ITCH FOR HITCHCOCK'S REMOVAL

Secretary Hitchcock is not liked by certain politicians and they have been trying to prejudice the President against him. It is said that the efforts to secure Mr. Hitchcock's removal emanates from those who have been defeated in their purpose of land stealing by Hitchcock's investigations. McKinley as well as Roosevelt had confidence that Hitchcock would guard the Treasury against the grafters, and so long as the President has reason to believe that Hitchcock is to be honored for the enemies he has made he will see that he stays in the Roosevelt cabinet.

The investigation of the land grabs in the Indian Territory and elsewhere will lead to reform of existing law if the President and Secretary Hitchcock can have their way. Congress will be appealed to to end the opportunity, which is now easy, of robbing both the nation and the settlers. The grafters circumvent the statute through technicalities. Timber land prices are away below value. Secretary Hitchcock believes that that we ought to collect \$400 an acre on land worth that sum instead of \$4.

A ban should be placed on dummy entries and legislation should be had to prevent cattle barons and large stock interests gaining control, if not ownership, of vast tracts of grazing lands. The abolition of the desert land act is essential as the national irrigation law is held to end all necessity for the desertland act. It is also recommended that the lien-land law and the commutation clause of the national homestead land be repealed.

W. W. Caviness is surveying and locating for Isaac & Gwinn the stock range leased by them from the Eastern Oregon Land Co., measuring 21 miles in length and 17 miles in width in the widest place. He has already surveyed the land from the head of Burnt river, taking in the Little Malheur and North Fork of Main Malheur, and extending all around Summit prairie and Crane prairie to the western side of Logan valley and on to the upper end thereof. Isaac & Gwinn are controlling an immense area of range and are running about 30,000 head of sheep—Ontario Argus.

Senator Mitchell left Monday for Washington. The rest of the delegation will follow by the middle of the month.

JUMPING UP

It is a great deal harder than jumping down. And yet people who have been for years running down in health expect to jump back at once. It takes years to get back to a normal condition, and the normal condition is not a matter of a few days. There is no quicker method of cure for dyspepsia, indigestion, or other stomach and liver troubles than the use of Dr. Chamberlain's Golden Medical Discovery. It cures the stomach and liver troubles more quickly than any other medicine. It is a great deal harder than jumping down. Shooting at Andrews.

Word was brought to Burns Monday that a man had been shot at Andrews and that the services of the Sheriff and Coroner were needed. Sheriff Allen and Dr. Marsden left immediately on receipt of the news arriving there in 21 hours. They found on their arrival that during an altercation on Sunday morning Thomas Murray had shot Harry Egbert, the bullet entering just above the hip on the left side coming out near the middle of the back. The wound is not considered dangerous unless complications should arise, but the wounded man will be confined to his bed for several days. Murray was arrested and given a preliminary hearing before Justice Catlow of Pueblo precinct, who held him under \$1000 bonds to await the action of the grand jury. He was brought to Burns by Sheriff Allen and as yet has been unable to secure bonds.

Murray is well known in this vicinity. He first came to this country five years ago in the capacity of a detective being employed to trail the holdups of the train at Humboldt Station near Winnemucca. As a result of his investigation, Buoy and Shaw were arrested near here. At the time of the shooting affair at Andrews he was in the employ of the P. L. S. Co. as a detective to look out for cattle rustlers. He has with him a number of good recommendations from prominent people of Winnemucca, among them being one from Judge Bonfield of that place.

Egbert, who is said to hail from Prineville is not known in Burns, having recently come to this county. He has a wife and one child and was running a restaurant at Andrews.

Harry Lockwood, an old resident of Baker City, was found dead in Powder River, under Center-street bridge last Friday afternoon. He had started home the evening before, and circumstances indicate that he fell into the water while sick and was unable to help himself. He was about 55 years of age and leaves a wife and four children.

O. E. Pollock, of Vale, who was taken to Portland last week by Detective Snow on a charge of having obtained money under false pretenses, returned home Monday, having been discharged by the Portland officials. Since the check was only an overdraft and it had since been paid in full, it was held not to be a crime and he was discharged accordingly.

The recent action of the Interior Department at Washington in establishing several forest reserves throughout Oregon is calling forth emphatic remonstrances from different parts of the state. Oregon's wealth is her forests, and every reserve established depreciates it that much.

Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians who gave him little, if any, relief, when a neighbor learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by H. M. Horton, Burns; Ered Haines, Harney.

YOU KNOW WHAT YOU ARE TAKING
When you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No Cure, No Pay. 50c.

Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

Prompt use of Scott's Emulsion checks the disease while it can be checked.
