Corrieh are preparing on Cow creek, having taken up the cent for the great molder where the late Ed. Schellin left it off. Some for ten, some for twenty and some for thirty years have suffered from piles and then have been quickly and permanently cured by using Dr. Witt's Witch Hazel Salve. The great remedy for piles and all forms of skin diseases. W. F. Kremer. Cows in Portland. Since the council refused to pass an ordinance, some time since, requiring people to fence cows to obtain permission from property owners, before staking out their animals on other people's property, many of the cow owners have had a hard time to get their cows out of their pens anywhere they pleased, on property not fenced. Some of these people are likely to get into trouble. Cows are staked out with ropes long enough to let them to get out on the streets, and when they get on the streets or sidewalks they are liable to be impounded. Property owners have also the right to turn loose and drive off cows they find staked on their property. A short time since an agent for a lot of property on East Side turned loose some 40 or 50 cows he found on the property, and, as they were wandering about the streets, the poundmaster set a net for them. He said they were liable to do so under the circumstances; but, where cows are staked out so that they can get on the sidewalks, or into the streets, he will be obliged to arrest them. People who depend upon other people's property for pasture for their cows must bear in mind that the public and the owners of the property have some rights which they will have to respect.—Oregonian. Don't thin your blood with assasin or poison it with blue-moss; but aid Nature by using Dr. Witt's Little Early Risers the famous little pills for constipation, biliousness and stomach and liver troubles. They are purely vegetable. W. F. Kremer. The Oregon Legislature. It is unfortunate that conditions are such that talk of an extraordinary session of the Oregon Legislature is in order. Last June sixty men were selected with a specific duty to perform, and with that duty to do, but to attend to that particular duty. It turned out that the character of the men selected was such that they were not able to do their duty. It is perhaps unwise to attempt to do so. The question of who or who is not to blame or to endeavor to fix on a given case the responsibility for the preceding. Enough has been said to show that the Legislature is in order, and there is now talk of another session and that even when it is gathered together, there is no assurance that there will not be another period of public shame and official shortcoming. Corvallis Times. Stop suffering! Try Dr. Miles' Pain Killer.

OVER THE STATE. Peter French of Harney county sold 500 steers last week at \$35 each. William Hunter, a farmer near Lebanon committed suicide by jumping into an old well. Montgomery the grave robber of Portland has been sent to the pen for 2 years. He plead guilty. Nineteen double-decked cars went out of The Dalles loaded with sheep belonging to Kerr & Buckley. They go to the ranges in South Dakota, on the line of the Great Northern. The 4-year-old son of Gus Johnson, section foreman at Durkee, in Baker county, was thrown from a wagon loaded with wool, the wheels of the wagon passed over the child, fracturing his right thigh, and making a very bad wound. Mr. and Mrs. Chas. Moore and three children of Mr. and Mrs. Hart Wilson were poisoned Saturday by eating corned beef. It was thought for a while that Mr. and Mrs. Moore and one of the children would die, but after five hours they were able to be taken to their homes. Sixteen carloads of cattle, about 800 head, were shipped out of the valley from Eugene, by way of Salem. Ten carloads were picked up at Eugene and Irving, and six at The Dalles. The train started for the train at Salem. They are destined for Chicago, but will be stopped and fed in Nebraska. W. E. Guthrie is the shipper. John Porter's residence, near Dora, in Coos county, burned. Mrs. Porter was at home at the time with her baby, which she carried about 30 feet from the burning building, when she returned, she found the child's clothes on fire, and the little one so badly burned that it is thought the injuries will prove fatal. A band of Mexicans passed through Dora last week, and were stopped by the town authorities forced them to move on. Where they camped they blocked the road with a gun, and a young man on his wheel was compelled to stop, when one of the Mexicans took the wheel and started off with the gun. When the man was brought back, and the wheel was delivered to its owner, who was allowed to pass on. W. B. Johnson, Newark, O., says, "One Minute Cough Cure" my only child died from diphtheria. It has saved my child from suffering from croup, pneumonia, bronchitis and other throat and lung troubles. W. F. Kremer. Direct Legislation. A hopeful indication of civic progress is seen in the fact that "direct legislation," or the power in the hands of the people to pass laws, is rapidly coming to the front. Bills embodying it have been considered by several state legislatures during the past winter, and it is being advocated among leaders of all parties. Nebraska has provided for the introduction of the initiative and referendum in cities and counties, and it is being considered by several state legislatures. The initiative and referendum amendment, applying to both state and municipalities, which provides that "not more than five per cent of the qualified voters shall be required to invoke either the initiative or referendum." This amendment will be submitted to the people for ratification at the next election, which is represented in every state, is organized for the purpose of "restoring to the people direct control over their government." "No people can be self-governed who are denied the right to vote yes or no on every law proposed by their representatives." In quoting here the definitions of the League. Direct Legislation.