**PACIFIC PINE NEEDLE CO.**  
Soon to Resume Operations. Mr. Cordis Writes of the Company's Success in San Francisco.  
SAN FRANCISCO, Cal., Mar. 17th, 1901.  
EDITOR COURIER—Though our stay here has been longer than we anticipated, we are glad to say that we shall be home once more at the beginning of next week. A great deal has been accomplished while in San Francisco. We have rented a large store in the very best location and fixed it up in such a way that we can produce from every one who visits us. It is pronounced the most tastefully arranged store in San Francisco and that by people who are connoisseurs in such things. Well, we have spared neither money nor labor in attaining this end and are already reaping the benefits. I wish you could see our display and witness the throng of people, coming to look at our products and purchasing often the whole supply of the day. The best sign that we meet a public want is that people who once have bought our fiber, cigars, soap and candy return for more, after they have used it. In a very short time we shall have our own essences, perfumery and various other articles on the market, for which even now there is an urgent demand. Our store here is in charge of a gentleman who has made a reputation in successfully introducing a new industry. In May he goes to Buffalo and the east to establish agencies for the sale of our goods. You may see there for the extent of the rich ore is not determined, all appearances indicate that this is one of the very best strikes ever made in this country. Josephine creek is the scene of the first gold discovery in this county and has always been a productive stream. It is about 30 miles distant from Grants Pass.  
The S. P. railroad company has installed uniformed passenger attendants at their San Francisco depot; at Oakland Pier, at the foot of Market street and at Third and Townsend streets. They will wear dark blue suits and bright red caps with a broad black band bearing in gold letters the words, "S. P. Co. Porter," so that they may be readily distinguished. Their duties will be to assist passengers in every way possible, directing them to proper trains, boat entrances, etc., helping ladies and children without resort on and off trains, and showing such attention to the traveling public as will tend to make them a popular feature of the service.  
Galicia News.  
From the reported depth of snow in the mountains there will have plenty of water for some time to come.  
The prospects for a salmon at Galicia are good though not encouraging or elevating to the morals of the camp.  
Some 15 ladies, married and single, grace our camp with their presence and add color and enchantment to the scenery.  
Gora Mattison, manager of the Big Yank enterprise, is in Portland conferring with the company on the question of machinery and facilities for operating the mine.  
Fred Spangler has returned after two years absence. He has been around Oregon a good deal but prefers the climate and prospects of Galicia to any place he has visited.  
J. E. Loomis has full swing again and

**Mining Notes.**  
J. D. Cook, a prominent mine owner of Jackson county, visited Grants Pass Saturday.  
George St. John, of the Rising Star mine in the Williams district, visited Grants Pass Saturday.  
C. M. Casad has removed to Holland where he will engage in mining having recently located a quartz property on French gulch.  
Messrs. Graham & Summers have made a rich strike on the Blackwell hill near Gold Hill, the pay chute is three feet wide and the ore is full of gold.  
It is rumored that Jimmie Adams, formerly a resident of Waido and well known here, has been offered a million dollars for his mine in the Aerie region.  
J. B. Hanson and A. E. Brown, of Wolf Creek visited Grants Pass last week. Mr. Brown is developing a quartz property of fine promise on the head of Wolf Creek.  
Capt. M. F. Reelstone, of Ashland, has been appointed by the mining commission of the Pan-American exposition to gather ore specimens from Southern Oregon counties for exhibit at Buffalo.  
C. F. Young has bought a one-half interest in the Bertia mine on Foothills Creek. This mine produced altogether \$24,000 while owned by Messrs. Orme, Shieffelin and Meier. At present C. F. Young and C. Meier own the property.  
Gold Hill News.  
H. A. Reed has a force of men working night and day on the Klondike mine on Louse creek and now has a remarkable show of ore, no less than a 10 foot body of \$29 rock. He is having a mill test made at Gold Hill this week and next week a run will be made at Wright's quartz mill in this city.  
Arthur Howland, superintendent of the Davis hydraulic plant on upper Jump-off Joe, spent Saturday in Grants Pass. At that time there was still a foot of snow at the mine. The prospects are running steadily with fine prospects for abundant results in the cleanup.  
The rich strike made by George Burr and Tom Johnson on Josephine creek near Kerby has assumed a grander proportion. The ledge is found to be seven or eight feet in width and has been traced a hundred feet each way from the point of discovery. Much of the rock is of almost incredible richness. The gold runs through it in sheets and wires. Ten dollars to the pound was the result from a fair sample of the richer rock. Somewhere near \$10,000 has already been taken out and there are thousands more in sight. While the extent of the rich ore is not determined, all appearances indicate that this is one of the very best strikes ever made in this country. Josephine creek is the scene of the first gold discovery in this county and has always been a productive stream. It is about 30 miles distant from Grants Pass.  
The S. P. railroad company has installed uniformed passenger attendants at their San Francisco depot; at Oakland Pier, at the foot of Market street and at Third and Townsend streets. They will wear dark blue suits and bright red caps with a broad black band bearing in gold letters the words, "S. P. Co. Porter," so that they may be readily distinguished. Their duties will be to assist passengers in every way possible, directing them to proper trains, boat entrances, etc., helping ladies and children without resort on and off trains, and showing such attention to the traveling public as will tend to make them a popular feature of the service.  
Galicia News.  
From the reported depth of snow in the mountains there will have plenty of water for some time to come.  
The prospects for a salmon at Galicia are good though not encouraging or elevating to the morals of the camp.  
Some 15 ladies, married and single, grace our camp with their presence and add color and enchantment to the scenery.  
Gora Mattison, manager of the Big Yank enterprise, is in Portland conferring with the company on the question of machinery and facilities for operating the mine.  
Fred Spangler has returned after two years absence. He has been around Oregon a good deal but prefers the climate and prospects of Galicia to any place he has visited.  
J. E. Loomis has full swing again and

