Father L. P. Desmarais, of Jacksonville held his usual service in the Catholic church in this city last Sunday.

George W. Wimer and wife and A. J. Wimer and wife of Waldo were registered at Hotel Josephine last Sunday. The parties came down from Ashland on the evening train, where they had been to attend the funeral of William Jourdan Wimer who prior to his sickness and death was attending the Ashland Normal School.

William Bybee of Jacksonville, was down the first of the week and went to his mine down Rogue river. Mr. Bybee says that he had to discontinue work on account of the shortage of water caused by the cold weather, but he intends to start up again just as soon as the weather moderates and there is plenty of water, which is liable to be any day.

J. T. Gilmore of Kerby was in the Pass Tuesday and reports mining at his mine on Indian creek practically stopped because of the cold spell. Mr. Gilmore informs us that the snow on Indian creek and on the surrounding high mountains especially, is very deep, on the mountains it is about nine feet and well packed down. The prospects for an abundant supply of water in the spring from melted snow for the miners have not been better for years. Just at this time the miners are compelled to cease operations in a measure because of the cold snap but it will not last long and soon they will be able to run again in full blast.

Portland reported a heavy snow fall Tuesday morning.

Our neighbors up the Valley suffered from the cold to within a close range of zero last week.

School was dismissed last Monday forenoon because the rooms were too cold in which to hold school. It must cost at least \$25 per day to keep the school running. It is reported that the fire was not made Monday morning until 7 o'clock. Some body is responsible for this condition of affairs and we are quite sure that the teachers are not, then who is? The janitor says if his work is not satisfactory he is willing to quit at any time.

The Bethany C. E. Society held a very pleasant and profitable meeting Tuesday evening at the residence of Mrs. McLean. About 30 members and friends were present. At the close of the business meeting, the following games were entered into with spirit: "Who knows that nose?" "Mother Goose Rhymes" and "Jenkins Up". Through the kindness and forethought of Mrs. McLean a pleasant surprise (of which the guests got at least an inkling) awaited all, and the evening was closed with a bountiful supply of popcorn.

It Looks Bad.

Two young men, whose names we will not mention this time (but look out for the next), filled up on bad whiskey and took with them a supply of well filled bottles, left town Monday evening about 8 o'clock and when they had crossed Gilbert creek bridge on their way home they fired off a gun or a pistol and when opposite Mr. Baber's place they did the same thing four or five times more and the same time yelling as drunken men often do. We have been reliably informed who these young men are but refrain from giving their names in hopes that this gentle reminder will be a hint to them to cease such practices. How any young man who thinks anything of himself can afford to make a fool of himself in such a manner is too much for us to answer. Young men you cannot afford to sow wild oats any time in your lives, for the more you sow, the greater the harvest of like kind must you reap, and be happy.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.
