If the sender does not receive an automated acknowledgement of the receipt of the comments, it is the sender's responsibility to ensure timely receipt by other means. Comments will be accepted for 45 days following the date of publication of the notice of availability in the Federal Register, published on November 2, 2018; therefore, to be most useful, comments on this proposed action should be received by the Blue Mountain Ranger District on or before December 17, 2018. The publication date of the notice of availability in the Federal Register is the exclusive means for calculating the comment period for a proposed action in a draft environmental impact statement. Those wishing to comment should not rely upon dates or timeframe information provided by any other source. It is the responsibility of all individuals and organizations to ensure their comments are received in a timely manner, before the end of the comment period.

Only individuals who submitted written comments specific to the project during the previous scoping period, scoping period extension, or during this 45-day comment period for the Ragged Ruby Draft Environmental Impact Statement will have standing to file an objection (36 Code of Federal Regulations 218.7). The final EIS and decision document for this project will be mailed to those who request them.
