FRED MENSCH, EDITOR

Entered at the post office at Grants Pass,  
Oregon, as second-class mail matter.

THURSDAY, APRIL 4, 1901.

Aguinaldo took the oath of allegiance  
to the United States on April 2.

Victor Lawson has sold the Chicago  
Record to Kohlhaas of the Times-Herald  
who will combine the papers under the  
name of Record-Herald. Lawson continues  
the publication of the Evening News.

A law passed by the recent legislature  
makes it compulsory for bicycles to be  
provided with bells at all times and with  
lamps at night. The penalty for non-  
observance of this law is a fine from \$5  
to \$10.

Fanton is a former hero, landed in  
days gone by, and is one of a succession  
of his individuals, targets for the expres-  
sion of our patriotic admiration. He is  
the only one of the series who has come  
to the front a second time. He has  
now proven beyond doubt by his second  
appearance, his heroic worth and that  
the former glory accorded him was not  
misplaced. It is to be sincerely hoped  
that he will be able to carry his honors  
with a level head. All heroes should  
take warning from the fate of Hobson,  
whose gallantry is obscured by the  
ridiculous incident in his later exploits.

Aguinaldo, the life of the Filipino  
resistance to American authority was  
captured by strategus on March 23 by  
General Fred Funston with four Ameri-  
can officers, four ex-insurgent officers  
and 78 Macabebes. The party ap-  
proached Aguinaldo under the pretense  
of being a party of Filipino troops with  
American prisoners. The ruse worked  
perfectly and Aguinaldo was captured,  
though with some difficulty. Santiago  
Barcelona, treasurer of the insurgent  
government was captured without resis-  
tance. All of Aguinaldo's correspondence  
was also secured. This is un-  
doubtedly the most important event in  
the history of the war and can not fail  
to exercise an important influence for  
the early cessation of hostilities. Agui-  
naldo had a strong personal following  
and has always been the moving spirit  
in the Tagal uprising, though delt in  
keeping himself out harm's way. What  
to do with him is somewhat of a prob-  
lem, but the weight of opinion seems to  
favor taking him to Guam, as has been  
done with other insurgent leaders. He  
is now at Manila and is being well  
treated, as a matter of course.

**McKinley to be Entertained.**  
The executive committee of the Grants  
Pass Mining and Commercial club met  
on Saturday at the bank parlors to  
make arrangements for the proper  
reception of President McKinley and his  
party who are expected to pass through  
Grants Pass on their western tour about  
the middle of May. Those present were  
Messrs. W. M. Hair, T. P. Cramer, Geo.  
S. Calhoun, H. C. Bobzien, H. C. Kin-  
ney, J. D. Fry, President J. O. Booth  
and Secretary E. C. Pantland. After  
some discussion, it was decided to  
arrange a program for the entertain-  
ment of the presidential party and the  
matter was referred to the entertain-  
ment committee with power to act and  
to arrange details.

The entertainment committee met at  
the Hotel Layton on Saturday afternoon.  
Chairman Arthur Conklin, C. E. Smith,  
L. V. Stewart and Secretary E. C. Pan-  
tland in attendance. It was decided  
before arranging any details to ascertain  
the hour at which the train would prob-  
ably pass through and the number and  
personnel of the company. They also  
decided to estimate the probable cost of  
suggested details of entertainment.

Secretary Pantland has received a  
letter from Geo. B. Cortelyou, secretary  
to the president, in response to a letter  
of inquiry, stating that the president's  
itinerary was not yet fully arranged,  
but giving assurance that the date of  
arrival and the personnel of the com-  
pany would be announced later. The  
sentiment of the committee was that if  
the party came through in the night no  
attempt at a demonstration would be  
advisable but that if the hour of the day  
were favorable, we should endeavor to  
give McKinley and his party a reception  
that will cause them to realize that  
Grants Pass is on the map.

There is nothing more certain than  
that the committee will be given the  
most cordial support of the citizens in  
any program which they may arrange  
and if the circumstances of time and  
weather to their part we will have a  
gay day when McKinley comes.

**Special Election.**  
An adjourned meeting of the city  
council was held on last Wednesday  
evening. The most important action  
taken was the ordering of a special elec-  
tion to be held on Monday, April 22, at  
which the following propositions will be  
presented. Under the new charter, only  
those who pay taxes on \$100 worth of  
property are eligible to vote.

