WALK-OVER SHOES

NAME
Walk-Overs need no introduction to the general public, as they are known as the best at the price in the country.

MATERIAL
All the materials used in this celebrated line are the best obtainable at any price.

WORKMANSHIP
Walk-Overs are made by the best of skilled workmen, and are model products of an up-to-date factory.

LASTS AND PATTERNS
They are made on lasts which fit the feet, and cut by patterns that fit the lasts.

RESULTS
By a combination of the essentials — BEAUTY, EASE and WEAR — a most desirable result is obtained. This combination is found to a greater extent in Walk-Overs than in any other line.

WORTH
More Waxed shoes are made by the Walk-Over makers, (GEO. E. KEITH COMPANY), than any other concern in the world. Thus, purchasers of Walk-Overs get the result of the greatest experience, combined with the best and largest facilities.

PRICE
All Walk-Overs made from American stock are sold for \$3.50. In order to maintain the present high standard on our imported Heyl's Patent Calf and Sauer's Enamel they must be sold for \$4.

ORDERS
In ordering by mail or express, state STYLE, SIZE and WIDTH plainly, giving name and address. Add 25 cents to the catalogue price, for transportation charges.

E. B. Brown cut his left hand quite severely at the S. P. D. & L. factory on Saturday, while engaged in running a rip saw. His thumb was sawed lengthwise almost to the first joint and two fingers of the hand were also injured.

The band rendered their last open air concert for the season last Friday evening. Their program was extremely well rendered and enjoyable though on account of the chilliness of the evening a smaller crowd of listeners than usual was present.

The ladies of Azalea circle, No. 182, Women of Woodcraft, will give a chicken pie supper at the I. O. O. F. hall, on Wednesday, Sept. 26. Good music and a splendid entertainment free. Supper 25 cents, commencing at 5 o'clock. Everybody invited.

South-bound train No. 15 was wrecked four miles south of here, at Green's Station, Thursday morning at 5:30. The driver axle of the engine broke and the engine, mail express and baggage cars were thrown in the ditch. No one was injured. The track was torn up for about 100 yards.

F. L. Coron is experiencing a rushing trade in home made heaters. The stoves he puts up are very neat and handsome in appearance and are also made with a view to strength and durability. They are fitted with double bottoms, with the legs strapped and bolted, steel lining, backed with asbestos paper, and the tops reinforced to prevent any possible sagging. Taken altogether, they are a fine product, combining cheapness and excellence.

On Saturday, the Corner saloon was the scene of a very exciting pugilistic event. Hostilities were inaugurated by uncomplimentary epithets applied by Harry Chase to Mr. Mo. who resented them forcibly. One Adolph St. Clair then entered the conflict on behalf of Chase and delivered a black eye to Moss. The latter then directed his attention to St. Clair and a most vigorous combat followed. Moss finally predominated. The three contestants were arrested and fined \$10 each.

Last Wednesday evening, Grants Pass was visited by one of the most severe electric storms this locality has known for years. The thunder rattled with more vim than we are accustomed to and the zodiacal splendor of the lightning was far beyond what we have a right to expect. The storm played havoc with the electric lights and left the town in darkness. The lightning struck a tree in N. P. Dodge's yard near his home. While the electrical demonstration was on a large scale for this locality, it would still have been a very tame affair in the east where they have thunder storms more worthy of the name.

Return Ball Game.
On Tuesday, September 25, the grand return match, Business vs. Professional men of Grants Pass will be contested at the ball grounds. Since the former suffered defeat at the hands of their adversaries they have been thirsting for the figurative gore of the Professionals. They believed in their hearts that if the thing could be done over again, Business would win. They are therefore preparing to make a desperate onslaught on the enemy. The Professionals for their part are preparing for the most stubborn resistance and intend to retain the championship if earnest effort may accomplish that result. The game will be played with desperate earnestness and vigor and will be the spectacular event of the season. The business houses are to be notified to close and every one is to be present. The proceeds of the game will be for the benefit of the reading room. The object is worthy and entertainment will be pleasantly combined with beneficial motive.

Ready for Business.
I have opened an office in the opera house block, over the postoffice, in Grants Pass, and will engage in Mining, Brokerage, Real Estate, Insurance and Collection business. I shall be pleased to consult with persons having mining properties, who may wish either to sell them or place on the stock market. I am also ready to handle Real Estate, including improved and unimproved property. If you want Fire Insurance let me write you a policy and do it so that in case of loss you get your money. If you have accounts or notes to collect, houses or farms you want rented, bring them to me. E. C. PENTLAND.

