nature and poor frail mortals and worms of the dust like unto himself.—Ex.

An exchange prints the following love letter: "Mine—Most worthy of admiration! After long consideration and much meditation on the great reputation you possess in the nation, I have a strong inclination to become your relation. On your approbation of this declaration I shall make preparation to remove my situation to a more convenient station, to profess my admiration, and if such obligation is worthy of observation and can obtain commiseration it will be an aggrandizement beyond all calculation of the joy and exultation of your. 'Sans Dissimulation.'

He will rise early in the morning for the next six or seven weeks; he goeth forth to greet the honest farmer with a strenuous grasp of his horny hand, praiseth the comeliness of the good housewife, devoureth the little tots with kisses and caresses and pats the honest watch dog on the head. SPRINGER WINS OUT IN SUPREME COURT

A dispatch from Washington to the Oregonian of the 8th inst. says:

"The Supreme Court today affirmed the decision of the Supreme Court of Oregon in the case of the French-Glen Livestock Company

against Alva Springer, involving title to certain lands on the present borders of Lake Malheur. These lands were originally covered by the lake, but owing to recession of its waters became classed as swamp lands, and as such passed to Springer.

The case at issue is but one of many involving practically all the low land surrounding Lake Malheur, which has long been claimed by the cattle companies owning large tracts adjoining."
