NOVEMBER 2017

4th Annual Community Screen Month

For Children 2 months - 5 years old

Will your child be ready for kindergarten?

From their first step and first word to writing their name and beginning to read, children are continually reaching developmental milestones in how they speak, play, learn, and move. Screening young children is an effective way to identify delays in reaching milestones and provide parents and children with needed skills when it can make the biggest impact; during the crucial early years.

Screeners use the Ages & Stages Questionnaire (ASQ-3) to assess cognitive, fine motor social/emotional, gross motor, and communication skills.