**no competition in the mercantile business, he having bought out the opposition store.** From the experience ten years' association with the mines and mines of this vicinity gives, Mr. Loomis continues to flourish where others would fail. Still there is a good opening for another store combined with hotel and stable accommodations.  
Galicia is interesting a good deal of capital in her properties and during the coming spring and summer a number of mines will change hands and receive new life. B. I.  
**Hugo Items.**  
Mr. Heffing's mill is progressing fast. Literary Society Saturday night as usual.  
Our Assessor, Mr. Chas. Crow was on our streets Monday.  
Judge Crockett has returned from a short visit to Ashland.  
Mrs. Ethel Haven went to Grants Pass from Hugo Monday.  
Quite a number are ill in our community, but none seriously.  
Our entertainment Saturday evening March 16, was a grand success, socially and financially in spite of all the opposition. But opposition is the life of trade, especially when it comes from those who have no respect for the truth. When you are told that an entertainment at Hugo is postponed, after this make it a point to come and see. I wish to thank the Grants Pass, Merin and Grave Creek people for their assistance in the program, and for baskets. They are the most respectable crowd of people I have had the pleasure of meeting for quite a while. We will be more than pleased to have them all attend our ball, March 29, at the same school house, all bring their supper and pay \$50. a number.  
**Review of Burpee's Annual**  
(Written for prize contest of W. A. Burpee & Co.)  
GRANTS PASS, O. C., Mar. 19, 1901.  
MY DEAR FRIEND: Being much interested in the Quarter Century edition of Burpee's Farm Annual for 1901, I am going to write you about it so you can send for one if you haven't already received a copy.  
The front cover is lithographed in ten colors and gold. On the left hand side are the figures 1876, showing the year in which the enterprise was begun, and on the other side 1901, the present year. The center shows  
A beautiful girl with winning face. The personification of neatness and grace it seems to me as the picture I view. I'm sure you will find it attractive too. And in red letters just below.  
You'll find the words "Burpee's seeds grow."  
Then kindly messages he sends To all his customers and friends.  
Following his greetings are a number of pictures giving an idea of the work done in the various offices, views of trial grounds, and an outline of the quarter century's advancement in Vegetable Seeds.  
You are so fond of flowers you ought to get some of the seed of Cupid Sweet Pea. That plant on page nine is such a beauty. There is an outline of the quarter-century's advancement in Flower Seeds and appropriate pictures are given.  
Burpee issues an immense number of catalogues, leaflets containing valuable information, etc. all sent free to customers.  
The products of his seeds have won numerous premiums at state fairs.  
And now I hope that I may sample Next summer from our garden's store A union like that fine example.  
And many, very many, more.  
For we've some of the seed you know. And Burpee's seeds are sure to grow. Large cash prizes here are offered. On cabbage, bean, potato, too. And they are all as fast as a train.  
"New vegetables, tried and true."  
Among the novelties for 1901 are varieties of corn, lettuce, tomatoes and other fine vegetables.  
If you send a dollar or more for seeds in packets and ounces you are sure of a liberal discount. This mail order business is a fine thing. Your order receives prompt attention and you are certain of being fairly dealt with as if you went in person.  
Burpee's trade mark accompanies description of all seeds originated by him, and the bull's eye shows the best variety to plant.  
I would like to tell you how all the fine illustrations strike me but haven't time.  
That colored picture of the Quarter Century Tomato is natural. We raised one last year and they were excellent. He also raises farm seeds and you may depend upon it they are of the best quality.  
There's a fine new nasturtium The Caprice is its name. 'Tis pictured from nature You'll surely not blame. Major saying of all The nasturtium that grow The Caprice is ahead And the seed I will sow.  
As you proceed in examining this book you will be surprised at the many varieties of fine flowers illustrated. I've seen many dozens of beautiful form And colors as bright as the blush of the dawn. The "Magnificent," "Harlequin" and "Salmon Queen" Are the finest I think that I ever have seen.  
Burpee's seeds are tested, warranted, and sure to grow if properly cared for. "Large crops from little acorns grow." "Great streams from little fountains flow."  
are quotations fairly illustrating the growth of the seed-business in his hands as shown by the picture on the back of the book.  
Sincerely Yours,  
LOUISE W. HOON.

