COUNTY OFFICIAL PAPER

SATURDAY SEPTEMBER 20, 1902.

It will be a long time before the people consent to destroy the present prosperity even for the sake of destroying the trusts.

You can keep a rooster from crowing by fastening a string to his foot and passing it over his neck. He never crows unless his head is thrown back.

A man who lost his upper and lower eyelids in a fire had new ones grafted on in their place. The outflow was obtained from his hip and the experiment was a success from the first.

The democrats harp upon what they call the "plain people". All of us, with the exception of the unfortunates in the asylums and a few crack brains who are trying to get there, are "plain people".

The statement, coming from democratic sources, that the republican leaders mean to discredit the President should be received as are other democratic statements,—with a very large proportion of salt.

Perhaps it has occurred to Mr. Roosevelt that he is the President of the largest trust on earth, the United States, and that the United States being the father of the trusts, has the undoubted right to spank them all.

Krupp, the German gunmaker, has invented a projectile that will pierce the best armor plate ever made. This will render useless every battleship in the world. The type of vessel known as torpedo-destroyers will probably be the warship of the near future.

NEW BILLS.

Bills will be introduced at the coming session of the Oregon legislature as follows:

For a state grain commission.
Taxing insurance companies more for the benefit of the common school fund.

For a railroad franchise tax.
Taxing telegraph, telephone and express companies on the basis of their gross receipts.

For a new and more practical road law.

Making corporations liable for injuries to an employe when due to the negligence of a fellow-employe.

Abolishing rebate on taxes for early payment.

For state control of school books and their sale at actual cost.

For precinct assessors.

Making eight hours a day's labor throughout the state.

For graduated income and inheritance taxes.

**Women as Well as Men
Are Made Miserable by
Kidney Trouble.**

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine smells the flesh or if, when the child urinates an agonizing pain should be able to be felt in the passage, it is not afflicted with kidney trouble, but with a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar boxes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

MORE ABOUT THE RESERVE

Baker City Democrat: Mr. Drake C. O'Reilly, formerly assistant general freight agent of the O. R. & N Co., now at the head of a large rotund timber business in Portland, who passed through here Friday evening in company with Hon. C. E. S. Wood, of Portland, who had his leg broken while riding horseback in Harney county, said to a reporter at the train, in reply to the question as to what effect the recent forest reserve order had on the lumber, mining and railroad interests in southeastern Oregon.

"The first and most sweeping effect of the forest reserve order is upon the speculators and grafters—it will put them out of business for awhile anyway. I believe with others that the president was honest in his intention to preserve the head water supply of the streams upon which irrigation depends in the valleys. There are probably a few cases of individual hardship. Take it with us, for instance, in southern Harney, all of our timber is included in the order and not enough is left to supply the home consumption of neighboring mines and ranches.

"As to the railroad situation, the reserve order, taking out of the market a large amount of available timber, may somewhat defer the extension of railroads into southeastern Oregon, though I do not believe it will have the serious effect that some people think it will. There will soon be many large producing mines in that country, and the stock and farming interests already very large, are growing so rapidly that some railroad will go after the business before long.

"As to the Coos Bay railroad and its Salt Lake transcontinental connection, I have not learned that it has any reliable backing. There might be business enough for a small local road out of Coos Bay, if economically managed. There are all kinds of newspaper reports about the backers of the concern, but so far there has been nothing of authority to show that either Gould, the Burlington or Hill is in the deal."

A seed and plant reservation about twenty-five acres in extent on the Pasig river, P. I., has been set apart by General Chaffee as an experimental agricultural station. The agricultural department has tabulated about 700 different trees in the island, and it is believed there are about 400 more. The bureau will also try and determine what of the American agricultural staple are suited to the climatic conditions in the archipelago.

Miss Elsie Mcomber, who is to christen the cruiser Des Moines, is described by an over-zealous reporter as follows: "Her willowy figure is attuned to every motion, inspired by innate grace; she has heavy folds of dark hair, eyes of the richest lustre, and the pure complexion which the freshness of western breezes alone can give." The cruiser ought to get there lively. There is no discount on the girl.

The St. Louis Globe Democrat suggests that "when Missouri farmers compare the present prices of grain with those during the Presidential campaign of 1896, the time when silver orators said that farm products would be valueless unless free coinage was adopted, they smile at the politicians who have just reaffirmed it to us as a live issue for 1902.

Stomach Trouble.
"I have been troubled with my stomach for the past four years," says D. L. Beach, of Clover Nook Farm, Greenfield, Mass. "A few days ago I was induced to buy a box of Chamberlain's Stomach and Liver Tablets. I have taken part of them and feel a great deal better." If you have any trouble with your stomach try a box of these Tablets. You are certain to be pleased with the result. Price 25 cents. For sale by H. M. Horton, Burns; J. L. Haines, Harney.

**HARNEY COUNTY FAIR
PREMIUM LIST**

Following is a complete list of premiums to be awarded at the Fair, September 22 to 27, inclusive: All premiums will be divided as follows: Seventy per cent, first premium, 30 per cent second premium. A certificate accompanies each premium stating the grade of the prize awarded. Ten per cent of premium will be charged on all entries for prizes over \$2.50.

DIVISION A—HORSES.

Dated this 7th day of August, 1902.

F. S. RIEDER, Clerk,
By H. RICHARDSON, Deputy.

Tennessee has a College of Courtship where the Science of Matrimony is taught. Young men and women are there instructed how to "make no mistake in the selection of matrimonial partners," and graduates receive the Degree of D. L., Doctor of Love. If some of these doctors will come out west they can take a post graduate course that will open their eyes from boys and girls that never had any college training in the science.

An adequate sense of proportion is the rarest thing in human nature.

**Bird-Shot
For Tiger.**

No use to hunt tigers with bird-shot. It doesn't hurt the tiger any and it's awfully risky for you.
Consumption is a tiger among diseases. It is steadily eating up the flesh and destroying the life. No use to go hunting with ordinary food and medicine. That's only bird-shot. It'll advance. Good heavy charges of Scott's Emulsion will stop the advance. The disease feels that.
Scott's Emulsion makes the body strong to resist. It soothes and toughens the lung, and sustains the strength until the disease wears itself out.
Send for free sample.

SCOTT & BOWNE, Chemists, 309 Pearl St., N. Y.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought Bears the Signature of *Dr. J. C. Hatcher* In Use For Over Thirty Years **CASTORIA**
