Another new dwelling house looms up opposite the residence of George Catching.

Christmas day the thermometer stood at 60° in the shade and at this writing (Monday), it is the same.

We call attention to our new ads in this issue, particularly to that of J. W. Wimer's Economist Plows.

Ex-county commissioner, James Neely brought a dressed hog to town last week which weighed 400 lbs.

Jas. M. Owens of Klamath river passed through town Monday en route for Leland precinct where they expect to reside.

Breaking the church open; stealing a steer and wagon sheet are the latest dispatches. One of them came over the postal Telegraph.

C. H. Burton of Grave creek raised a cucumber last season, so he informs us, which measured four feet, three inches in length.

Our friend Haskell Amy was ahead in the fat men's race when he fell down and E. B. Caton passed him in good style winning the race.

CORRECTED.—Freasure says he has eighteen buggies yet to paint out of the twenty. Call for price list.

With this issue of the COURIER the old year vanishes from the face of the calendar and the new one ushers in and must be written 1887.

Mr. Moon, formerly with the S. P. D. & L. Co., of this place, now a resident of Ashland has been in town again looking hale and hearty. He is mining near Ashland.

At the beef shooting match here the score stood T. Shattuck 1st choice, W. Hamilton 2d choice, S. Redfield 3d choice. At the purse match Redfield did some good shooting.

Dr. F. W. Vandyke has shown us a crop of English Rye grass which he sowed in his yard last Spring and it is forming a splendid turf and presents a beautiful appearance to the passer-by.

We acknowledge a call from N. McNair of Galice Creek, who informs us that Messrs. Eunis & Cameron are putting in a flume at the old English diggings, and that they will soon start up the work in that claim vigorously.

We are informed the balls at Kerbyville and Central Point were both grand successes. Over 60 tickets were sold at Kerby and over 75 at Central Point. Our correspondents at these places should come to the surface and give us the particulars.

Joseph Freasure will preach at the following places: First Sunday, at New Hope school house at 11 a. m.; third Sunday, at Centennial school house at 11 a. m.; last Sunday, at the Sanford school house at 11 a. m. Weekly meetings his residence. All are invited.

Rev. M. Peterson, writing from Jackson county under date of Dec. 27th, says: J. W. Wimer was at Central Point last Thursday with his Economist plows. I took one and tried it and was so pleased with the way it worked in my sticky land, that I went Friday and got another. They do better work on sticky land than any I ever worked in it. They are lighter by 1/4 than my Garden City sulky.

The News and Oregonian have been getting out mammoth editions of late, much to their credit, and greatly to the credit and benefit of Oregon; also many more of our exchanges have sent out improved numbers, supplements, &c. The Del Norte Record gets out the neatest illustrated holiday supplement of any received up to this date. So far as we are concerned we are looking forward to a power press therefore cannot afford to expend any money on side tracks.

We call attention to our agricultural article in another column. The writer concludes in an ironical mood that we can get such things as fruits from California and elsewhere when we are too lazy to produce them &c. Yes, and when railroad connection has been made, we can get eggs and many other things that we eat from California. Although this is one of the finest poultry countries in the world, there are no eggs in the market for 25 cts. per dozen. Chicago will send them here for 10 cents a dozen.

For years and years Oregon has been cursed by the traveler who found no guide boards at the cross-roads. The law requires that road supervisors put them up, and they should do so. It is a disgrace that they are so scarce in Josephine county where lumber is so plentiful. J. A. Freasure in another column, offers to make guide boards cheap enough, and we hope our supervisors may send in orders for a large number of them. That travelers may not experience so much difficulty in getting through the country.

They are also agents for Staver & Walker's line of Agricultural Implements, Wagons and Buggies, of which they carry an extensive stock; and as mining is one of the industries of our county, they have made a specialty of Hydraulic Pipe and Giants. Most all of the characters were well sustained; particularly noticeable were the Chinese, Irish and Geo. Washington characters as being almost perfect while the Winter character as also Day and Night, Grandmother, and many others were well played. Two hours after the ball opened the ever prompt mail-carrier, as if to add to our finances, dropped this little "ad" in our hand asking insertion in the COURIER:

Lost, strayed or stolen, two gold-coin hours between sunrise and sunset; no reward is offered for they are lost forever. SULLIS SMILGHY.

We must also before closing this article, thank the young lady who represented the COURIER and hope that it merits the modesty and good behavior of its masker.

For the COURIER.

The Christmas tree at Music Hall on Christmas night was a handsome affair and all who participated can but admit that the distribution of gifts was conducted on a generous and fair principle. There were no family gifts allowed on the tree—nothing but the articles furnished for the children, and each received alike—the rich and poor, the big and little, received a "Tartan Stocking" filled with pop-corn and raisins, a "Mitten" filled with nuts, and a "Cornucopia" of candy. The infant classes received in addition to these, a Fairy dressed in Tartan. The fairy added very much to the beauty of the tree. There was a hundred persons supplied with gifts, making over three hundred articles taken from the tree. The ladies of the Episcopal Aid Society and Sunday School, deserve great credit for the enterprise shown on this occasion. The Sunday school is only three months old and has an enrollment of 87 pupils, and an average attendance of 48. They hold their school in Good Templars hall on Sunday at 3 p. m.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Bosanko's German Syrup, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles, containing these remedies, thereby giving one-fifth more medicine in the 70 cent size. The August Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Lung troubles, have perhaps, the largest sale of any medicine in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries.