1. To purchase a chemical engine at  
a cost of \$1250 as sole fire protection and  
discipline use of hydrants.  
2. To purchase a chemical engine  
and retain 50 hydrants in the business  
portion at a cost of \$8 per month  
each.

3. To purchase a chemical engine and  
retain 20 hydrants at a cost of \$4.50 per  
month each.  
4. To contract with the water com-  
pany, for 20 or more hydrants at a cost  
not to exceed \$4.50 per month each,  
and not purchase a chemical engine.

When you are bilious, use those  
famous little pills known as DeWitt's  
Little Early Risers to cleanse the liver  
and bowels. They never gripe. Dr.  
W. F. Kremer.

Don't Send Away  
For Them

WE HAVE THE

Julia Marlowe Shoes for Ladies

If you see them you will want them.

RED STAR STORE,  
W. E. DEAN & CO., Prop'r.

Front St. opposite Depot,

**Kerby Breezes.**

Will Mastin, was seen on our streets  
last week.

A magic lantern show in town Tues-  
day night—very good.

There will be Easter services at the  
church in Kerby on the evening of  
Easter Sunday, April 7th.

We are again threatened with rain  
which no doubt would be the means of  
making the miners suffer.

Miss Ella Ryder, formerly of Kerby,  
passed through here on her return to  
Crecent City. Ella has been visiting  
her sister, Mrs. Dick Hays of Fort Jones.

Mr. George Duncan, who has been  
operating the Ray mine, has again  
moved his family to the berg, the mine  
having closed.

Mr. Oscar Naucke arrived in Kerby  
Saturday evening to visit his old home  
and friends. Mr. Naucke has spent  
most of the past three years in Los  
Angeles.

Mr. Will Stout, who was stricken  
down with paralysis is slowly improv-  
ing. Ed Cornelius, has been by his  
bedside constantly. There is no reason  
why Mr. Stout should not be walking  
around soon. Ed always carries sun-  
shine in his face and with all his funny  
jokes it would help anyone to get well.

Mrs. B. Kitterman and sister-in-law  
Mrs. B. Skeeters, came near meeting  
with a watery fate while crossing Sucker  
creek. The logs snatched and the horses  
would have left them in the buggy had  
not Mrs. Skeeters bravely walked out  
on the buggy tongue and fastened them  
again.

**Hugo Items.**

Mrs. Sexton and Charley Sexton are  
very sick with lagrippe.

Mrs. Boyd, Mrs. Annie Chapin's  
mother, died at her residence March 29.  
Mrs. Boyd had been visiting at Mrs.

The music could not be excelled; the  
time was perfect, which is the impor-  
tant thing in dance music. Lunch at 12  
o'clock was served in the school house.  
Everybody has commenced planting  
gardens though the weather remains  
cold and disagreeable. M. H. H.

**Deafness Cannot be Cured.**

By local applications as they cannot  
reach the diseased portion of the ear.  
There is only one way to cure deafness,  
and that is by constitutional remedies.  
Deafness is caused by an inflamed con-  
dition of the Eustachian Tube. When this  
tube is inflamed you have a rumbling  
sound or imperfect hearing, and when  
it is entirely closed, deafness is the  
result, and unless the inflammation can  
be taken out and the tube restored to  
its normal condition, hearing will be  
destroyed forever; nine cases out of  
ten are caused by Catarrh, which is  
nothing but an inflamed condition of the  
mucous surfaces.

We will give One Hundred Dollars for  
any case of Deafness (caused by catarrh)  
that can be cured by Hall's Catarrh  
Cure. Send for circulars, free.

F. J. Cramer & Co., Toledo, O.  
Sold by all Druggists. The  
Hall's Family Pills are the best.

**A Friendly Attack.**

An attack was lately made on C. E.  
Collier of Cherokee, Iowa, that nearly  
proved fatal. It came through his kid-  
neys. His back got so lame he could  
not stoop without great pain, nor sit  
in a chair except propped by cushions. No  
remedy helped him until he tried Elec-  
tric Bitters which effected such a won-  
derful change that he writes he feels like  
a new man. This marvelous medicine  
cures lacerations and kidney trouble,  
purifies the blood and builds up your  
health. Only 50c at Dr. Kremer's Drug  
Store.

Leave orders for granite for sidewalk  
with W. L. Ireland, at Cramer Bros.

SPRING CLOTHING.....

The Greatest Values ever shown in

MEN'S, YOUTH'S and JUVENILE

Clothing

That is Full of Style and Moderate in Price.

You run no risk in buying these suits. We guaran-  
tee every claim we make.

