The President has signed the Chinese Exclusion Bill, which is simply a re-enactment of the Geary Law.

Recent reports from every branch of industry show that there is no sign of abatement in any of the lines of industrial prosperity. The prices of all manufactured products are on the rise and take all natural products with them sympathetically.

**Children's Fertilizer.**

That's a good name for Scott's Emulsion. Children are like young plants. Some will grow in ordinary soil. Others need fertilizers.

The nature of some children prevents them from thriving on ordinary food. Such children grow right if treated right.

All they need is a little fertilizer—a little extra richness. Scott's Emulsion is the right treatment.

Fertilizers make things grow. That's just what Scott's Emulsion does. It makes children grow in flesh, grow in strength, grow rich blood, grow in mind, grow happy. That's what we make it for.

SCOTT'S EMULSION, 108 Broadway, New York, N. Y.

We want for County Judge and Commissioner, men who have the same use for good county government that other solid men have. Who are such men? Surely it must be men of good practical judgment who have been here long enough to understand clearly what is needed for our roads, bridges, finances, etc. H. C. Levens and C. T. Miller, men who for years have been identified with the concerns of Harney County, honest, respectable citizens, able counsellors, and as candidates for County Judge and Commissioner on the Harney County Republican ticket, which is about the best representative ticket nominated in Harney County, are our men! When you have a good representative ticket, elect it, and thus encourage good nominations.

To recognize at a glance the actual financial value of property, and at the next glance to estimate it at the amount obtainable for it in the market in a fair and impartial manner, to large and small owners alike, requires a man of more than ordinary ability, but such requirements are necessary in the selection of a man for County Assessor. John E. Loggan is a young man fully qualified to meet these requirements, and if you want rigid economy and equal taxation for every property-holder in the county, you should vote for Loggan, a man equitable in disposition, able in calculation and well worthy to be chosen for the office of Assessor in any county.

If you ever vote for a candidate for Sheriff, be sure of his points. And if, in your midst for several years as a citizen, his general doings have displayed sagacious judgment, coolness, penetration and manly courage, he is your man for Sheriff. Because such a man is one of the best on the track of the reckless violator of the law. Nobody in this county knows any better man for that very office than Thomas Allen, the Republican nominee. He is well known as a successful stockman, a man of tranquil deportment and friendly disposition. Tom is the man for Sheriff.

The fact that R. T. Hughet is a successful stockman is evidence enough that he is a live business man. The fact that the performance of his own clerk duties is one of the chief elements of his success, is proof that he is an accurate accountant. From these two facts is drawn the clear conclusion that he would make a good County Clerk. Add to these, the fact that he is honest, and you have the popular kind of county clerk who would attend to the county's business as honestly as he has his own business. Hughet for Clerk!

The man best qualified to handle the county's revenues and collected funds is the man who has done a good business and handled his own collections and revenues successfully, and never failed to bring them right side up with care. R. A. Miller is just that sort of man, and will undoubtedly be re-elected for a second term.

The Initiative and Referendum Amendment to the Constitution is in the direction of a government of the people by the people and for the people. You have a voice at the coming election regarding the adoption of this amendment. Which shall it be, Yes, or No?

If elected Justice of the Peace everybody may expect fair treatment at the hands of Dyke Jameson. You all know him. He has served as Justice of the Peace for several years now, and nobody questions his disposition to render to every man his due.

The Republicans have a good man in Fred J. Palmer for Joint Representative of Malheur and Harney Counties. Stand by the flag and cast your ballot for Palmer!

**A SUMMING UP.**

An exchange in summing up what the two great parties of the United States have accomplished in the last twenty-five years says: Will some one kindly name a measure which has been championed by the democratic party during the past quarter of a century that is not dead and buried beyond the hope of resurrection? It can't be done, but, on the other hand, the republican party has to its credit the reconstruction measures which followed the ending of the civil war, the resumption of specie payments, the establishment for all time of the theory of protection to American industries, the adoption of the gold standard coupled with the resulting era of prosperity unequalled in the world's history. True, there is scarecrow of "imperialism," but while a pair of old pants in a cornfield may scare the black winged birds of prey, in the broader fields of national politics bug bears have had their day. Dead sea apples is all that's left for democratic feasts. Hecatombs and other tombs constitute the heritage of democracy.

**PUBLIC LAND LEASING.**

Continued from First page. able shyness about reporting any leasing bill, especially at this time. In all but a few states the general sentiment is against that class of legislation, and members do not care to go on record as opposing the wishes of their constituents. More than this, others believe that any leasing bill, no matter how carefully drawn, would allow loopholes enough which the corporations would in time be able to acquire practical ownership of the great bulk of the now vacant public lands, and such a condition is generally acknowledged to be to the detriment of the public welfare. The cattlemen are threatening to "make it warm" for some members of the committee who are not willing to support a leasing bill, but their influence is not sufficiently great to control a majority of the votes.

The representatives of Western cattle interests, who have been about Washington lately, in the hope of influencing legislation affecting their interests, have so far met with nothing but failures. They recently called at the White House to enlist the President's support of a leasing bill, and, failing in that, ask that he direct the indefinite suspension of orders of the Interior Department that all fences illegally erected on the public ranges be removed. There are over 600 such fences which have recently been ordered removed by the department within a reasonable time, the law providing that no fences shall be erected on the public domain. Time and again these cases have been appealed, and delays of one character and another have been granted until all patience has been lost with the lawbreakers.

The fact that the President had had experience on Western ranges led the cattle men now in the city to appeal to him. But, to their surprise, the President said that while he sympathized with them in their difficulty, and realized the trouble and expense to which they would be put, he could not see his way clear to grant further extension of time, and directed that they act as ordered by the department. This illegal fencing is not confined to any one section, but prevails all over the sheep and cattle raising states.

The Interior Department has determined to go ahead with this work of removing fences wherever they are found to exist. Immediately upon receipt of reports reports of violations of the law, orders are to be served on the offending persons notifying them to remove the fences within a specified time. If they fail to do so, proceedings will be taken against them through the Department of Justice, and the fences will be removed by representatives of the Government, who have full authority to act in such cases.

**A WORTHY SUCCESSOR**

"Something New Under the Sun."

All doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation.
