

New Canned Goods

Are arriving constantly. The contents of the cans are raised in the locality best suited to them, gathered in mature condition and canned in such a way as to retain their full flavor. The samples we have tested of each kind of Fruit and Vegetable are perfect in flavor and condition, and the vegetables in particular, superior to most so-called "fresh vegetables". Camping parties will find them invaluable in making up supply lists. Miners also appreciate these superior goods.

One gentleman of this county gave the value of his dog to the assessor at \$50 but when his assessments were footed up and exemptions taken out, there was nothing left on which to pay taxes. Fined.

Last Thursday, Constable Colby went down to arrest William Radzom, near Indian Ferry, on the charge of fencing up the new road leading to Galilee creek.

When the constable arrived on the spot, the squaw near (he is living with Indian Mary) took refuge in the house and barred the door and refused to open on demand of the officer. Mr. Colby secured some help and determined to take the man as that was the object of his trip. The posse tried all manner of persuasion to get those within to open the door but without avail, when the constable instructed William Crow to break the door open which was done.

When the door was broken open, the little boy was found overhead with his gun pointing directly at the men ready to demolish the posse, but for some reason he did not shoot. Radzom had secreted himself in another room hoping to delude the officer, but a good search brought him to light when he surrendered although they had sufficient arms to maintain themselves against the posse. The prisoner was brought to town and tried in Justice Holman's court on Friday before a jury of six men consisting of E. A. Wade, R. L. Coe, J. E. Peterson, L. L. Jewell, D. S. Cook and T. P. Cramer. The jury brought in a verdict of guilty and the prisoner was fined \$25 and costs, failing to pay the fine he was lodged in jail.

FLOUR

There are many kinds and qualities now on the market, and it behooves the careful housewife to get a good article. Many a man goes to work with the day started wrong, and everything goes wrong because the rolls for breakfast were not good, and possibly the wife blames herself all the day for her failure when it was the fault of the flour.

The Reunion

Last week the COURIER unintentionally failed to make mention of the happy reunion of the Booth family in this city.

All the family were present except one son who lives at Prineville. Mr. and Mrs. Booth fulfilled the divine injunction which says, "Multiply and replenish the earth," for they have an even dozen children all living and in the enjoyment of health. At this reunion there were represented four generations, in Father Booth, Hon. J. O. Booth, Mrs. Elmer Dunbar and Mrs. Dunbar's little girl, Allen.

There were present 37 relatives. Father Booth and family are old settlers in Oregon, a number of the children having been born in the state. May they live to enjoy other reunions is the COURIER's wish.

Many people are becoming familiar with the necessity of having a Mackintosh, but only a few know much about the quality of such a garment, except as represented by the appearance and the price.