**Our Policy:**

Your Money's Worth or Your Money Back.

The man with moderate means who must figure  
closely on his clothing bill should take the above facts  
into consideration, for he can get a better value.

We also carry a full stock of Furnishings, Hats,  
Shoes, Trunks and Valises.

E. C. Dixon

Chapins, for some time past. The re-  
mains were taken to Woodville, her old  
home.

Mr. G. McCormick had an organ put  
into his house last week.

Section men are putting a diamond  
polish on the Hugo track.

Miss Mable Sanders is quite ill other-  
wise the Tunnel 9 people enjoy good  
health.

Mrs. John Goff sprained her ankle,  
which is very painful and disables her  
from walking.

School opened Monday morning April  
1, with 28 scholars. Miss Lila Mastin,  
presiding as teacher.

Mrs. Tom Haven, cut a wisdom tooth  
last week which made her quite ill and  
she says no wiser than before.

The F. D. & L. mill is running at  
last and is manufacturing beautiful  
lumber from the lofty pines of Hugo.

Literary society every Saturday night.  
Question next Saturday, April 6, is,  
"Resolved that Marriage is a Failure."  
The question, "Resolved that the United  
States should retain the Philippines" was  
won by the affirmative.

The ball at Hugo, March 29 was a  
success. The entertainments were nice  
but none can compare with the dance  
we did not get so much money but en-  
joyment overbalanced that. With the  
exception of strong coffee these was no  
drinking as had been prophesied, con-  
sequently it was an excellent affair. All  
express themselves as well pleased.

Mining Notes.

G. H. McDonald of the Ashland mine  
came down Saturday to visit mining  
properties in this county.

R. E. Rasmussen, who has been engaged  
in mining in the Mt. Reuben district  
for several months past, is visiting  
Grants Pass this week.

J. O. Hayden, a mine owner of the  
Grave creek district, was in town on  
Thursday. He is very probably operat-  
ing an arrastra on his quartz property.

John Lantz, proprietor of the Lewis  
placer on Grave creek, which are among  
the very largest hydraulic operations in  
that part of the state, was in town Fri-  
day.

Mr. and Mrs. Geo. E. Howland spent  
Tuesday in Grants Pass on their way  
from Portland to Jacksonville. Mr.  
Howland is intending to devote his  
attention to his quartz properties near  
Jacksonville.

J. M. Savage, who is employed at the  
Laiding mine, was in town Friday.  
This mine is running steadily eight and  
a half days with a five stamp mill. They  
have reached a depth of over 4000 ft., at  
which depth the property looks better than  
ever.

Last week four tons of ore from the  
Bill Nye mine on Galls creek was  
crushed at (Iron's) at Iron Hill and seven  
pounds of gold resulted. The "Bill  
Nye" is one of the richest mines in this  
section of the country. Only enough  
ore was brought down to make a thor-  
ough test and the result was satisfactory  
to the owners of the property—S. G. D.  
Hill News.

KLONDIKE QUARTZ MINE.

Recently Purchased by D. S. Rao  
of Montana, Seven Miles  
from Grants Pass.

The Klondike quartz mine on Louise  
creek district lately owned and operated  
by H. A. Reed of Grants Pass, was  
purchased last week by D. S. Rao of  
Montana, who is taking the necessary  
steps toward the permanent equip-  
ment and operation of the property. Mr.  
Rao is a thorough miner and the Klondike  
seems certain to be lived among our  
quartz mines in the near future. H.  
A. Reed, who has developed this mine  
and demonstrated its extent and worth,  
is interested in several other valuable  
quartz properties, among these two  
claims on the same vein as the "Bill  
Nye" near Gold Hill.

The Klondike has three tunnels and  
shows an ore body ten feet in width  
between walls. The ore runs from 12  
to 25 by mill tests in quantity. The  
large size of the ore body and its certain  
profitable values make it a property of  
extraordinary desirability.

The mine is situated about seven  
miles almost due north of Grants Pass,  
in the Louise creek district and is  
located on the southwest slope of Elk  
mountain near Morris creek, one of the  
tributaries of Louise creek. It is not by  
any means a new discovery but was  
worked at the surface with an arrastra  
many years ago. Its history is similar  
to that of many of the best of other  
quartz properties in southern Oregon; it  
has been located, abandoned and worked  
in a desultory and primitive manner,  
often with profit, by a succession of  
parties. A rich spot is worked out or  
the ore becomes bare and the mine is  
abandoned. When a man takes hold of  
the property who has faith to put  
systematic and judicious development  
upon it, a mine of value is demonstrated.

