Russ and wife have moved to Canyon creek to reside. Mrs. Hyde has her new stock of millinery goods on display. Mrs. Phil. Reames is visiting her father and mother at Kerby. Will B. Rice, the clever agent of the O. P. R. R., gave us a call. Several new residence houses are in course of erection in our town. See Railroad advertisement and note the changes in running time. Duncan, of Jacksonville, is gone from among us. Katie Connell, of Waldo, goes to Jacksonville soon to attend the Sisters' school. J. J. Moore has the thanks of this office for a box of nice Baldwin apples large and fine. The town is full of people this week, giving it a decidedly metropolitan appearance. The law office of Nichols & Hamaker, at Linkville, was destroyed by fire on Oct. 11th. A. J. Chapman of Wilbur, father of our fellow townsman the grocer, is visiting in town this week. His Honor Judge L. R. Webster is holding the first term of court in the new court house this week. The auction of millinery goods commenced on Monday evening last. Frank Nickerson does the shouting. A. S. Barnes, from the Lucky Queen district, brought to town last week a wagon load of fine deer—with their hides on. The Nickle skimmer attended Nickerson's auction sale in this city Tuesday, and bought seven gentle cheap John merino shirts at 45 cents each. The following attorneys have been in attendance this term of court: P. P. Prim, H. K. Hannah, H. Kelley, T. B. Kent and District Attorney W. L. Colvig. The East Portland Star made use of our comment on an item from the Review concerning young Miss Heaven, without giving the proper credit. Look out. J. D. Wetherbee of Waldo precinct, died at his residence at twenty minutes to four o'clock a. m. At 12 o'clock midnight he counted three on his fingers, saying one, two, three very distinctly—he almost closed his fingers together the fourth time but not quite, as much as to say that he would not live until four, and singular as it may seem, he died just twenty minutes to four. Rev. John McIntire preached the funeral sermon to a large concourse of people. From the best information we can gather, the bridge across Applegate, near Wilderville remains in an unfinished condition. The apron on the east bank has not been built, and the grading to the approach on the west side has not been made. Besides there remains about two and a half miles of road to open, most of which is level but brushy. The brush once removed, travel could start on it. There is but little grading to be done. This bridge is built now at a considerable expense to the county and ought to be used. The road ought to be opened before the waters raise. MIDDLE-AGED MEN who lack vigor and vitality can be cured by Gilmore's Aromatic Wine. For sale at Kremer's. SHILOH'S COUGH and Consumption Cures is sold by us on a guarantee. It cures Consumption. A Comment.

ED. COURIER.—Pleased with your article in last week's issue, under the caption, "Hard Times." I spoke to several gentlemen concerning its thoroughness and good logic. To my utter surprise, and I may say, disgust, one said: "He is all wrong. Hard times are brought on by over-production." Another said: "It is the high tariff that is the sole cause of all financial depressions." And a third said: "It is a fear of a tariff for revenue only, or distrust in the administration that is the exclusive cause of our present dull times." And, thus they explained until "they made me tired." Having perfect confidence in my ability to back up my assertions with satisfactory data, I beg space in your valuable columns for the following resume of your article: You truly say, that "a false system of government runs back through both Republican and Democratic administrations," by which money, the medium of exchange, is fluctuated at will, by a set of "cormorants" who control the money market of the nation, thus making "hard times" to order. It does not require an economist to see this. "It is so plain that a way-faring man, though a fool, may read it he runs." Bankers, as well organized and as thoroughly disciplined as the best trained infantry, issue and loan money to the people on short time. Now almost any school-boy will solve this problem. If a farmer borrows \$10,000 at 10 per cent. interest for 10 years of a banker, giving a mortgage on his farm valued at \$20,000 as security, how long will it be before the banker has the farm? Answer, 10 years. Because the interest for one year is \$1,000, and the interest for 10 years equals 10 times \$1,000 which makes \$10,000. He has now paid the principal in interest, and by a concerted action of the banks he is unable to obtain money to pay off the mortgage. A foreclosure ensues and the banker is proprietor of both the farm and the original \$10,000. This picture is only half drawn, but I do not wish to encroach on your space to show that banks of issue loan the bulk of their money on 30, 60 and 90 days time, thus enabling them to compound their interest several times a year, and, very much regret, for the reason that Mr. Carson has done a great deal for his section of the country, and has been one of the men who, by hard and diligent labor has demonstrated that fruit trees need no water in Josephine, and that fruit of all kinds, and of the finest quality can be successfully cultivated on the side hills of Southern Oregon. By deep cultivation this gentleman raises every thing in the fruit and vegetable line and of superior quality and flavor to that produced by irrigation. His nursery is well stocked with the choicest trees and vines, and his prices very low, and he deserves the patronage of those of the citizens of Josephine county who contemplate planting trees or vines. Then why should we not assist Mr. Carson every way in our power toward success? We will, and if we have not, it has been an unintentional oversight. We aim to encourage home industry, and when a man of the enterprise shown by Mr. C. undertakes to build up an industry in our midst it is our especial duty and should be a pleasure to assist him. We propose to buy our trees from his nursery. Circuit Court Proceedings. MONDAY, NOV. 1, 1886. His Honor Judge L. R. Webster presiding. The following named persons were drawn as Grand Jurors: T. J. Murphy Letter.

