The Washington correspondent to the Oregonian of the 16th says: Senator Mitchell has secured Victor B. Dolliver, a brother of Senator Dolliver, of Iowa, to speak during the remainder of the Oregon campaign. Victor Dolliver is the equal of his brother as an eloquent campaigner, but, not having been in public life, has not the reputation of the Senator. It is quite likely that Dolliver will leave Fort Dodge Iowa, his home, going direct to Baker City, and beginning his tour at that place.

NEW LEASING MEASURE

Limits Holdings to Three Thousand Acres. Corporations Shut Out.

Through the kindness of Representative Moody we are in receipt of a new leasing measure which has just been referred to his committee (Committee on Public Land)

The measure differs greatly in many features from former ones, the most unsatisfactory points being eliminated. After carefully reading its provisions we are unable to note any particularly objectionable features, and if we must have a lease law, this bill provides for about as good a one as could be framed. We will not enter into a discussion of its different provisions, but submit the bill in full to our readers for their perusal and would be pleased to have them pass their opinion upon it. The bill in full is as follows:

To grant grazing privileges to homestead settlers and holders of small farms in the arid and semiarid land region, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the purposes of this Act are to give to homestead settlers and holders of small farms the opportunity, in the arid region, to improve, use, and protect the grass upon the public domain in the vicinity of their holdings, so as to prevent the further deterioration and the monopolization of the range by the owners of large herds of live stock; and the rules and regulations to be made and promulgated by the Secretary of the Interior under this Act shall be made with reference to its purposes as defined in this section.

Sec. 2. That so much of the arid and semiarid public lands not capable of irrigation as may be necessary for the purposes of this Act may be leased for stock-grazing purposes, subject to the right of homestead, mineral, and other lawful entry under existing laws. Said leases shall be made under such rules and regulations as may be prescribed by the Secretary of the Interior and for the purposes of and subject to the limitations of this Act.

Sec. 3. That all leases shall run for a period not exceeding five years. Such leases shall be limited to an area of not exceeding three thousand two hundred acres to any one person, and such leases shall not be assignable or transferable, but in case of the death of the lessee shall inure to the benefit of the estate or legal representatives of such lessee. Such leases shall only be made to actual homestead settlers or to freeholders whose lands are in the vicinity of the lands to be leased by them. And the holder of a homestead prior to patent may obtain a lease for not exceeding ten times the area of land included in his said homestead, and the owner of lands in freehold may in like manner and under like restrictions acquire a lease for ten times the amount of his said freehold, but in no event to include more than three thousand two hundred acres for any one lessee under this Act.

Sec. 4. That during the continuance of any lease made under this Act the lessee may fence the leased land or protect the same from trespass in any other lawful method.

Sec. 5. That no corporation shall be entitled to any lease under the provisions of this Act.

Sec. 6. That where there are two or more persons eligible to acquire leases under this Act who may desire leases upon the same land, and there is not enough public land in such locality to supply the said applicants, then such lands shall be apportioned among such applicants under rules and regulations to be prescribed by the Secretary of the Interior.

Sec. 7. That the lands to be leased under this Act shall be classified and graded by the Secretary of the Interior into six classes, and the annual rental shall be one, two, three, four, five, and six cents an acre, according to class or grade, payable at such times

and in such manner as may be prescribed by the said Secretary. The proceeds of such leases shall be paid into the Treasury of the United States.

Sec. 8. That nothing in this Act shall prevent the lessees or other persons and corporations from the privilege of grazing their stock upon the public lands not included in such leases.

Sec. 9. That nothing in this Act shall apply to or change existing law as to forest or other reservations: Provided, That the Secretary of the Interior, under rules and regulations to be made and promulgated by him, may make and collect such charge per capita as he may determine for each horse, sheep, cattle, or other animal which he may permit to graze within the forest reservations.

Sec. 10. That when any mineral or homestead or other lawful entry is made upon leased land the lease shall be canceled thereon under rules and regulations to be provided by the Secretary of the Interior.

Sec. 11. That in leasing under this Act the regulations shall provide for the reservation of watering places and streams where practicable, so as to render the same accessible from the leased lands in the vicinity; and such regulations shall also provide for the necessary right of way across other leased lands in order to enable any lessee to have access with his stock to and from the lands leased by him.

Sec. 12. That leases may be renewed for further terms: Provided, That in renewing such leases the right to prorate by other applicants under section six shall be applicable.

Chicago, May 14.—Cattle prices were higher at the Union Stockyards in Chicago today than for almost 20 years. The top price for the day, \$7.60, was 10 cents in advance of the high mark last week. All the offerings were snapped up. The prices of hogs and sheep also made record marks for the year.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
