**Legal Notice of Decision for Land Management Plan Amendment**  
**Forest Management Direction for Large Diameter Trees in Eastern Oregon**

On January 12, 2021, Jim Hubbard, Undersecretary for Natural Resources and Environment, United States Department of Agriculture, signed the final Decision Notice (DN) for Forest Management Direction for Large Diameter Trees in Eastern Oregon. The DN amends the land management plans for the Deschutes, Fremont-Winema, Malheur, Ochoco, Umatilla, and Wallowa-Whitman National Forests in Oregon and southeast Washington. The DN documents the rationale for approving the amendment. The amendment replaces the 21-inch standard with a guideline that emphasizes recruitment of a combination of old trees and large trees. Analysis of the proposed action resulted in a finding of no significant impact on the quality of the human environment.

Legal notice of approval of the final decision was published in the Federal Register on January 15, 2021 (86 Fed. Reg. 3990). As a courtesy, legal notices of the final decision are also being published in the Baker City Herald, Bend Bulletin, Blue Mountain Eagle, East Oregonian, and the Herald and News, which are the newspapers of record for the affected national forests.

The Forest Management Direction for Large Diameter Trees in Eastern Oregon is effective immediately (36 CFR 219.17(a)(2)). There is no opportunity to object to the Under Secretary's decision. A decision signed by the Under Secretary for Natural Resources and Environment constitutes the final administrative determination by the U.S. Department of Agriculture (36 CFR 219.51(b)).

To view the final DN, Finding of No Significant Impact (FONSI), environmental assessment (EA), and other related documents, please visit the Forest Service, Region 6 website at: <https://www.fs.usda.gov/detail/r6/landmanagement/planning/?cid=fseprd710229>
