

Sick Blood

Feed pale girls on Scott's Emulsion.

We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.

Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.

Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

We will be glad to send a sample to any sufferer.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

NOT IN ANY TRUST

Many newspapers have lately given currency to reports by irresponsible parties to the effect that

THE NEW HOME SEWING MACHINE CO had entered a trust or combination; we wish to assure the public that there is **no truth** in such reports. We have been manufacturing sewing machines for over a quarter of a century, and have established a reputation for our active and our machines that is the envy of all others. Our "New Home" machine has never been rivaled as a family machine. It stands at the head of all High Grade sewing machines, and stands on its own merits.

"The New Home" is the only really **HIGH GRADE Sewing Machine** on the market.

It is not necessary for us to enter into a trust to save our credit or pay any debts as we have no debts to pay. We have never entered into competition with manufacturers of low grade cheap machines that are made to sell regardless of any intrinsic merits. Do not be deceived, when you want a sewing machine don't send your money away from home; call on a "New Home" Dealer, he can sell you a better machine for less than you can purchase elsewhere. If there is no dealer near you, write direct to us.

Pugilistic.—Nell—"Did Miss Billy-ums act as if it was a severe blow when she didn't get the prince?" Belle—"Yes; she took the count."—Philadelphia Record.

"What's the matter with Jimson?" "Doctor says it's a complication. Played ping-pong, golf, bicycled and got a motor car, and the four kinds of faces were too much for him."—London Answers.

Eezymark.—"A lady told my fortune yesterday, and she said I would meet with a financial reverse." Sceptick—"And did you?" Eezymark—"Sure! She charged me \$2."—Ohio State Journal.

"Troubled with dyspepsia, are you? Did you ever try any of my medicine?" asked the druggist. "Oh, yes; but it wasn't that that gave it to me. I had it long before I took any of your stuff."—Yonkers Statesman.

"By the way," reminded the curious inquirer, "what's a synonymous expression for 'talking shop'?" "Well," replied Joakley, "there's 'tonorial emporium,' and 'haircutting parlor.'"—Philadelphia Press.

Hangin' On.—Lariat Luke—"What became of that hangar-on from 'frum' 'cast'?" Horrible Hank—"He's still hangin' on!" Lariat Luke—"Down at the Red Eye saloon?" Horrible Hank—"Naw; hangin' on tew a cottonwood tree at th' edge of town."—Ohio State Journal.

The Point of Difference.—"You don't mean to cite your government as an example of a republic." "Well," answered the South American dictator, "there's only one little difference between our republic and yours. Instead of elections we have revolutions."—Washington Star.

Two Sinners.—"It is very wrong to tell a falsehood," said his mother to little Jimmie, who had caught him in one. "Then were both of us sinners, ain't we, maw?" queried Jimmie. "Both! What do you mean?" "Why, you told Missus Smith yesterday that you hoped she'd call again, and after she wuz gone you said you wished she'd never come again."—Ohio State Journal.

SCIENCE AND INDUSTRY.

California has 62,000 acres of prune trees.

Oil fuel is used exclusively in the 16 melting furnaces of the new Philadelphia mint. The temperature in these furnaces can be raised to 1,000 degrees.

It is said that the flint which forms the substratum of London is nothing but petrified sponges. An examination of the fossil sponge or flint shows its structure.

The stick insect of Borneo, the largest insect known, is sometimes 13 inches long. It is wingless, but some species of stick insects have beautiful colored wings that fold like fans.

Several factories have been built in Germany for the manufacture of "forest wool" out of pine needles. It is used for making underclothes and for stuffing mattresses and furniture.

One of the most important industries attaching to the cheap power now produced by Niagara is the electrical tearing apart of the molecule of common salt resulting in the formation of caustic soda and bleaching powder.

A portable street light of great illuminating power is the device of the Westminster county council for lessening accidents from London fogs. A cylindrical tank 18 inches in diameter and two feet high is charged with 25 gallons of petroleum, and compressed air forces vapor from the oil into a standpipe provided with a burner. On igniting the torch flares up 15 inches to two feet, with a power of 1,000 candles.