In the same mineral district and  
located on the same mountain range  
number of other quartz properties of the  
most promising appearance. One of  
them, owned by Hull, Booth and Man-  
gum, is equipped with a steam mill and  
is notable for the richness of rock that  
has been taken from it. The Sucker  
property, which was profitably operated  
with an arrastra for years is another.  
McFarlane & Co. are quietly developing  
a property about a mile and a half dis-  
tant from the Klondike. They have a  
two foot vein of highly mineralized ore,  
the appearance of which steadily im-  
proves with the depth. There are  
number of others besides these, some  
of them more or less developed, in this  
same district, which seems absolutely  
certain to become one of the best min-  
ing camps in southern Oregon. With  
the exception of the Dry Diggings dis-  
trict, Louise creek is more nearly  
adjacent to Grants Pass than any other,  
its easy accessibility from railroad  
points being an advantageous factor  
in its consideration. Considering its size,  
this creek is one of the best placer  
streams in the country. It has been  
worked for over 40 years and the gravel  
deposits will not be exhausted for many  
years yet to come.

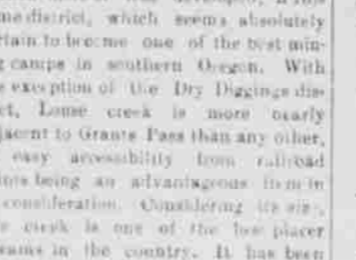

We observe a number of new faces in  
Leland, of people who have stopped  
here looking for new openings. Many  
have come to stay.

The railroad company hired Japs to  
load the wood cars on the Kinney short  
line. They could not load more than a  
half as much as white men. They got  
tired of the work and now they are all  
gone away and there is nobody to load  
the wood. We think if the company  
would pay a fair price they could get  
plenty of men.

We notice an article in the Cotman  
under the heading "Grave Creek Gravels"  
"We think the writer is quite  
foolish, but what looks like impossibility  
that he wrote may come to pass, as our  
town is largely made so rapidly. The  
amount of goods I sell would surprise  
any one not familiar with the volume of  
Laiding business."

Dan Peterson, our general section  
foreman, is going away. He has been  
foreman for a long time. He intends to  
devote his attention to farming and  
stock-raising and will locate in this  
county. Josephine county suits him.  
Robert Crockett takes his place. Robert  
is an old railroad man though young in  
years. Robert is a happy easy,  
steady young man. The company would  
be better off if they had more such men.

We observe a number of new faces in  
Leland, of people who have stopped  
here looking for new openings. Many  
have come to stay.

The man who can hardly crawl and  
has just strength to get through a day's  
work, has no strength left for family  
life. He wants to be quiet; to be alone,  
out of sight and sound of everybody.

What a difference between such a  
man and the healthy, hearty man, who  
romps with his children and rides his  
laughing baby to "Banbury Cross."  
What makes the difference? Usually  
disease of the stomach, involving the  
intestinal and nutritive system.

Dr. Pierce's Golden Medical Discovery  
cures diseases of the stomach and other  
organs of digestion and nutrition. When  
these diseases are cured the hindrance to  
the proper nourishment of the body is  
removed and strength comes back again.

"I am happy to see I am getting to feel free-  
ly again. I had a violent attack of  
constipation. Dr. Pierce's Golden Medical  
Discovery cured me. I feel like a new  
man. I have been suffering from  
constipation for several months. I had  
no strength left for family life. I  
wanted to be quiet, to be alone, out of  
sight and sound of everybody. What a  
difference between such a man and the  
healthy, hearty man, who romps with  
his children and rides his laughing baby  
to "Banbury Cross." What makes the  
difference? Usually disease of the stom-  
ach, involving the intestinal and nutritive  
system. Dr. Pierce's Golden Medical  
Discovery cures diseases of the stomach  
and other organs of digestion and nutri-  
tion. When these diseases are cured the  
hindrance to the proper nourishment of  
the body is removed and strength comes  
back again."

AGENTS:-  
In our style of climate, with its sudden  
changes of temperature—rain, wind and  
sunshine often intermingling in a single  
day, it is no wonder that our children,  
friends and relatives are so frequently  
taken from us by unseasonable colds,  
half the deaths resulting directly from  
this cause. A bottle of Brodie's German  
Syrup kept about your home for some  
days will prevent serious sickness, a  
large doctor's bill, and perhaps death,  
by the use of three or four doses.  
For curing Consumption, Whooping  
Coughs, Croup, or any disease of the  
Throat or Lungs, its success is simply  
wonderful, as your druggist will tell you.  
It is a simple bottle free from Dr. Kremer.  
Regular size, 75 cts. Get Green's Price  
Album.

