Grant County 4-H

4-H Mission: 4-H provides young people with intentional, high quality learning experiences that promote positive interactions with adults and peers, sustained and active participation across time and opportunities to make meaningful contributions to the world around them.

Core Values:

- 4-H is based on the current theory, research and practice of positive youth development.
- 4-H promotes healthy growth and development in the context of families, schools and communities.
- Facilitating the development of a young person's interests is essential to the 4-H approach.
- Volunteers who serve as teachers and mentors to young people are essential to ensuring this success.
- Youth development programs are marked by opportunities for young people to experience mastery, independence, belonging and generosity.
- Youth voice, youth engagement and youth action in their communities are critical components of the program.
- Experiential learning forms the basis for the "learn by doing" approach to 4-H programming.
- The 4-H program values and respects all forms of human diversity.
- Believing that thriving is possible for all young people, the 4-H program provides access and opportunity for all youth.
