J. W. Howard is the man for county clerk.

For the office of Board of Equalization we should have a man of good sound judgment, capable of discriminating between right and wrong.

The deadly cigarette has received another blow at the hands of the various military examining boards throughout the United States.

In the selection of candidates for district attorney, the Union party of this district were exceptionally fortunate.

Oregon's commissioners for the Omaha exposition are doing a good work in presenting the interests of the exposition to the citizens of this state.

AN ENGLISH ALLIANCE.

Of all the great nations of Europe that have sent assurances of neutrality, with the possible exception of Russia, England is in reality our only friend.

The tax law by which the United States has been a party to the Anglo-Saxon alliance against the Anglo-Saxon, the descendants of those bold men who fought and died at Hastings and loved on the field of Romney from the unwilling king the great Magna Charter.

The friendship of Russia for the United States has been a thing of many years. How it originated we hardly know, but it is a fact that the most friendly feeling has existed between the countries.

Her authors and historians have done England full justice, reading and thinking upon the history of this last few years.

Notice is hereby given that there are funds in the county treasury for the redemption of the following county warrants.

Prof. Hampton.

In nominating Prof. Hampton for the legislature the Republicans of Josephine county have made no mistake. A man should be well educated, intelligent and upright to represent his county in the legislature.

The Big Three.

The tax law by which the United States has been a party to the Anglo-Saxon alliance against the Anglo-Saxon, the descendants of those bold men who fought and died at Hastings and loved on the field of Romney from the unwilling king the great Magna Charter.

County politics are not very hot just yet, but there is a three weeks' trial election, and many things might happen during that time to warm the brethren up.

Merita Happenings.

To the Voters of Josephine County.

There are times in the affairs and lives of nations as well as of individuals, and especially it is very important to watch the turning point, as at such times much damage might be the result of a little neglect or carelessness.

J. G. Abbott Replies.

Mr. Everett.—In the last issue of the Observer, the editor, in one of his "light" paragraphs, mentions under the caption of "Fusion Reformers," that an unprovoked attack upon H. C. Perkins, D. C. Brewster and myself, by reason of which he indirectly intimates that we ought to be silent concerning the coming election.

I was at first inclined to hold my nose like the Irishman who met the stunk and said, "It's not ye I'm afraid, but the offensive breath ye have," and treat the matter with the silent contempt the article deserves.
