Convenient Pleasant, and certain in their results, are Acker's Dyspepsia Tablets. Recommended by physicians and endorsed by all who have used them. The best remedy for Dyspepsia, Flatulency, and Constipation. Guaranteed, and sold at 25c. by W. F. Kremer.

Local and Personal. Where, O where is Jack? Singing school all the rage. There will be a wedding in town next week. Go and see a genuine artesian well at the brewery. The brewery is in full motion and makes superior beer. Julius Trumble of Sucker creek, announces twin babies. Willis York is the happy daddy of a bouncing baby boy. Sam White is clerk of the railroad committee of the Senate. Mr. J. C. Boyd and wife, from New York, are in the city. This is the last week of the present session of the Oregon legislature. We regret to learn that Miss Mary Decker of Waldo is not enjoying as good health as formerly. The tug Pelican, wrecked at Smith river recently, has been raised and is not much damaged. Mr. Kennedy, traveling salesman for Fleischner, Mayer & Co., was in town Saturday, as jovial as ever. Prof. T. Shattuck has leased the H. L. Robinson place for a term of five years. He moved thereon last Sunday. We understand the Signal Service predicts the most severe storm this coast has ever seen, to occur on tomorrow. Jack Messerve, the butcher, has sold his interest in the business to Mr. Ahl, who will continue at the old stand. Gen. J. G. Wall of Crescent City, has bought property at Alameda and will remove his family to that place soon. The shipments of Gold dust from this point by the Wells, Fargo Express Company, averages about \$7,000 per month.

See W. L. Blackburns ad. elsewhere in this issue. It may not be generally known that Mr. B. is a first class tailor. R. D. Hume is having three schooners built at San Francisco, for the Crescent City, Smith river and Rogue river trade. Until yesterday morning, we had not received the Del Norte Record or Gold Beach Gazette, for two weeks. They look natural. The steamer "Crescent City" will make regular trips between Crescent City and San Francisco, until the new steamer is completed. Farm lands can be bought here at very reasonable prices, but when it comes to town property, the prices asked are beyond all reason. Mrs. C. H. Haskell and daughter after having tarried in Portland several months, returned to this place on Tuesday's train. They are welcome.

A private letter received at this place says the recent snow broke through the roofs of a number of old buildings in Canyonville, Douglas county. Mrs. T. A. Hood has been confined to her room during the past week with a severe attack of neuralgia. We are glad to learn that she is recovering. Our school moves along so quietly, so successfully and so much to the benefit of the town, that it reflects great credit upon those most concerned in its management. We regret to lose Hon. Henry Rogers as one of our citizens. He has not sold his property here yet and it is to be hoped he may not and that he may soon return. On last Thursday Wm. Moloney, Sr., who resides on Jump Off Joe, while under a shed covered with snow was caught by the shed falling on him. From the effect of injuries received he died Monday. J. H. Aliff gives notice this week of dissolution of partnership. Mr. Ahl is a live man and conducts a first class meat market where everything in his line can be found including sausages, corned meats, &c.

The protracted meeting held at the private residence of J. A. Freasure conducted by Revs. Livesparger and Freasure, closed last Sunday by the baptism of Mr. C. Johnson and Mrs. S. Huffman in the river at this place. W. H. Rumley of Jackson county was arraigned before Justice Hobbell of Jacksonville, recently, who fined him \$25 for assaulting and battering his wife. According to that he must live near Fort Lane or up at the Salt Works. Mr. Hoyt has moved to town and is canvassing for the "Little Wonder" washing machine. Mrs. L. C. Wilcox called at our office Wednesday to say that she had tried the machine and had no hesitancy in pronouncing it a success. L. Leonard of Democrat gulch was in town Monday having been to Jacksonville. He informs us that an aged Frenchman in the employ of G. Karewiski at Jacksonville was found dead in the hog corral and partially devoured by the hogs. Last June we carried the Republican and Democratic tickets in our paper during the canvass, at the agreed price of one dollar each. So far we have received but little pay. We wish the indebted ones would try and get us to take the money.