Woodmen's Entertainment.
The Woodmen of the World will give two evening's entertainment this week, on Thursday and Friday evenings, at the I. O. O. F. hall.

Fatal Railroad Accident.
A fatal accident occurred Sunday evening at Wolf Creek. Ernest Garland, a young man whose home was in Chesterfield, England, was beating his way south and was riding on a flat car. As the train reached the water tank at Wolf Creek, the young man either jumped or fell off, falling under the wheels which passed over both legs. One of the brakemen heard him cry out and signalled to stop the train. He was cared for by the train crew and brought to Grants Pass. Amputation was found necessary, and the young man was unable to survive the operation. He is thought to have been of good family, and was about 19 years old.

Dining Notes.

A. M. McDonald, a mining man, of San Francisco, has been examining Southern Oregon mining properties for Ballard & Martin.

H. E. Ankeny returned last week to the Sterling mine to begin the preparatory work necessary to put the mine in readiness for the coming season.

Booth & Wilhelm are engaged in opening up their newly discovered copper property on Pickett creek. About 13 claims have been located in this belt. The ore gives good assays in both gold and copper.

William T. Cope has bonded the Golconda mine on Williams creek for \$12,000. This mine has recently given promising results in development work, and samples of the rock have assayed \$50 to the ton.

The Old Channel company during the coming season, will be among the most extensive hydraulic operators in the state. They are making large improvements on the A. & B. property at Galice, lately purchased by them and will operate four giants there during the coming season. At the Old Channel mine on Six Mile, they will run three giants.

F. V. Metz, G. W. Thomas and W. S. Towne arrived last week from Florence, Colo., and will resume the work in which Mr. Metz was formerly engaged, that of opening the Silver creek basin. If this enterprise succeeds, as there is good reason to believe it will, a large property will be opened, and give opportunity for extensive hydraulic operations. Silver creek gold is coarse and of high grade.

The Hammetts mining property, known as the Daisy mine, has been bonded to Henry Phillips, of the Preston Peak copper mines. A force of men has been sent to pump out the water, and active work will commence at once. This mine is acknowledged to be one of the best quartz properties in Southern Oregon, but litigation has interfered with its operation. The mine is located on Evans creek, about 20 miles from Grants Pass.

D. L. Browning, of the Yellow Horn mine, near Placer, visited Grants Pass last week. The owners of this mine are preparing to put up a quartz mill on their property and expect to have it operating in about a month. They have been doing a large amount of development work recently and are more than satisfied with the appearance and prospects, both for excellence of ore and extent of deposit. The vein varies in width from one to four feet and carries high values. A large amount of ore is now on the dump awaiting the completion of the mill.

Quartz Mill.
The building is now under course of construction for Wright & Son's new quartz mill. The site is on the east side of Gilbert creek near the railroad, under the black oak trees, a situation both convenient and picturesque. The mill will be fitted with three 850 pound stamps. The machinery has been secured and the mill will be ready for operation in a very short time.

This mill is an enterprise which has been greatly needed in Grants Pass for some time, and will be a most substantial aid in the development of the many quartz ledges in this district.

May Queen.
The May Queen mine situated on Greens creek, near Grants Pass, has had a run of popularity on the Oregon Mining Stock exchange seldom surpassed by any property. Saturday's Telegram says:

May Queen stock came to the front again this morning, and 24,500 shares were disposed of. There was a heavy demand for May Queen stocks and calls were frequent. Prices ran from 2 1/2 to 2 5/8.

The next heavy seller was Helena, 11,500 shares being disposed of. Top prices for Helena was 3 1/2%. The total sales today amounted to 79,250 shares.

Three Months' Record.
The Oregon Mining Stock Exchange, of Portland, has now been in successful operation three months. The Exchange has missed but two days of open call since its first call, the Fourth of July and Labor day.

All the bills of the Exchange have been paid when or before they became due, and the directors have been able to maintain the Exchange without charging the brokers any dues, so far, and Secretary Hard has endeavored to make it as easy as possible for them.

To reduce the expenses of the Exchange the directors have requested Secretary Hard to act as caller, which additional duty he performed yesterday for the first time. The secretary is in receipt of most encouraging and flattering letters from the various mining districts of the state, and they bespeak for the Oregon Mining Stock Exchange greater prominence than the unlooked-for prominence it has now attained.

Beware of Ointments for Catarrh that Contain Mercury.
As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sale of Exchange.
