The Rights of Woman. The rights of woman, what are they The right to labor, love and pray-The right to weep with those that weep The right to wake when other's sleep.

The right to dry the falling tear. The right to quell the rising lear, The right to smooth the brow of care And whisper comfers in deepair.

The right to watch the parting breath. To sooth and cheer the bed of death: The right, when earthly hopes all fail In simple faith to Him who died-With earnest love and gentle praise To bless and cheer their youthful days Teach it to rise above earth's toys

And wing its flight to heavenly joys, The right to live for those we love, The right to die that love to prove; The right to brighten earthly homes With pleasant smiles and gentle tones. Are these thy rights? then use them well, Thy silent influence none can tell, If these are thing, why ask for more? Thou hast enough to answer for, Are these thy rights? then murmur not, That woman's mission is thy lot;

-James Bartlett Wiggin. Cost of Liquor Business.

Upon authority it is learned that while \$83,000,000 is annually spent to educate our young people and children, \$1,200,000,000 goes out for intoxicating liquore, Nearly fifteen times as mu money spent to rain people as to build them up! Such retro would not seem to indicate a very speedy trip to the millennium. The Chicago Tribune is authority for the statemen that the saloon was responsible for 53-436 murders between 1886 and 1898. Taking some figures of Dr. N. D. Hillie. who is so well known in Chicago and New York, we find there are over 2,000-000 moderate drinkers and 700,000 drunkards in this country alone. He claims the economic less to the country through these 700,000 drunkards is \$7, 000,000,000, eight times the amount of the total banking capital of the country. To this he adds: "When will voters and home-makers learn that there is no question before the American people transcending in importance the one involving the eradication of the monstrons folly of the intemperance-and that, too not merely from, a moral but from an economic point of view?-C.