Mr. Bryant of Louse creek informs us he has a young calf which weighs only 24 lbs and that it was so small it could not run with the cow, he having to raise it "by hand." If Doune did spend \$80,000 in his effort to defeat the incorporation bill, the votes cost him \$20,000 apiece. That's about twice the price of the best Negro in the South during the palmy days of slavery. Well, we white trash are superior. J. F. Kellogg has removed from Kerbyville to his farm on Jerome prairie, where he will be located in charge of the county poor. We understand that out of five paupers in the county, but two have applied to him for county support, up to this time. The 100 yard foot race run at Portland on the 10th inst. between Ed. Skinner, an Eastern sprinter, and Harry Struve of Seattle, for \$1000 a side was won by the latter by six to eight inches. Time, 9 1/2 seconds. About \$2500 was bet on the result. We learn that the store of Wm. Pernel, on Applegate, was entered by some unknown person and a quantity of goods taken. No clue to the robbers. This is the second time Billy has been robbed of goods. It must be getting monotonous. Ed Hathaway, County School Superintendent, called to "shake" on last Wednesday, having just returned from Williams creek where he had been dividing a school district. He went from here to Wolf creek on similar business. Ed makes a good Superintendent. The Grants Pass Charter incorporating the town, passed the Senate with but one dissenting vote, and there were but four dissenting votes in the house. The water bond was changed from \$40,000 to \$30,000. The manufactory exemption clause was stricken out. E. W. James of Albina recently shot and killed an elderly lady by the name of Newton. He did not know the gun was loaded and pointing it at her, pulled the trigger, shooting her dead. The Oregonian thinks the hanging of a few such fools would ston such recklessness. While Jas. Savage and sons were mining near Rogue river a few days ago, they caught a huge wild cat in a very peculiar trap. All at once the giant refused to throw a stream of water, notwithstanding it was set under 150 feet pressure. The water was turned out and the giant taken up, when a huge wild cat was found inside. The suit of Steelman vs. Fred Geyer & Sons, tried a few days ago at Woodville, on a charge of intimidation regarding certain tools in their mine on Grave creek, District Attorney Colvig moved to have case dismissed and costs taxed to Steelman, which was done. Had Mr. Steelman listened to friendly advice this would have been avoided. The Roseburg Review, speaking of the O. & C. train, which, manned by J. F. Kearney, conductor, Ed Elliott, engineer, R. A. Allen, fireman, F. Lucavich, brakeman and B. F. Harvey, baggage man, made the run in the night during the recent storm which broke the snow blockade, removing trees from the track, etc., between here and Riddle, gives all of them a regular "send off," classing them as "faithful servants."

Logan Post No. 39, Grand Army of the Republic, was instituted in this place on Wednesday, Feb. 16th 1887, by F. H. Lamb, Dept. Commander, with 18 charter members. The following officers were installed: J. K. Pigney, Commander; J. W. Griffith, Sen. Vice Commander; W. F. Kremer, Jun. Vice Commander; Antonio Behne, Surgeon; J. P. Coleman, Chaplain; Volney Colvig, Adjutant; S. A. Greene, Quartermaster; J. W. Colby, Officer of the Day; Calvin Jones, Officer of Guard; J. S. Plaster, Sergt. Major. Chas. Saunders and George Sturgeon came out from Galice creek last week. They report deep snow in that section and the miners jubilation. Mr. Saunders says there are extensive mines of both quartz and placer in that section which, up to this time have not been explored. He predicts a bright future for that section because (he says) the mines are rich and time will bring capital which is alone necessary to make Galice creek one of the most important mining camps on the coast. The people of Jacksonville are wisely pushing the branch railroad question, with good prospects of success. Well, it's now or never. Should they fail, it would be useless to try again. Jacksonville is a pretty town with a pleasant, fascinating air about it that makes one feel at home, has costly buildings, and the finest court house south of Salem. It is noted for its gold mines, its fine fruits, such as peaches, melons, grapes, etc., its pretty flowers, sociable people and progressive business men. During the recent storm, the mails have been obstructed on both of the mail routes from this county into Del Norte Co., California, the carriers suffering great hardships in their efforts to get through. Mike Adams was at Gasquet on the Crescent City route, and his brother Richard at Waldo when the blockade came. They tried for a week to get through before they succeeded. Mike was out two days and nights in deep snow, without house or bed and but little to eat, while

