

SATURDAY SEPTEMBER 13, 1902.

The Keynotes now sounding indicate some lively campaign music for the republicans and an all "rag-time" program for the democrats.

Free trade theorists would find conditions in Africa to suit them. All the exports are national products and all the imports manufactured articles.

Once in a while we read of the "Populists". Will some student of ancient history kindly tell us who they were, where they lived, and what they did?

It is quite true that the tariff may need some surgical attention but the people will see to it that the cutting is done with a lancet, not with a battle ax.

The democrats have paid so much attention to the weeds in the republican fences that they have quite forgotten the dilapidated condition of their own boundaries.

Great Salt Lake is at the lowest level since observations of it have been recorded. In nine years it has lost six feet in depth and in some places has narrowed nearly a mile.

China is about to mint her own higher coins and has asked our government to loan her an assayer and a superintendent of machinery. At present, Mexican and other silver dollars are the current money of the empire.

Congress and the legislatures are the only bodies allowed to misappropriate the people's money without being liable to prosecution. Ignorance of this fact has gotten more than one person into trouble.—Portland Daily Journal.

Justice Shiras expresses his views on the labor question as follows: "The incorporation of labor unions is the primary step toward the passage of an arbitration law. The unions must be responsible for the carrying out of an agreement and until they are there is little hope for compulsory arbitration of labor troubles.

The people like a man. Mercenaries may please and amuse them, as other artists do, but when they find a man they are apt to stick to him. Mr. Roosevelt has honesty, ability and courage, as is shown not only by his present speeches but by his life work, and the people won't forget that he is not only pleasant but has common sense.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmor's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmor, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing backache, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmor's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy for you. It has been tested in so many ways, in hospital work, in private practice, among the helpless poor to produce relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmor's Co., 119 N. 4th St., Hamilton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

BLUE MOUNTAIN FOREST RESERVE.

Commissioner Binger Hermann of the General Land Office, who is spending a few days in Portland before returning to Washington, is credited by the Oregonian of the 9th inst. with the following:

"Regarding the proposed forest reserve in the Blue Mountain region I can only say that the matter is entirely unsettled and is now pending before the Department of the Interior. The tract has merely been withdrawn from settlement and whether a reserve will be created, and if so, upon what lines, remains to be determined. Concerning the effect the creation of the reserve would have upon the grazing war in Eastern Oregon, I can say nothing, except in a general way, that the department is friendly to the grazing interests, and the regulations have met the approval of the sheep and cattlemen. This would seem to be a demonstration of the beneficent influence of the forestry regulations. The department is liberal in granting grazing privileges except where it is found that grazing injures the tree growth or interferes with the waterflow."

Congressman Littlefield made a little speech the other day at Lewiston, Maine, which the Democrats have been studying carefully. They are not sure, after all, that this is such a good year for "tariff reform." After ridiculing the Democracy for its hard luck in getting only criticism for its attacks upon the American Army, he commented on the Democratic statement that the "tariff fosters the trusts." In the first place, he stated that there are thousands of corporations that are not fostered by the tariff, the biggest trust in the country, Standard Oil, leading them. Anthracite is a trust and there is no protection on that. Then go to free-trade England, he said, and you will find the country honeycombed with trusts; they have been there since 1640. They are all over Europe and in countries that have never heard of a tariff. But, continued Mr. Littlefield, strike off the tariff, and who goes to the wall first? Why, it is the weaker party, the individual competitor. The friends of Mr. Littlefield promise some interesting trust talk this fall from the Maine statesman.

Some of our exchanges take exceptions to the creation of forest reserves, claiming that such acts are considered grafts or rather, favors for a few at the expense of settlers and home-builders. We can say that the setting aside of a reserve in this case means, as it is the president's policy, seconded by congress, to in time commence an experiment in irrigation throughout the arid and semi-arid states, that Oregon may possibly come in for its share of attention. We do not know yet where the initial experiment will be made, nor is it material; but at some future date the effort will be made to bring department supervision to bear on irrigation schemes in Eastern Oregon where small companies cannot command the necessary capital. In view of this, we cannot help thinking the government is quite sensible in commanding the available water supply, wherever it may be of this state or any other state or territory. Such a step is absolutely necessary and conducted on through business principles.—Prineville Review.

President Roosevelt addressed the National Brotherhood of Locomotive Firemen at Chattanooga, Tenn., Monday and was elected an honorary member of that body.

Maine rolled up a big off-year plurality for the Republicans in the election Monday, carrying the state by 27,000.

Percy Arnold Smith, of Portland, has been appointed to the vacancy at Annapolis by Senator Simon.

Marine engineers on the Columbia and Willamette Rivers have ordered a strike.

HARNEY COUNTY FAIR PREMIUM LIST

Following is a complete list of premiums to be awarded at the Fair, September 22 to 27, inclusive: All premiums will be divided as follows: Seventy per cent, first premium, 30 per cent second premium. A certificate accompanies each premium stating the grade of the prize awarded. Ten per cent of premium will be charged on all entries for prizes over \$2.50.

Have you seen the beautiful chiffonier which Lunaberg & Dalton will give away Sept. 27? Drop in and get particulars.

If you desire to trade for, or buy desirable town property call at this office.

Jorgenson repairs watches and clocks. Work guaranteed.

Oregonian and Items, \$2.00

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens. Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

SCOTT'S Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

SCOTT & BOWNE, Chemists, New York.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee.