**The Latest Game Law.**  
House Bill No. 110, the new game law, passed both houses. Under its provisions the sum of \$2,000 is allowed for deputy game and forest wardens and the salary of the game warden is the same as formerly, \$1,200. Following are a few of the provisions of the law applicable to this section of the state:  
"It shall be unlawful at any time between the 1st day of November of each year and the 15th day of July of the following year to hunt, pursue, take, kill, injure or destroy or have in possession, or to sell, or offer for sale, barter or exchange, any deer, moose or mountain sheep, or any animal in possession of such animal is used or preserved for food; and it shall be unlawful at any time to hunt or pursue any deer or moose with dog or dogs, with intent to kill or injure such deer or moose."  
For female deer the season opens August 15th and closes November 11th. These provisions do not apply to five European Oregon counties. There is an open season is two weeks—October 1 to October 15th.  
"It shall be unlawful to hunt, pursue, take, kill, injure or destroy, or have in possession, or to sell, or offer for sale, barter or exchange, any elk at any time between the date of the passage of this act and the 1st day of February, 1904."  
There shall be an open season of one month, from September 15 to October 15. There is to be no sale of elk meat.  
It shall be unlawful at any time to hunt, pursue, take, kill, injure or destroy, or have in possession, or to sell, or offer for sale, barter or exchange, any spotted fawn for the purpose of obtaining the skin, hide, horns, hams or other flesh of such animal, for the purpose of barter, exchange or trade; and it shall be unlawful at any time for any person, company, firm or corporation to buy, offer to buy, or to transport or carry for purposes of trade, sale, barter or exchange the skin, hide, horns, hams or other flesh of any spotted fawn, moose, mountain sheep or deer.  
Any one who lawfully kills a deer or elk may sell the hide or tagging it with tags obtained from the state game warden, through a justice of the peace. Except as provided in certain sections, it shall be unlawful at any time between the 1st day of December of each year and the 15th day of September of the following year, to hunt, pursue, take, kill, injure, destroy or have in possession, or to sell, or offer for sale, barter, exchange or trade; and it shall be unlawful at any time for any person, company, firm or corporation to buy, offer to buy, or to transport or carry for purposes of trade, sale, barter or exchange any prairie chicken, grouse, native pheasant (sometimes called ruffed grouse), ringneck quail, bobwhite quail, or partridge; and it shall be unlawful, within the state of Oregon, for any person to kill, capture or destroy any grouse or quail, or any other game bird enumerated in this section in one day. There is a new provision requiring all hunters who are non-residents of the state to take out a license to hunt. They shall pay \$10 a year. There are some differences made as to the close season in Lake, Klamath and Harney counties. Trout, except salmon trout, are protected from November to March, in which time it is prohibited to capture or kill in this section in one day. 125 trout in one day. The season for brook trout, Loch Leven trout and grayling is closed until 1904. There are certain sections prohibiting the use of powder.  
**Weather Report.**  
Following is a summary weather observation at Grants Pass during the month of February, 1901, as reported by J. B. Paddock, local voluntary observer for the Oregon State Weather Service.

**Spring and Summer Dress Goods....**  
We have a complete line in all the latest styles.  
We invite you to come and see what we have. No trouble to show goods.

