The sworn reports of the different life insurance companies show the percentage of gain in insurance in force in the Penn Mutual Life Insurance Company in Oregon and Washington during 1897, exceeded that of all the other companies combined. One of the reasons for this is the fact that the same sworn reports show the Penn Mutual to be the only company that had no resisted claims during 1897.

Ask for the little book "Photographic Hints" free at the studio or by mail. To get valuable pointers, you want to know Carbon Studio, opposite Court-house.

Said They Were Going to Manila.

Three little boys, Carl Kurth, Eddie and Wilson Wade, ages about 12, 10 and 8 concluded to take a trip to Manila consequently they went to the depot Tuesday morning and bought tickets as far as Woodville. From Woodville it is supposed that the lads intended to go about. They were seen at 2 P. M. Tuesday evening their way across the Rogue river bridge expecting to reach the next station (Jacksonville) on the way to Manila. The parents as a natural consequence are in great trouble over the conduct of the little boys and Prof. Kurth started early in pursuit but at this writing no report has reached this office of their recovery. Some people persist that boys will sow their wild oats and if that were a fact, we must conclude that these are beginning early. The little fellows know not what they are doing but will learn better when they are again returned to the fold.