Leroy Beaulieu, a well-known economist of Paris, has declared that the leisure class of men will have to work for their living in 1952. He made this interesting statement in a lecture on the conversion of the French three and one-half per cent. debt into three per cent. bonds. He said that the rate of interest is constantly decreasing, and predicted that in the next 25 years capital will be glad to get two per cent., and that 50 years hence such first-class securities as government bonds and railway securities will bear one per cent. interest, "which," said the lecturer, "will compel all except the very large capitalists to work for a living, and the leisure of the class of people now called well off will be abolished."

Her Martyrdom.

THE ORIGIN OF GOLF.

Game Was First Played by a Scotch Shepherd with His Crook and a Pebble.

The man or woman who has become interested in golf must needs know something of its origin over in Scotland. In his book, "The Art of Golf," Sir W. G. Simpson tells the following pretty story as to how the game had its beginning:

"A shepherd leading his sheep would often chance upon a round pebble, and, having his crook in his hand, would strike it away; for it is inevitable that a man with a stick in his hand should aim a blow at any loose object lying in his path as that he should breathe. Over pastures green this led to nothing; but once upon a time a certain shepherd, feeding his sheep on a links, perhaps that of St. Andrews, rolled one of these stones into a rabbit scrape.

"Mary," quoth he, "I could not do that if I tried," a thought which nerved him to the attempt. But a man cannot long persevere alone in any arduous undertaking, so Mr. Shepherd hailed another, who was hard by, to witness the endeavor. "That is easy," said the friend, and, trying, failed. They now searched the grass for the roundest stones, and having deepened the rabbit scrape, so that the stones might not jump out of it, they set themselves to practice putting.

"The stronger but less skillful shepherd, finding himself worsted at the amusement, protested that it was a fairer test of skill to play for the hole from a considerable distance. With this arranged, the game was found to be much more varied and interesting. The sheep having meanwhile strayed, the shepherds had to go after them.

"This proving an exceedingly irksome interruption, they hit upon the ingenious device of nailing a circular course of holes, which enabled them to play and herd at the same time. These holes being now many and far apart, it became necessary to mark their whereabouts, which was easily done by means of a tag of wool from a sheep attached to a stick, a primitive kind of flag still used on many greens, almost in its original form. Since these early days the essentials of the game have altered but little."

Scotsman's Precise Folly.

Maj. James B. Pond, of world-wide repute as a pilot of celebrities of the concert stage and the "lyceum," tells of a waiter, a Scotsman, of whom he once inquired the exact time to leave to catch the morning boat plying between the river town where he was visiting and the next stopping place on his itinerary.

"Well, I canna' tell ye jist whit time 'twill be; but if ye'll leave five minutes afore ye see the steamer comin' roon the p'int, ye'll jist be in time to catch it, sir."—Philadelphia Times.

Had the Most Science.

In responding to the toast "Science" at a banquet in New York recently President Pritchett, of the Massachusetts Institute of Technology, told this story: "In a Boston school the other day a teacher said to a small boy: 'Who won the battle of New Orleans?' 'Why Jim Corbett, of course,' was the answer. 'How did that happen?' asked the teacher, thinking to set the boy right. 'He won,' was the prompt reply, 'because he had more science than the other guy.'"—Chicago Chronicle.

An Acrobatic Pianist.

A Milan correspondent tells of a pianist named Bancia, who at Venice recently set himself to break the record of piano playing, so far as time is concerned. Apparently what the musician had to surpass was a 40 hours' sitting at the instrument. This he undertook to do by hammering the keys for 50 consecutive hours, that appalling period being only broken by three short rests of ten minutes each. This feat was duly accomplished in the presence of a committee of doctors and musicians. When the two days, two nights and two hours had expired, Bancia played the Italian national anthem with a jubilant flourish, and left the piano amid the enthusiastic cheers of an enormous audience. The whole of the receipts were given to the fund in aid of the survivors of the recent volcanic disasters in the West Indies.—London News.

Made Standard Oil Co.

The Chicago Weekly Inter Ocean is the only weekly newspaper published in Chicago in connection with the great daily papers. It contains a judiciously selected summary of the news of the nation and world, the best stories, home, farm, woman's, and other special departments, and fair, patriotic, able editorials, written from a Republican viewpoint. It is by far the best general newspaper of the Western States. The regular price for the Weekly Inter Ocean is \$1.00 and for the Harney Valley Items \$1.50, but subscriptions will be received at this office for the two papers in combination for one year for only \$1.50.

A Remarkable Record.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by H. M. Horton, Burns; Fred Haines, Harney.
