

WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free.

Be sure that this picture is the form of a label is on the wrapper of every bottle of Emulsion you buy.

NOT IN ANY TRUST

Many newspapers have lately given currency to reports by irresponsible parties to the effect that the new home sewing machine had entered a trust or combination; we wish to assure the public that there is **no truth** in such reports. We have been manufacturing sewing machines for over a quarter of a century, and have established a reputation for ourselves and our machines that is the envy of all others. Our "New Home" machine has never been revealed as a family machine. It stands at the head of all High Grade sewing machines, and stands on its own merits.

The "New Home" is the only really HIGH GRADE Sewing Machine on the market.

It is not necessary for us to enter into a trust to save our credit or pay any debts as we have no debts to pay. We have never entered into competition with manufacturers of low grade cheap machines that are made to sell regardless of any intrinsic merits. Do not be deceived, when you want a sewing machine don't send your money away from home; call on a "New Home" Dealer, he can sell you a better machine for less than you can purchase elsewhere. If there is no dealer near you, write direct to us.

A Country Likely to Come into Greater Importance in the Near Future.

It is probable that the American respects Persia for only two things—its carpets and the Rubiyat of Omar Khayyam. Beyond these two there is little known of the country save that it was once ruled by Darius, Cyrus and Xerxes, and that Babylon and Ninevah were once its chief cities. But the British foreign office and the Russian minister of foreign affairs know that the land has been a bone of contention between the two countries for upward of a hundred years, and that the time is rapidly approaching when it must be divided, so that the Persian problem may be removed from the diplomatic arena.

It is currently reported that the appointment of Lord Curzon to the viceroyalty of India was because of his great familiarity with the Persian question. No man in England is better fitted to deal with the proposed partition of the shah's domain than he, for his long residence at Teheran and his subsequent studies of the question have made him absolute master of its smallest details. The proposal is to divide the country by a rough line running east and west through the center, giving the northern section to Russia and adding the southern half to India.

As matters stand now, Persia is going from bad to worse. She has no laws, save those imposed by the powerful; no justice, save that which is purchasable; no state treasury, save the shah's private purse, and no enterprise, save that which is Russian or English. Divided into two sections by a desert that runs through the center, and without railroads save those organized and run by Europeans for their own purposes, which are chiefly military, the nation has no united feeling, and its national pride has been hopelessly crushed out by a corrupt aristocracy.

Russia is binding the northern section to herself by means of a network of railroads which are connected with the Siberian system, while England has constructed railroads in the southern section which tie it to India. With the death of Musarred-din the country is expected to fall in halves, naturally, but if it does not, then the two nations most interested will see that it occurs promptly.—St. Louis Republic.

Hunt for Dewey Relics.
The house in Montpelier, Vt., which Dr. Julius Dewey occupied and in which all of his children were born was originally small, but was several times added to. Within the last two or three years, wishing to replace this modest structure with a handsome, more modern edifice, Edward Dewey, the second son, sold the dwelling and barn (retaining the grounds) for \$150. Three days afterward the buildings were resold for \$400, the last purchaser, who paid the cost of removal, placing them on a lot on State street. Since the battle of Manila this house, as the birthplace and early home of its hero, has been an object of interest to tourists and relic hunters. The latter, indeed, have threatened to carry it away piecemeal, a souvenir vend in one instance wrenching off a silver-plated faucet and leaving the water running in the bathroom with the pressure of the full system of 158 pounds.—Boston Transcript.

PRAYING FOR SELF-CONTROL.

Marie—I tell yer yer are false! False to the marrer of yer hart! I've trusted you blindly, fondly, until the present moment, and now I loath and despise yer!

Eleurette—Heaven give me power to restrain myself or I'll knock the neck off her!

Would Be Altogether Too Rude.

Cholly—Now, confess—a—ah—all you girls don't care a snap for anybody except a man.

