We have not seen the dog since he visited the Lewis mine on Gravel creek this week.

Mothers will find Chamberlain's Cough Remedy especially valuable for croup and whooping cough. It will give prompt relief and in case of pneumonia, it has never failed to give the most perfect satisfaction. G. W. Richards, Duquesne, Pa. Sold by all druggists.

The Cow Question.
When civilization calls for reforms and improvements there are always plenty of away-behind people to object to their plans. When they carry it so far as to eliminate a cow, a cow's head is now voted on a question, they carry it too far to be recognized, in fact to the same point as was the case with the cow. We have the streets and her owner do not provide.

To hear these advocates of cow pasture-town talk one would think there was only one side to the question.
Let the city once pass an ordinance to close the streets to stock and it will result as it has in Ashland, Medford and Roseburg, viz: to increase the demand for milk and butter by people who are well to do and who are raising their own. To cause pasture to be provided by land owners near the city in all directions is a brighter and heartier place on condition at less expense to their owners. To encourage the setting out of shade trees thereby and beautify the city making it a brighter and heartier place on condition at less expense to their owners. To encourage the setting out of shade trees thereby and beautify the city making it a brighter and heartier place on condition at less expense to their owners.

Decorations Day was observed in this city last Saturday with appropriate ceremonies. The A. A. K. and W. R. C. held a picnic in the afternoon where exercises were conducted, after which the march to the city graveyard and decorating the graves was conducted. Some of the business houses were decorated with bunting. The day was fine for the exercises though rather dusty.

The two prisoners under sentence of death in the county jail eat heartily and show no outward sign of worry over the impending doom. Nelson, the murderer of Chas. Ferry, refused to eat and died in the various plots. Finster doesn't read any more, though when first incarcerated he read a good deal. He claims that his eyes are failing.

There is already stored in The Dalles about 3,000,000 pounds of wool, but no sales have been made. Both buyers and sellers are holding off to see what congress will do with the tariff bill.

To the Hon. mayor and council of the city of Grant's Pass:

August Fetner A Lempe

John D. Fry Robert McLean S. A. Green
A. S. Greene C. H. Simpson
W. S. Farrie N. Dodge

It will pay intending purchasers to call and examine his goods and get his extremely low prices. Don't miss this sale.

Corruption in Portland.

Portland spends \$25000 a year lighting its streets by electricity. It pays it because it has got to. A private monopoly says it must or go without lights. Had we a set of determined men in the city council, instead of a few political shysters Portland would have been freed from the clutches of this monopoly a long time ago. In proportion to the rate paid by cities that own electric lights, Portland, by owning its own plant would save \$62,000 each year to the tax payers, instead of what now goes to enrich a few individuals that compose the Portland General Electric Company. We suppose that if our councilmen thought they could make a "rake off" from the deal as from the "crematory late steamer" that we would be lighting our streets from our own plant by this time. It pays them better to "stand in" with the corporations than with the people.—From the Calumity Howler.

If it required an annual outlay of \$100 to insure a family against any serious consequences from an attack of bowel cholera and diarrhea remedy in all many who would feel it their duty to pay their lives, and those of their family, for their lives, and those of their family, for their lives, and those of their family, for their lives.

The Last Single Call.
Death is rapidly thinning the ranks of the old soldiers, and in a few more decades nearly all those who fought in the Revolutionary war will be numbered with the silent majority. It is said that the Grand Army is losing membership at the rate of 100 per day; that in fact, some of our old soldiers every 15 minutes. Each memorial day records the thinning out of the ranks, and the old veterans who takes part in the procession next Monday will have no assurance that his comrades will not be called upon to decorate his grave next year.—E.

Stands at the Head.
Aug. J. Bogel the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ga., says: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, and Colds. I cannot say enough for Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and has done more good than any other medicine. It never disappoints. Free trial bottle at Dr. W. F. Kremer's drug store.

Durrant's Fate.
Theodore Durrant will be hanged on June 11, next, at 11 o'clock, at the Oregon State Penitentiary. Governor Bullard telephoned that much in effect to Warden Hale, of San Quentin, at the same time ordering the death of Durrant's father.

