## Youth Arts Program wraps up third summer camp

### Students learn art, music, drama

#### By Angel Carpenter Blue Mountain Eagle

Students had a creative outlet during two-week Summer at the Youth Arts Program in Dayville.

The program, in its third year, had 20 youth signed up for music, art and theater classes with five teachers providing instruction.

The students showcased their talents July 1 at the Dayville School as a kickoff to the town's Fourth of July celebration.

Music instructors Rebecca Bogardus, Samantha Floyd and Janine Goodwin taught choir, ensemble, music theory and private lessons.

Floyd, who will begin ninth grade at Grant Union Junior-Senior High School in the fall, was a new teacher this year.

Bogardus, who is also the Youth Arts Program director, said Floyd plays several in-

struments and attended for two years before becoming a teacher. "She did a marvelous job,"

Bogardus said. "She had three piano students and was so patient with them. By the end of the two weeks, they were playing with two hands. I was really impressed."

She added that Floyd led an ensemble of instrument players who prepared three ensemble pieces.

"She's definitely on her way," she said.

Savanna Martin taught stu-

#### dents fundamental art principles and helped them create mixed media works, sculptures, watercolors and more.

Students who signed up for drama were cast in two short plays, directed by Kathryn Hedrick. Hedrick used games to help teach basic theater principles.

Katie Fitch helped ensure the classes went smoothly and took photographs.

"While the camp was tons of fun, the most lasting benefit comes from the skills and relationships the students have acquired and their growing enthusiasm for the arts, which will undoubtedly be contagious," Bogardus said. "They connected with each other across school and geographical divides in ways that will provide years of shared memories and vault them into exploring the world around them with an artist's eye.'

The program was funded by the Juniper Arts Council, Shelk Fund, Ward Family Fund and Oregon Trail Electric Consumer Cooperative, and The People Mover provided transportation. For more information, visit studiobogardus.com or call Bogardus at 541-987-2440.

Chip Seal on Hwy. 395 & U.S. 26

Beginning around July 28 the Oregon Department of Transportation (ODOT) will be chip sealing a five-mile-long section of the John Day-Burns Highway (U.S. 395) south of John Day between Canyon Creek Road and the Paulina-Izee Highway junction, mile post 10-C to 18-C. The project is expected to take about three days to complete.

### Department of Transportation

Starting in August chip seal work will also take place along U.S 26 between Mt. Vernon and the junction of OR Hwy. 19 (mile post 124.17-154.03), taking about three weeks to complete. More information will be shared when a start date for this US 26 project is confirmed.

TRAVEL IMPACTS: Expect up to 20-minute delays, reduced speeds, loose rock on the roadway, flaggers, and pilot cars directing single lane traffic through the work zones. Minor delays during nighttime/early morning hours for road sweeping. Please slow down and watch for construction activities in the area and plan extra travel time during this highway preservation project.

REQUEST TO RANCHERS: To prevent chip rock adhesion problems due to animal waste on the roadway, ODOT is asking ranchers to keep all cattle and other livestock off the work areas of US 395 July 21 through August 2, and US 26 August 1 through 31. Animals can be driven on appropriate open range highway sections after the chip seal has been applied.

NOTE: Chip seal work is weather dependent. All dates are subject to change, depending on weather condition. Check ODOT's Region 5 website www.tinurl.com/odot-region5 and www.TripCheck.com for update information.

More information: Contact ODOT Public Information Officer Tom Strandberg at 541.963-1330 mobile 541.663-6261 email: Thomas.m.Strandberg@odot.state.or.us.

Your local ODOT maintenance and construction staff appreciates your support for this project that will help preserve and extend the useful life of the highway surface. THANK YOU!

tems," and camp participants learned from professionals in subject areas, from rangeland management to stream morphology.

On top of engaging workshops, campers also had the option of mountain bike riding with Russ Comer, Lisa Weigum and Haley Hueckman of Grant County Safe Communities Coalition, building bluebird houses that will be hung in the Logan Valley area and enjoying a morning birding walk with Tom Winters.

The OSU Extension put on the event with help from several partners. OSU Extension agent Shanna Northway said several generous donors made the camp possible. Northway organized the event with Allison Field of the Confederated Tribes of Warm Springs and Colleen Malaney of the Forest Service.

'We will be back next year with another exciting lineup of hands-on workshops and fun outdoor activities," Northway said.