Miss Caustique (significantly)—Oh, I would never be ungentle enough to say so to you.—Chicago Record.

One of His Trials.
"Hang the luck!" exclaimed Mr. Skimphlitt. "I forgot to notice how much money I had in my pocket when I started downtown this morning. I found a 50-cent piece on the seat when I got up to leave the car, and I don't know whether it had dropped out of my pocket or some other man had lost it. I can't tell whether I'm half a dollar ahead or whether I've had a narrow escape from losing half a dollar!"
—Chicago Tribune.

Discharged.
Magistrate—The young woman says that your continued staring at her annoyed her excessively.
Prisoner—I never intentionally annoyed a woman in my life, your honor.
Magistrate—Then why did you stare at her so persistently?
Prisoner—Because she is pretty, and I couldn't help it.
Young Woman—Let him go, judge.—Bay City Chat.

A Summit of Ambition.
Oh, try to be a hero.
My noble little lad,
And some day in the magazine
You'll get to be a fad.
—Washington Star

Agreed with Her.
"What nonsense," said she, "all this talk is about girls being allowed to encourage bashful young men, one year out of every four."
"Yes," replied Willie Washington, "just as if they didn't when they felt like it, leap year or no leap year."
—Washington Star.

She Knows It Herself.
Miss Wanterno—I have brought this book back. Manma says it is not fit for me to read.
Librarian—I think your mother must be mistaken.
Miss Wanterno—Oh, no, she isn't. I've read it all through.—N. Y. World.

The ears of most defenseless animals like the rabbit are turned backwards, because these creatures are in constant apprehension of pursuit; hunting animals have their ears turned forward.

It is said that the Historical society of Pennsylvania has the most complete collection of American colonial laws in the United States. It was made by Charlemagne Towers and includes the laws of the Danish and British West Indies.

The use of argon for high temperature thermometers has been proposed, as the new gas appears to offer advantages over hydrogen and nitrogen generally employed.

Pocket stoves for policemen are the latest. They weigh only a few ounces, and the firm that builds them says that they will make the force comfortable in winter weather.

A recent development in the use of steel in the buildings is in the line of ceilings. Sheets of thin steel stamped with appropriate ornamental designs are substituted for plaster.

A French scientist has discovered how to solidify petroleum. It is calculated that a single ton of the new fuel is equivalent to 20 tons of coal. It is smokeless, non-odorous and cheap.

His Life Saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"B. L. Byer, a well known cooper of this town, says he believes Chamberlain's Colic, Cholera and Diarrhoea Remedy saved his life last summer. He had been sick for a month with what the doctors call bilious dysentery, and could get nothing to do him any good until he tried this remedy. It gave him immediate relief," says B. T. Little, merchant, Hancock, Md. For sale by H. M. Horton, Burns; Fred Haines, Harney.

CASTORIA.
The Kind You Use Always Bought.
Beware of cheap imitations.

NOT A RELIEF BUT A CURE

OLENTMENTS
and suppositories will not, positively cannot—do more than relieve you.
It requires an internal remedy to remove the cause and effect a permanent cure.
Ask your druggist for Dr. Perrin's Booklet on the subject.

Miss Ida M. Snyder,
Treasurer of the Brooklyn East End Art Club.

"If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find that the doctor's prescriptions do not perform the many cures they are given credit for.

"In consulting with my druggist he advised McElee's Wine of Cardui and Theodore's Black-Draught, and so I took it and have every reason to think him for a new life opened up to me with restored health, and it only took three months to cure me."

Wine of Cardui is a regulator of the menstrual functions and is a most agreeable tonic for women. It cures woman's suppressed, too frequent, irregular and painful menstruation, falling of the womb, whites and flooding. It is helpful when approaching womanhood, during pregnancy, after childbirth and in change of life. It frequently brings a dear baby to homes that have been barren for years. All foreigners have \$1.00 bottles of Wine of Cardui.

WINE OF CARDUI