**E. C. Dixon**  
Michigan paper, reprinted from a Pennsylvania paper, containing an extended notice of the Pacific Pine Needle Co., of Grants Pass, describing the many various products of the pine. This is only one instance of the results of a series of letters and circulars distributed broadcast by Mr. and Mrs. Cordis while in San Francisco. The amount of advertising they have done for Grants Pass has been a benefit of great value to our city and they are about to resume operations in the factory and have very evident intention to push the enterprise to complete success, they are doubtless entitled to the support, goodwill and co-operation of the Grants Pass people.  
**Oil Stock Booming.**  
The Southern Oregon Oil Co. opened its books for the sale of stock Saturday morning at the office in the Sherwin-Wood building and before night over 5000 shares had been sold. The oil fever is becoming quite general and there is an unquestioned sentiment among our people to assist the company in its efforts to have the oil problem thoroughly tested. The officers of the company have not as yet decided whether to buy drilling or derrick and paraphernalia for drilling or to lease one for the purpose. Some correspondence has been had with a company in Indiana which have been boring for natural gas in that state and are anxious to come to the coast. The result of the matter will depend on the terms the Atlantic company may be able to secure. Active operations in the way of drilling will not be far off in any event.  
—Tidings.

**100 PICTURE DESIGNS 5c**  
**PAAS CALICO and PICTURE PAPERS for EASTER EGGS.**  
Simple, Cleanly, Easily Applied. No stained fingers, and no dirt and mess to clean up after using.  
**Slover Drug Co.**

Front St., Opposite Depot.

**WOODSMEN**  
Know that in spite of hard work in the clear forest, the blood often becomes impure. The heavy food served in the lumber camps is to a great extent responsible for this condition of the blood, which renders the body an easy prey to many forms of disease.  
There is no better blood purifier than Dr. Pierce's Golden Medical Discovery. It cures eruptions, pimples, eczema, scurvy, rheumatism, and all other ailments caused by impure condition of the blood. It cures absolutely and altogether by cleansing the blood from the poisons which breed and feed disease.  
Accept no substitute for the "Discovery." There is no other medicine "just as good" for the blood.  
"I will never thank you enough for the Discovery you sent me to take Dr. Pierce's Golden Medical Discovery," writes Mrs. James M. Murphy, of Co. Iowa. "I had cured me of chronic eczema twelve years standing. I also had chronic rheumatism for twelve years. I am in good health now—better than I ever was in my life owing to Dr. Pierce's Golden Medical Discovery. The book and several bottles of the 'Discovery' believe I should have."  
Dr. Pierce's Common Sense Medical Adviser, containing 100 pages, and over 700 illustrations, is sent free on receipt of stamps to defray expense of mailing only. Send 10-cent stamp for the book in paper cover, or 50 cents for the book in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Growers and Importers of all kinds of **Grass & Field Seeds**  
We can name seed for evergreen pasture in your section of the country. Why purchase with untried seeds? With fifteen years of personal experience in growing, all kinds of grasses and Pullman, we submit the following list of seeds out of a hundred different kinds of seed:  
Bronx Inermus, Tall Meadow Flax, English Blue Grass, Tall Meadow Oat Grass, Italian Ryegrass, Fine Stalked Blue Grass, English Rye Grass, Orchard Grass.  
Those are Fresh Seeds: We are growers of them and will guarantee results and prices.  
Try our mixed grass seeds for evergreen pasture on dry ground; \$10.00 per hundred, or 25c per pound.  
We are also growers and importers of Clovers, Alfalfa, Peas, Corn, Wheat, Russia Speltz, Millet, and all kinds of Field Seeds.  
For references we cite you to W. J. Spillman, Professor of Agriculture at the Agricultural College at Pullman, Wash., at the Idaho State University, Moscow, Idaho, for prices and further information address,

Accept no substitute for the "Discovery." There is no other medicine "just as good" for the blood.  
"I will never thank you enough for the Discovery you sent me to take Dr. Pierce's Golden Medical Discovery," writes Mrs. James M. Murphy, of Co. Iowa. "I had cured me of chronic eczema twelve years standing. I also had chronic rheumatism for twelve years. I am in good health now—better than I ever was in my life owing to Dr. Pierce's Golden Medical Discovery. The book and several bottles of the 'Discovery' believe I should have."  
Dr. Pierce's Common Sense Medical Adviser, containing 100 pages, and over 700 illustrations, is sent free on receipt of stamps to defray expense of mailing only. Send 10-cent stamp for the book in paper cover, or 50 cents for the book in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

**WOODSMEN**  
Know that in spite of hard work in the clear forest, the blood often becomes impure. The heavy food served in the lumber camps is to a great extent responsible for this condition of the blood, which renders the body an easy prey to many forms of disease.  
There is no better blood purifier than Dr. Pierce's Golden Medical Discovery. It cures eruptions, pimples, eczema, scurvy, rheumatism, and all other ailments caused by impure condition of the blood. It cures absolutely and altogether by cleansing the blood from the poisons which breed and feed disease.
