A slight scandal got a start in some of the lodge circles recently, insinuating shortages on the part of one of the officers. The officer in question, Mr. E. B. Brown, after showing a clean record, justly criticized the spirit that would allow such unfounded rumor to gain toleration in a fraternal order.

Two Chinamen were arrested Tuesday night for running an opium joint, a white woman having been discovered smoking opium in the rear of the laundry. They were arrested and taken before Recorder Judson, but on the discovery that no city ordinance covered the ground, the case was transferred to Justice Holman's court where the trial was held this (Wednesday) afternoon.

The Choral union, at a short business meeting Monday having tendered a unanimous vote of thanks to Mr. H. C. Kinney and Miss Belle Robinson for their zealous and faithful work in behalf of the cantata. It is on these two members, as director and accompanist that the larger portion of the work has fallen, and the chorus is glad of an opportunity to express in some measure the appreciation which they feel.

Quite a sensational little accident occurred Tuesday at Wolke's hardware store. W. F. Bedell was fitting some cartridges in a 45-70 rifle and one became jammed and was exploded. The powder and shell, blowing backwards, inflicted serious injuries to the face of Mr. Bedell and it is feared that he may lose the sight of one of his eyes. A young man, said to hail from Crescent City, inhaled far too much liquor Monday night and created a mild sensation Tuesday morning by stretching lifelessly on the sidewalk in front of the City meat market. He lay there, limp and corpse like, till the marshal borrowed a hand-wagon and carted him to the city jail.

A very pleasant surprise party occurred at Rev. Chas. Booth's residence on Thanksgiving night. The event was arranged by Miss Alice Booth and Miss Howitt. Music, light refreshments and conversation were entertaining features of the occasion. The guests present were Mr. and Mrs. R. W. Clark, Mrs. Mitchell, Mrs. Smith, Misses Brower, Wade, Tuffe and DeLamater, and Messrs. Smith, Stewart, Holman and Smith.

E. Edelhoff, manager of the Ashland Grocery company, has caused a mild sensation in that city by "skipping the town" and leaving his family and business associates without visible means of support. An assignment has been made as the result of his flight. He was a member of several fraternal organizations who are doing what they can to relieve the immediate wants of the family.

Miss Astella Goodin retained a number of friends at the Dodge residence on Thanksgiving eve, and a very pleasant evening was spent, with music and other entertainment. An affair that threatened somewhat seriously for one of the participants occurred early Thanksgiving morning at the Oregon saloon. Elmer McC Gregor and Joe Green were considerably under the influence of liquor and engaged in a quarrel. McC Gregor drew a razor and in the fray cut himself instead of his adversary with the weapon, inflicting a cut on his throat and jaw that took 15 stitches to repair and bled persistently for a number of hours.

Dr. Holt, synodical missionary of the Presbyterian church in Oregon will deliver a lecture on Friday evening at that church. His subject will be "China in the Light of the Present Crisis." The subject is one of universal interest and Dr. Holt is a man who is prepared to give us solid information and food for thought on this subject. When we remember the amount of space that this very subject has been occupying in the daily papers for months past we will more fully realize the advantage of listening to one who can talk understandingly on the subject.

The Cantata. A well filled house attended the first production of the cantata, "David" at the opera house Tuesday evening. The performance went very smoothly and the audience manifested their approval by frequent applause. The duet by David and Jonathan was an especial favorite and received a most emphatic encore. The various parts were admirably handled, and the perfect union of the chorus was a matter of comment. The costumes were vivid and picturesque and gave an added liveliness to the production. This evening, (Wednesday) the second rendition will be given and those who were unable to attend the first one, should not neglect the opportunity to see and hear this grand musical production. At the close of Tuesday evening's program the chorus presented Mr. Kinney with a handsome picture representing David as shepherd and Miss Robinson was also made the recipient of a token of the appreciation and regard of the Choral Union.

He was dragged for more than a mile and his body was torn to pieces and scattered along the track. His brother, who failed to get on the train, followed after on foot. He found successively articles of clothing, then portions of the body and then the trunk. The brothers were from Auburn, Wash.

About one hundred others were more or less injured. The scene with the burned and maimed victims was appalling.

Another Wreck. Another very serious head end collision is reported at Suisun, Calif., Tuesday night, one of the trains being No. 15, the regular southbound overland. A number of fatalities are reported but as yet only meagre details are obtainable. The north bound train, No. 12 derailed at 4:40 Wednesday morning was delayed four hours by the accident. It also ran into a handcar near Gold Hill, the crew of which narrowly escaped a catastrophe.

Quartz Mill in Action. Wright's new quartz mill is running at a lively rate and the rattle and jar of its three stamps gives a welcome sound to those who are interested in the development of the mining industry of Southern Oregon. The machinery runs smoothly and perfectly and the stamps drop with a vim and emphasis that leaves no doubt of their efficacy as ore pulverizers. Probably the most interesting machine in the establishment is the concentrator which is a real curiosity to those who are unaccustomed to the ways of ore extractors. It has the appearance of a gigantic belt about four or five feet wide. It is set on a decided grade and revolves up stream with a peculiarly jerky and oscillating motion that keeps the pulp and sand well shaken up and prevents its pucking together or "baking." A slight stream of water flows down the incline carrying away the lighter particles, while the heavier matter, more resistant to the action of the water, goes upward with the belt. The success of its operation depends greatly on its balance or adjustment in regard to the flow of water and the movement of the belt.
