FOR IRRIGATION.

Congressman Moody Is Urging Action.

Oregonian News Bureau, Washington, Dec. 1.—Representative Moody, who reached Washington this morning, has laid plans for a busy winter, and will devote his time to securing the advancement of pending local legislation, and to bringing about favorable departmental action in Oregon matters.

He is strongly alive to the importance of irrigation to Eastern Oregon, and has arranged a conference with department officials, at which he will urge the early recognition of Oregon under the general irrigation law. He says there is abundant opportunity for Government reclamation in localities where private capital has not undertaken work, either independently or under the Carey act, and that there is no reason why work should not be done there if the people will but co-operate in a manner recently pointed out by Hydrographer Newell.

Mr. Moody thinks that private enterprise should be encouraged to reclaim the Eastern Oregon lands, simultaneously with Government reclamation, pointing out that the one seeks small projects of limited dimensions, whereas the other seeks only large works. By co-operation the state will be benefited by having the maximum amount of arid land reclaimed, whereas if private investment is crowded out, a large aggregate area reclaimable in small tracts must be undeveloped.

At an early day Mr. Moody will have a conference with the Chief of Engineers relative to the opening of the Columbia River from The Dalles to Celilo. He is hopeful that the board of engineers will report that the work can be done within the estimate of Captain Harts. If not, it will be necessary to get an additional appropriation and the sooner it is had the better.

There are several pending bills which the Second District Congressman hopes to have passed, among them the double minimum land bill and the bill establishing

an assay office at Baker City. He is also desirous of an opportunity as a member of the public lands committee, to forward some legislation which will amend the public land laws, under whose loose provisions extensive frauds are now being perpetrated.

Representative Moody today presented to the House the resolution of the Oregon Legislature requesting a liberal appropriation for a National exhibit at the Lewis and Clark Exposition to be held in Portland. He also presented the memorial of the State Legislature favoring the election of United States Senators by popular vote of the people.

Business College Locals.

College resumed its work on Monday morning after a short vacation for Thanksgiving. New students entering: John McMullen, Burns, English Department; Myrtle Smyth, Happy Valley, English Department; Bertie Hamilton, Burns, English Department; Cal and Clay Clemens, Burns, Commercial Department.

Students are preparing for a supper next Saturday evening as a result of the first spelling contest. Each month students organize companies A. and B. and spell for their supper which takes place at the end of each month. This feature has proved a good incentive for students to study thoroughly their spelling, and as a result they are becoming good spellers.

Students in every department are doing good work, and we are all very happy in our new college home.

There is a misunderstanding with some regarding students teaching in the college. Two of the pupils have taken special courses and assist students at their tables, answering questions and giving such personal instructions as is necessary, only however, when the principal is busy with classes and other features of active college work. All class work and every feature of instruction receives the personal attention of the principal.

Mrs. Geo. Miller was a passenger on the Canyon City stage Wednesday morning enroute to Salem with a petition to the Governor for the pardon of her husband who was sentenced last Spring to life in the penitentiary for killing Warren Curtis. We are informed that the petition contained about 200 names.

Edward Deady, special inspector of the Interior Department, was an arrival on the Canyon City stage Wednesday. Mr. Deady is looking after the illegal fencing of Uncle Sam's domain and will inspect a number of places in Western Harney County. He has employed Surveyor Frank Jordan to accompany him.

Austin Culp who is now located at Culver, Crook County, was a passenger on the Prineville stage last Saturday. The object of his trip was to get some more horses to work his ranch. He is very enthusiastic over his new location and thinks his is the coming country of Eastern Oregon. He left on his return home yesterday accompanied by Thaddeus Fell.

Lee Caldwell returned Saturday from a week's visit at Canyon City. He reports things pretty lively in that city, the place being crowded with visitors and attendants at circuit court. Henry Richardson and Charley Johnson who accompanied Mr. Caldwell on his trip over, returned with him, as also did Charley Rann, of Harney, who was enroute home from a business trip to Baker City.

Fry's new brick building will be ready for occupancy within the present month. There are two rooms in the building. The one on the corner will be occupied by Schwartz & Budleman, general merchandise and the other by H. W. Welcome & Co., druggists. The Postoffice, we understand, will be moved to the building now occupied by Schwartz & Budleman adjoining the new structure.

A pretty good story comes to us about a Burns lady who, being "all alone" in this world and presumably troubled with cold feet, one night last week took an incandescent light to bed with her to keep her feet warm. To demonstrate that it was not so cold, it burned a large hole in the bed clothes and may possibly have done further damage if it had not been discovered in time. We have read about the "person who blew out the gas" and of "the man who thawed out giant powder in the stove," but this is the first instance brought to our notice of a person taking an electric light to bed with them.

Register and Mrs. Wm. Farre returned Tuesday evening from Canyon City, after nearly a month's absence. During their absence Mr. Farre attended the irrigation convention in Portland as a delegate from the city of Burns. He thinks the work of the convention from a Burns point of view to be very favorable to our interests. While in the metropolis and other Eastern Oregon towns he brought up a number of matters of great importance to this place. He believes from information he gained that with the proper energy on the part of the business men of this place that Burns will be a rail road terminus in a couple of years. This is a matter of great importance to us and a move on the part of our citizens may prove greatly to their gain. Another matter that Mr. Farre took particular interest in and urged, was that of improved mail facilities. This latter is also greatly to be desired and he believes that arrangements will be made so that we may get our mail at least 24 hours earlier than at present. Mr. and Mrs. Farre return in good health excepting colds they contracted in their two days ride from Canyon City.
