Oregon Midland.
Information promises that work will be commenced on the grade and laying of the track of the Oregon Midland Railway in the very early future. A contract for building 72 miles of the road has been let to Messrs. Dunbar and Cousins, the well known contractors of Chicago, who are arranging to begin the work. The route of this line will be from Klamath Falls to a point on the S. P. Co's. railroad on the north side of the Klamath river between Klamath and Hornbrook. It is reported that it will strike the S. P. at a point where that company now owns 80 acres of land and where the Oregon Midland has secured 80 acres for townsite purposes. The route of the proposed railroad as surveyed under the direction of Engineer J. A. McCall of this city is a very feasible one, the heaviest grade being a 2 1/2 per cent one, while the greater portion of it will be much under a 2 per cent grade. No tunnels will be necessary and there will be but few sharp curves. It is reported and understood that a prominent Philadelphia capitalist is financing the construction of the Oregon Midland.—Tidings.

Life and Strength Restored to Palsied Limbs

Mrs. H. T. Salisbury, of 11 Pollett Street, Pawtucket, R. I., says:
"About eight years ago, I was taken with nervous prostration which was followed by a partial paralysis of the lower limbs. The doctor called it locomotor ataxia. I could not direct my steps, and I would often fall down. I tried many remedies but was not benefited until I began taking Dr. Williams' Pink Pills for Pale People.
Several doctors had told me that there was no cure for my trouble, but my improvement continued and I took the pills steadily for two years. At the end of that time I had regained full control of my limbs. The pain left me and has never returned."
Mrs. H. T. SALISBURY, Subscribed and sworn to before me this 21st day of August, 1899.
CARLOS L. ROGERS, Notary Public.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dan, vertigo, neuralgia, rheumatism, nervous headache, the after-effects of a gripe, palpitation of the heart, pale and sallow complexion, all forms of weakness in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages of 100 pills, or direct from the Dr. Williams' Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$2.50.

Special Election.

The city council met in adjourned session on Monday evening, Councilman Tom Smith, Metrew and Rummage being absent. The meeting was adjourned till Tuesday evening as a full attendance was desired. On Tuesday evening the council convened, all the members being present. As the purpose of the meeting was to provide for an election to decide whether or not to vote bonds for sewer, water and light purposes, an ordinance had been prepared and was read by the recorder. The ordinance segregates the proposed bond issue into two parts, leaving two distinct issues to be decided at the election. The first proposition is to vote bonds to an amount not exceeding \$6000, bearing not more than 5 per cent interest, for the completion of the sewer system. The other provides for a bond issue not more than \$69,000, for the construction of a water and light plant. The ordinance provides also for the form of the ballots, in which the two propositions shall be separately stated. April 2, was fixed as the date of the election. The ordinance was unanimously passed. The following judges and clerks were appointed for the four wards: First ward; judges, Ellis Royal, Chas. Edger-ton, Theo. Mott; clerks, Geo. Slover; J. B. Paddock. Second ward; judges, J. K. Piquoy, N. B. Meade, C. E. Har-moon; clerks, W. H. Merritt, F. L. Cor-on. Third ward; judges, Frank Groves, H. Thornton, J. A. Rakkoff; clerks, Mr. Kenmont, Mr. Challen. Fourth ward; judges, J. K. Jennings, A. Har-lett, N. Fees; clerks, John Barker, J. H. Ahlf.

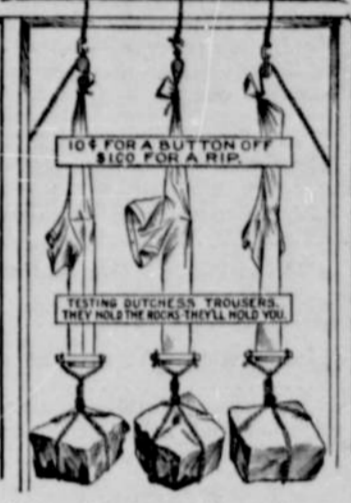

Crater Lake.

Crater Lake and its environment in Southeastern Oregon present ideal features for a National park. The conception of Milton that Earth hath this variety from heaven Of pleasure situate in hill and dale, makes heaven a glorious creation of imagination based on fact, when contemplated from the infinite grandeur of the scenery of which Crater Lake is the wonderful setting. There are many reasons urged in favor of making a National park of this area, and, as the most substantial of all reasons—that of the possibility or the future settlement of this region by homeseekers—cannot be urged against the proposal, there seems to be no good reason why congress should not consider the matter favorably.—Oregonian.

Free to Inventors.
The experience of C. A. Snow & Co. in obtaining more than 20,000 patents for inventors has enabled them to helpfully answer many questions relating to the protection of intellectual property.