—A law made by the voters. The Initiative.—The proposal of a law by a percentage of the voters, which must then go on to the referendum. The Referendum.—The vote of the people on a law proposed through the initiative, or any law passed by a law-making body, whose reference is petitioned for a percentage of the voters.—Union Signal. Gold Near Portland. Max M. Shillock and George P. Clark, who have just returned from a two weeks' inspection tour in the Cascade mountains in Skamania county, Wash., believe that gold is to be found in the very doors of our city with the rich specimens of ore they brought back with them. They give the most glowing account of the gold in the Cascades in Oregon and Washington are in reality a continuation of the rich deposits discovered in British Columbia, and expresses surprise at the fact that this money is near the very doors of our city, but has not been exploited before.—Telegraph. You want Dr. King's New Discovery because you know it to be safe and reliable, and guaranteed to do good or money refunded. For Coughs, Colds, Consumption and for all affections of Throat, Chest and Lungs, there is no thing so good as Dr. King's New Discovery. Trial bottles free at Dr. W. F. Kremer's Drug Store. Regular size 50 cents and \$1.00. Mothers will find Chamberlain's Cough Remedy especially valuable for croup and whooping cough. It will give prompt relief and is safe and pleasant. We have used it for several years and it has never failed to give the most perfect satisfaction. G. W. Richards, Duquesne, Pa. Sold by all druggists. A Seedless Frigate. A prominent citizen of Lebanon, says the Express, had a seedless frigate the other day. He had some blasting to do on his stumps. So he bought a quantity of what he supposed was coarse gunpowder. It had his name on it, put in the powder and fired his fuse. In running for a friendly tree, he fell with his wind almost knocked out of him, but finally recovered. He was thankful that he was alive. He waited for the blast, but it did not come. He tried a new fuse, but no go. He poured in a fresh supply, but it did not go off. So he had to go to investigate, and to his complete amazement he found one seed in place of gunpowder, and then he swore a big oath. It is to be hoped that he found the temper that he lost. Croup and whooping cough are childhood's terrors, but like pneumonia, bronchitis, and other throat and lung troubles, can be quickly cured by using One Minute Cough Cure. Dr. W. F. Kremer. Yesterday Police Judge Smith fined two bell-ringers \$1 each for playing a game of fivecuffs the other day on Sixth street Tuesday.

Rogue River Mining Items. The Bayliff-lump pump works above town are running in daylight hours with 7 men. The owners are well satisfied with the prospects. The Elk creek excitement has died down. There was nothing to justify it but a lot of low-grade quartz which will not average 8 c ton. Fleish and Caspacia are fixing to do some rocking in a bar of Rogue river this season again. The men are workers and always make good wages. The Lewis mine cleaned up last week and the result was highly satisfactory. A great deal of money has been expended in putting these diggings in trim but it has been well invested and will earn good dividends as time goes by. J. W. Landorg's house and contents were burned up Friday night at Roseburg by some incendiary. Isadore Ary rabah's caught fire in the daytime but the fire was put out without much damage. The Coast Range Mining Co. are running their pump, works ten hours each day just above Weaverville. The ground is known to be rich, as a man with a rocker can wash out \$1.25 a day. Four men are now employed on the works, but the force will be enlarged in a few days. A San Francisco company is about to work the Phillips-Strong copper ledge a mile and a half from Waldo. The ore is situated in a creek bed, where a pumping plant will be put in to keep the shaft clear. The rock assays 20 per cent copper and \$10 a ton gold. Jack Fox has been engaged on the matter for some months. The "Blue Backet" ledge, like that of the "Lost Cabin" seems to be turning up in all portions of the coast. A party is now out in Grant county expecting to find gold by the bucket full, according to the legend. The "Lost Cabin" mine has not been found now for several months. Any person who knows of its present whereabouts can get up a party of prospectors in Grant's Pass. The difficulties in the way of saving fine gold are not yet overcome, notwithstanding the fact that countless fine-gold saving machines are on the market. When flakes of gold resemble particles of bran in weight and consistency now are you going to separate them from the mud and water that carries them through your sluice boxes? The tailings of every placer mine show many colors to the fan and where the extremely light flakes bear a large proportion to the gold in a claim it is difficult to make it pay big. Breeders of horses will be pleased to notice that the service of the best of the breed has been reduced to meet the times. Now is a good chance to get a good cool cheap.