his brother and the sub-contractor went out one night similarly exposed. The route is broken via Monkey creek. A gentleman just up from the railroad front, says they are pushing things vigorously. From his report of the rush and bustle going on there, it seems evident a connection of the two roads has been decided upon. Hon. S. U. Mitchell writes us under date of the 13th saying that he thinks the Courier did him an injustice by stating last week that he had been caught in a parliamentary trap in the House by the opponents of the incorporate bill. We simply reprinted the news just as it came in the Oregonian. His letter shows conclusively that he fully considered his motion before he made it and the final passage of the Senate bill clearly proves that he did not make the blunder attributed to him by the Oregonian. During the past few days a good many complaints have been made at this office, of the constant destruction of deer going on throughout the county; and several have complained that about ten deer a week are killed just above town, by running them into the river with hounds. We hear that about one hundred have been killed on Deer creek during the snow storm, and that they are poor—really not fit to eat. From the pile of hides shipped from here on last freight, these reports must all be true. Well, we are ashamed to think that the poor deer family must be exterminated, and are consoled when we look ahead but a few years to the time when but few, if any deer will be left to be slaughtered. It seems that the human family is naturally sinful, and that had no effort been made to cultivate and raise it above the plane of the lower order of dumb brutes, it would be rattling along to-day without superiority over them. With all our boasted highness, goodness and greatness, there is occasionally a growler among us. Who paints things red, Like a bear with a sore head. Free from pestilence of any and all kinds, enjoying the finest climate on the face of the earth, where cyclones, blizzards head-lice and itch are not known, and where the melodious voices of the mocking bird and mud turtle echo and re-echo from ant hill to ant hill and from gopher hill to the fish trap down on Rogue river. Yet amid all this splendor and squalor, some will persist in growling. The poet said, "Man's a fool When it's hot, he wants it cool. Man's a fool."

Why, sirs, a foreign war might awaken us to a realization of our utter littleness. The Pacific coast might be the seat of war. Should this occur, then we would have something to growl about sure enough. A British gun-boat could take the entire coast prisoner. One shot from its battery would end the fight, and then we sour, crusty cusses would have the satisfaction of seeing our fathers, brothers and roosters killed; our rails, hen-houses and hog pens burnt up; our turkey gobblers and geese trotted to death at the end of a fish line; and this county being the scene of battle, would not have a house standing in it six months—then would you growl? It's not a good sign of a highly manured intellect to growl so much; and then its the handmaid of dyspepsia, either one of which will induce the other. Let us tie a curly comb to a fence rail and scratch each others backs, and see if we won't feel better. We are indebted to our school clerk, W. L. Blackburn, for the following statement showing the financial condition of our school district, and amounts received and expended from April 20th, 1886, to January 15th, 1887:

Received from State and County tax	\$ 385 80
Received from district tax collected	1,612 71
Received from tuition of outside scholars to date	199 42
Money borrowed, due Nov. 19, 1888.	750 00
	\$2,947 93
Amounts paid out between dates above mentioned	\$2,624 74
Cash on hand	323 19
	\$2,947 93
Amount of indebtedness at this date	\$1,358 51
Less cash on hand	323 19
Leaving total indebtedness of \$1,035 32	

This includes the above item of \$750 which is not due until Nov. 19th, 1888. But does not include amount donated toward building new rooms. The following proceedings have been had in Justice Goodell's court since our last issue: David G. Davis vs. Smith Bros., action to recover money. A. H. Carson counsel for plaintiff; Davis Brower counsel for defendant. Case heard Feb. 12th. Judgement for plaintiff in the sum of \$53.36. Case appealed to circuit court. Same party commenced action on the 14th against defendants to recover possession of two horses, one wagon and buggy. Case to be tried Feb. 23d, 1887. State of Oregon vs. Chas. Jeroy, larceny in dwelling. On information of J. B. Hutch, in the sum of \$7.25, which was taken on the morning of the 14th inst. Examination was had same day and defendant bound over in the sum of \$200. Failing to give bonds, he carries at Hotel D. Peterson.