October 31st, '86. MR. ED.—Your correspondent has just returned from a brief visit to Jacksonville and Central Point. Business in Jacksonville seems to be very good, the only one we heard complain was the one of the of the He informed me that his business is not one-half as good as it was a few years since. Is it possible that the people are learning to live without eating? If they have not, it might be well to practice a little, for it certainly is a fact that under the present strain of economy wherein we are charged 50 cents for a small slice of Beef steak cut from the round of a bull-oxes shank, a whole biscuit, a spoonful of cracked wheat and a pickle, the time is not far distant when certain hotel men will expect that their mere presence together with the ever growling gauging waiter, with his few oblong dishes that would hold about a gill, about half full of nothing that would render any assistance in keeping sole and body united, to be worth at least 50 cents. Oh, what a fine thing it is that we have been there and have learned the great necessity of the careful training it is going to take to cope with the famine that's coming. If we are as successful in our experiment as Dr. Tanner was, we will call again, but not otherwise. X— ANSON HOUGH, of Blackberry, Ills., says he owes his life to Gilmore's Magnetic Elixir. Try it. It is for sale at Kremer's drug store. CROUP, WHOOPING COUGH and Bronchitis immediately relieved by Shiloh's Cure. Kremer keeps it. Wilderville Items. A traveling artist has been taking views of the various scenery of this locality. Ben Bull Sr. had his blacksmith shop burned to the ground not long since. The Sunday School is now held in the Eureka High School building. Quite an interest is being taken in it. John Borough has just completed a very neat dwelling house near here. D. C. Shell, a fine mechanic, done the work. The Eureka High School is now in session. Prof. Robinson is spoken highly of as a teacher, by the students of the school. Mr. and Mrs. C. J. Armstrong, of Jacksonville county, have been visiting Mrs. Armstrong's parents Mr. and Mrs. John Borough. Jackson Smart formerly of this section is now located near Springfield, Lane Co., in this state. We are sorry to loose so good a citizen as Mr. S. Some of the farmers of this section have been improving their time this fine weather by seeding down their corn ground to wheat and other grain. Mrs. H. D. Jones, postmistress of this place and R. M. Robinson were called to Portland one day last week as witnesses in some postal matter. They have since returned home. I agree with you Mr. Editor—the people of Josephine county should patronize their own paper the COURIER. Then if they choose to pay "Chawles" for Josephine county news that appeared in the COURIER one week before, all right. But we think Charley should have enough courtesy to give credit for the news which he clips so freely from the COURIER, which is apparent to every one that has eyes to see or ears to hear. ECHO. For lame back, side or chest, use Shiloh's Ponos Plaster. Price 25 cents. For sale at Kremer's drug store. Missouri Flat. Health generally good. Fresh snow has again made its appearance on the high mountains. Rev. W. Pullen will start for the Coquell, November 2d., to locate. J. Bailey has again moved back to Missouri Flat, where he will stay for the winter. Considerable grain has already been sown this fall and farmers are still busy sowing. The miners in this section are busy making preparations for the coming winter's run. Wm. S. Bailey went to Dear Creek valley last week to drive over some cattle, and has just returned. The corn crop proved a success this season in this part of the country. Some fine corn raised on the Flat. W. H. Basye has his house completed, and it is a nice one. W. Pullen and C. H. Basye did the work. We hear of some petty thieving going on in the neighborhood which means, "some body had better look a leedle oud some how." One of the most complete country newspaper offices on the Pacific coast is that of the Del Norte Record. Bro. Eldridge not only has a number of fine printing presses and any quantity of the latest styles of type, but continues to add to his stock by the purchase of new material, as well as having the outside of his paper printed in San Francisco. But there is one important improvement which brother Eldridge has neglected, and which will suggest itself to any reader who will refer to the last issue of the Record, to-wit: he should arrange to have both sides of the paper printed in San Francisco. PROCLAMATION.

The President Designates Thursday, November 25, as a Day of Thanksgiving. WASHINGTON, Oct. 31.—Following is President Cleveland's proclamation designating Thursday, November 25, as a day of thanksgiving and prayer: A PROCLAMATION By the President of the United States: It has long been the custom of the people of the United States, on a day in each year especially set apart for that purpose by the chief executive, to acknowledge the goodness and mercy of God, and to invoke his continued care and protection. In observance of such custom, I, Grover Cleveland, President of the United States, do hereby designate and set apart Thursday, the 25th day of November instant, to be observed and kept as a day of thanksgiving and prayer. On that day let all our people forego their accustomed employment and assemble in their usual places of worship, to give thanks to the Ruler of the universe for our continued enjoyment of the blessing of free government, for a renewal of business prosperity throughout our land, for the return which has rewarded the labor of those who till the soil, and for our progress as a people in all that makes a nation great. And while we contemplate the infinite power of God, in earthquake, flood and storm, let the grateful heart of those who have been shielded from harm through his mercy be turned in sympathy and kindness toward those who have suffered through his visitations. Let us also, in the midst of our thanksgiving, remember the poor and needy with cheerful gifts and alms, so that our service may, by deeds of charity, be made acceptable in the sight of the Lord. In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this first day of November, in the year of our Lord one thousand, eight hundred and eighty-six, and of the independence of the United States of America one hundred and eleven.
