Let us give the readers of the COURIER a little timely advice. Hot weather is coming and with it colic, cholera morbus, dysentery and diarrhoea. The only safe way to combat these diseases, is to keep some reliable remedy at hand, and all who have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy will admit that it is the most prompt, reliable and successful medicine known for these complaints. It costs but 25 or 30 cents, and may be the means of saving you or your family much suffering, if not life itself, before the summer is over. For sale by Mrs. C. M. Stone.

The Walker, Iowa, News says: "Our old friend, Robert Baird, of Muscatine, Iowa, has been secretary of the state senate, and an active politician for years, but was never generally known until he had the colic, and used Chamberlain's Colic, Cholera and Diarrhoea Remedy, and got into one of their advertisements. "Now he is famous." Here is what Mr. Baird said: "While in Des Moines, I was taken with a severe attack of bowel complaint. For two days I suffered intensely, trying several drug stores and paying them for relief, but in vain. I finally bought a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and two doses of that brought me out all right. It costs less than the drug store preparations and I have the balance for future use. I consider it a grand remedy." 25 and 50 cent bottles for sale by C. M. Stone.

While standing on the opera house one day this week we counted thirty one wagons in twenty minutes, carrying lumber, brick, watermelons, fruits, vegetables and other commodities that would call a persons attention to the diversity of the resources of this county. All the soldiers, but a small detachment of twelve men, passed through the city last Saturday from Fort Klamath en route to Vancouver Barracks in command of Lieut. McCannon. It does not take the courts of Josephine county long to dispatch justice. On the 7th inst. the grand jury returned a true bill in the case of the State of Oregon vs. John T. Ireland, indicted for rape. Sheriff Moss went to Galice creek, arrested and brought him to Grants Pass on the 8th, court adjourned on the 9th until Monday 12th. When the case was ready for trial, the jury empaneled all the evidence taken, the arguments of counsel closed and the case given to the jury for their consideration on Thursday at about 4 o'clock p. m.; they assembled to the jury room, elected their foreman, and on the first ballot a verdict of guilty as charged, the result. Friday morning Judge Webster passed sentence of 20 years, and Sheriff Moss the same evening left on the train with his prisoner for the penitentiary at Salem. All this happened in just one week from the time of his arrest.

One of the best paying investments that could be made at present is the building of cottages to rent. The constant demand for houses has never been preceded at this season of the year. And if such is the case now what might we expect this fall, when the crops are all harvested and the travel begins. We are offering inducements to parties, but in a short time we will have no place to put them when they come. We could have rented twenty houses the last two weeks, but if there is a vacant house in the city we do not know it. Houses can be built cheaper in Grants Pass than in any town in the state. If parties can build houses in Ashland, Medford and other towns and rent them at a profit, Grants Pass can do the same at a much less cost, as both the above named towns obtain the greater portion of their furnishing material from this place. And any one conversant with the demand, knows the rentals would insure interest on the investment, not saying anything in regard to the increase in value of the property, and every building adds that much more value to the entire city.

Key West and Domestic cigars just arrived at Thornton Bros.

W. H. McDonald, better known as "Mac the Tailor," who came to Grants Pass on the "blind baggage" about two years ago, and through the assistance of a generous community opened a tailor shop and received patronage to the extent that he was able to give his attention to the management of the Commercial hotel in connection with his shop, with the assistance of a woman (whose character is notorious), whom he made his wife since his residence. Both having as every one supposed, reformed. They won the confidence of many and received credit variously estimated from \$400 to \$800. Last Friday they boarded the train for parts unknown, leaving the hotel to take care of itself, also their creditors. When it was known that they had skipped, parties telegraphed for their arrest, but after deliberate consideration, telegraphed their release as it would only incur additional expense. Their years of vice would not allow them to make an honest living, and the city is fortunate to find them out as soon as it did.

Mr. H. W. Ogilbe, engineer of the P. D. & H. G. M. Co., called on us last Friday, from whom we learn that the company is pushing matters right along on its Grave creek mines. The company owns an extensive mining property there and feels confident of good return for the large expenditure it is making.

A. J. H. Henderson, P. P. George and wife, and Douglas Adams and wife of Kerbyville, arrived Tuesday and returned this morning. Mr. Henderson reports that they are all doing nicely and the crops exceeded their expectations. Mr. Jacob Hanseth threshed 500 bushels of wheat and Mr. Buckman 2700 bushels of wheat oats and grain.

As the conference year of the M. E. church is near its close, we are reminded of the work that has been done at this point by the church during the past six months. Fifty nine united with the church, and during the recent camp-meeting revival over 60 conversions were reported. The church work is very prosperous and the growth is constant. The fine church edifice being erected now, is indicative of this fact. This church building when completed, will be the finest one south of Salem, and is to be handsomely finished and furnished. It will be a substantial improvement to the town. The work being done by the church, will, we hope, be of lasting good. Much of this work, in fact almost wholly, is the result of the labors of the Rev. T. L. Jones, who has not only worked zealously, but intelligently and acceptably during his sojourn here. All classes desire the return of Mr. Jones for another year and it certainly will be prudent for his conference to return him. The conference meets at the Taylor St. church, Portland, on the 28th inst., and will be presided over by Bishop Bowman.

Drowned.
A young man by the name of Harmon, from Josephine county, Oregon, was drowned at the Old Mill, on Lake Earl, on Saturday, the 10th instant. We have been unable to glean particulars of the sad affair. The body was recovered Sunday morning. It seems that deceased was in the habit of walking on the floating logs in the pond, and after supper, on Saturday last, was seen to go to the pond; and failing to return at bedtime, search was instituted, resulting in the finding of his body early Sunday morning in the pond. The supposition is that he lost his balance and fell into the river and as no one was near to give him aid he perished.—Crescent City News.

The stallion, Melbourne, a colt of Mand. S. died on Bonner's farm, N. J., a few days ago. He was valued at \$12000.