Theodore Durrant has made the declaration that if he must meet his fate on the gallows, he will die as a man. The mere suggestion of suicide is repulsive to him, he says.
He also declares that he will die in the evening of his parents, who he must meet on attending the execution as his invited guests. The elder Durrant says that his wife is a woman of determination, and she will press her legal rights to the limit.

Under the law, Warden Hale cannot deny her permission if she presents an affidavit from a physician, and her son requesting her presence at the hanging.

The Hotel Josephine, under Mr. Booth's management has become known as the great headquarters in Grant's Pass for all transient business and pleasure and everybody who enjoys the comforts of a good home at a reasonable cost. The Western with its wide balconies and bright rooms is well known as an annex to the Josephine.

The fare has been reduced to \$10 between Portland and San Francisco on the flyer. The company is getting sharp business, and instead of all fare, \$21, the fare is now \$11. The fare is paid back to him when he gets there. This puts a stop to the long train of getting off between the terminal stations.

The Indian creek homicide in which two sluce-box robbers were killed proves to be a hoax. Nobody was shot and the young man who fired the shot was well to do and a traveler buys his ticket, and the balance \$11 is paid back to him when he gets there. This puts a stop to the long train of getting off between the terminal stations.

The S. P. officials were on an annual tour of inspection along here last week. Although the company furnishes the "railway commission" a train with porter, etc., it hasn't much confidence in its "inspector" made by the three gentlemen who has no bad to let go.

From 6,000 to 10,000 head of cattle are being shipped East from Heppner. The Arlington National bank has paid out about \$500,000 to cattle men this season.

J. W. Marris a farmer living in the woods near LaGrande was shot from ambush while he was cutting wood. The wound is a dangerous one and the assassin is unknown.

A warrant is out for Sealey, who it is thought set a fire trap to get a fire trap on his house near De Moss springs in Sherman county. Coal oil, phosphorus, etc. were found smoking at 11:30 P. M.

The insurance on the recent fire has all been satisfactorily adjusted.

PISO'S CURE FOR CONSUMPTION.

Rogue River Mining Items.

The Jewett stamp mill will start on this week. A considerable good ore awaits its manipulation.
Stale creek and Deer creek are the only streams in Josephine county where no mining is done.

Several pounds of quartz in which the yellow gold showed about 20 per cent in less than three months on Bolan creek this season. Bolan creek is a tributary of Sucker in the south end of the county.

Crow & Taylor are packing some 1500 pounds of ore daily out from their Galice creek mine and caching it at Mr. Crow's place preparatory to hauling it by wagon to Merrill from which point a carload is soon to be shipped to Ashland.

Considerable fine gold has been washed in the Oak Flat mine, owing to lack of knowledge in saving it. A new foreman, Mr. Hollenbeck has been engaged, who understands trapping fine gold, and the tailings will not be so rich hereafter.

A cloud burst occurred on Bully creek near Westfall, Malheur county, last week letting down a perfect deluge of water. A body of water 10 feet high is reported to have come down Bully creek, and was unloaded near the track a short distance from the works and the owners had hoped to find the water cut on the 1st of June. It will take us no suspension after it does get to going. The boiler was formerly used on the Stark street ferry in Portland.

Some for ten, some for twenty and some for thirty years have suffered from piles and hemorrhoids, but have been permanently cured by using De Witt's Witch Hazel Salve, the great remedy for piles and all forms of skin diseases. W. F. Kremer.

The jury in the case of the State vs. Fred Minkler, at Lakeview, after being out all night, returned a verdict of not guilty. The crime for which Minkler was convicted was committed on the evening of December 21, 1896, when he and a companion held up Charles Campbell, in his blacksmith shop at Paisley, Ore., and robbed him of \$500.

W. B. Johnson, Newark, O., says: "One Minute Cough Cure saved my only child from dying by croup." It has saved thousands of others suffering from croup, pneumonia, bronchitis and other throat and lung troubles. W. F. Kremer.