The Portland Telegram and other papers were informed that the snow was three feet deep in Ashland. That was about two feet three inches deeper than the people here could find it in town. It is reported that the residence of Mrs. Jas. Miller of Brownsboro, was consumed by fire on the night of the 7th inst. Some clothing left hanging too near the fireplace, is the supposed cause of the fire. The Ashland City Roller Flouring Mills are not running this week, owing to an accident last Friday evening—the breaking of the iron pinion of the main driving shaft. A new pinion had to be cast, and it will probably be several days before the mills can be started again. The Yreka Union has been purchased by Messrs. R. Beers Loos and Royal G. Brown, who took possession last week. Mr. Loos, a former proprietor of the paper, is a writer and publisher of recognized ability, and Mr. Brown, formerly of Jacksonville, is a good printer and a steady, reliable young man of much promise. Success to them. The mining ditch was carrying a large stream of water during the storm last Thursday, and becoming clogged with snow, overflowed its banks in the northern part of town and for several hours poured the whole stream down the steep hillside, cutting, washing and burying various lots in a serious way. The damages were shared by Messrs. Sackett, Willits, Patrick, Songer and Helm. The owners of the ditch will pay for the damages, it is said, without being first compelled by law to do so. Now that the bill granting the Oregon Railway & Navigation company the right to bridge the Willamette has become a law, work will commence without delay. Mr. Geo. R. Morrison, the well known engineer, will have charge of the construction. He has already been telegraphed for and is expected to arrive in a few days. When he was here last fall he made all necessary soundings and the general plan of the structure was prepared long since; so there will be no time lost on preliminaries. Work on the passenger depot and general offices of the company at the south end of Couch lake will probably begin early in the coming spring, and on the freight depot also. Property in Couch addition is certain to advance and those who bought four years ago feel a great deal easier than they did last week when they heard of the veto. With the bridge, the depots and the terminal buildings in Albina, costing \$2,000,000 or more, to say nothing of private buildings as the direct result of the railway enterprises, times will be as good in Portland in 1887 as they were in 1883. And the north end of the city is not going to monopolize the prosperity. The narrow gauge road wants in from Elk Rock, and it will be strange if it does not reach the city limits, if not the levee, before fall. With that line completed and accommodation trains running up to the White house, at about the same hours as the steamer Sellwood now makes trips, we may look for a continuous town along the west banks of the Willamette as far as the Red house, within five years. Land is cheap and the situation first class. And it may be, before the end of the year, that the big hotel will be started toward completion, and the center of the city will join in the forward march. Verily the boom is on Portland.—[Oregonian.]

A NASAL INSPECTOR free with each bottle of Shiloh's catarrh remedy. Price 50 cents. All I remember.

Correspondence. MEDFORD, OR., Feb. 11, '87. ED. COURIER.—We have been so busy for the past few weeks that we have not been able to comply with our promise to give you a weekly letter. Will you forgive us for direction of duty? Snow, mud, and water reign almost supreme in Medford. Stock men are anxious about their stock this stormy weather. It is feared that the loss in cattle and sheep will be large. Protracted meeting is going on in McGee and Zimmerman's hall at this place, and much interest is manifested in them by the people. Rev. J. C. Baker of Salem is now aiding in them. Quite a number have professed conversion and many more are enquiring the way of life. The Solos of the Oregon Legislature seem to be in quite a muddle on the act to incorporate Grants Pass. It occurs to us that any who are interested in the future growth and development of Grants Pass would favor the act. Grants Pass ought to be an incorporated town. Elder M. Peterson was in town last Wednesday. Wonder why the editor of the defunct Monitor remains so closely housed up? Miss Carrie Baker has recently taken a position in the Medford High School. Rev. A. Brown of Williams creek who has been visiting friends in Medford returned home last Monday. While here, he gave us a good sound logical sermon on the text, "Come and See."

Rumor has it that a certain Professor in Medford will wed one of his pupils on Sunday next. Beautiful overhead to-day. PLOW PLOW. From the Ashland Tidings. The Portland Telegram and other papers were informed that the snow was three feet deep in Ashland. That was about two feet three inches deeper than the people here could find it in town. Business Change. The late firm of J. W. Howard & Co. has been dissolved, John W. Howard having bought out Mr. Nickell's interest in said co-partnership business. The business will hereafter be carried on at the old business place, by J. W. Howard, who desires to thank the customers of the late firm for their past patronage, and hopes by fair dealing and reasonable prices, to receive his share of the trade in the future.