Leland Siftings.

Over 1000000 bushels of wheat were  
sifted at Leland this week.

The cars are running on the Kinney  
short line.

Mr. Frank Fletcher took a trip to  
Grants Pass last week.

Etneville is a lively town. J. J.  
Kinney has built an addition to his  
store to accommodate the growing trade.

The miners have plenty of water as  
the snow in the mountains is melting  
and will furnish water for some time  
yet.

Our population is increasing quite  
rapidly and the farmers are raising a  
large supply of garden vegetables to  
supply the growing need.

There is also talk of building a town  
hall for the benefit of our last growing  
town. We also have material for the  
organization of a literary society in the  
near future.

H. L. Wilson, of Leland, is bringing  
his new store building to completion.  
It will be a nice building. As the peo-  
ple of Leland are solid men, they don't  
want any cheap buildings.

Business in Kinneville is good. To  
see the big loads of freight hauled to  
Kinney's store by Macdonald and others  
does not look like dull times. The  
Kinneville business men are talking of  
putting up some public buildings, some-  
thing that is needed in a fast growing  
town.

We have the promise of a new ware-  
house at our station. The present one  
does not hold the freight. The amount  
of freight that comes here is surprising.  
Much of it has to be left at the station  
until it can be taken away as the freight  
house is so small.

Report says that Wilson will give a  
house and lot in a desirable locality to  
the person who buys the largest amount  
of goods during the first week after open-  
ing his store. Leland will soon be the  
center of trade between Roseburg and  
Grants Pass.

We are having some immigration from  
California. They say times are hard  
there. What we need is people with  
money, but none of those that com-  
plain of the hard times have had to  
come to Southern Oregon to make a  
living.

We have been having a good deal of  
cloudy weather. The people are plan-  
ning their spring gardens. As we have  
two towns in our vicinity, also many  
wood cutters, there will be a large  
amount of vegetable consumed here  
this summer, as the farmers are raising  
large gardens.

It is almost useless to say that the  
people are healthy for in this vicinity  
we have a balmy atmosphere and good  
law-abiding citizens, no use for lawyers  
but little use for doctors. We have  
some people who want to change their  
situation or, in other words, to join the  
matrimonial ranks.

The railroad company hired Japs to  
load the wood cars on the Kinney short  
line. They could not load more than a  
half as much as white men. They got  
tired of the work and now they are all  
gone away and there is nobody to load  
the wood. We think if the company  
would pay a fair price they could get  
plenty of men.

Slover Drug Co.  
APOTHECARIES,  
Front St., Opposite Depot.

A few days ago, on Big Otter creek,  
in Clay county, W. Va., reports the  
Latter Day Cincinnati Equip-  
Superstition, over 70 years old,  
was mysteriously murdered. She  
lived by herself, and was sitting at  
a window when a strange change en-  
tered her body, killing her instantly.  
The mystery surrounding the murder,  
it is claimed, has been partially  
cleared away by the arrest of a man  
named Cottrill, who is now in the  
county jail on suspicion of having  
been implicated in the murder. It  
brings to light a genuine case of  
withcraft superstition. Cottrill is  
under the impression that he has suf-  
fered from supernatural power exer-  
cised by Mrs. Boggs. He claims that  
at times during the last three months  
Clay and Calhoun counties, in which  
fashioning. On one occasion the  
old lady's house appeared to him to be  
blacksmith shop and he was shoeing  
his horse there at night, when the  
witch appeared and told him that  
that would be the last night he would  
ever shoe the horse. Within a day or  
two the horse died. It is said that  
other neighbors of the old lady were  
affected with the same hallucination,  
and that threats were previously  
made to kill her. Cottrill refused to  
talk about the murder, but talks free-  
ly on the wrongs he thinks he suf-  
fered at the hands of the aged woman.  
Many cases of sickness in the  
neighborhood were attributed to her  
supernatural influence, and on sev-  
eral occasions it is claimed a lynching  
was threatened, but no one could be  
found with sufficient courage to lead  
those who fancied they had been  
wounded.

The Boston Herald Chatterer and  
the lady in pursuit of a cook: "A  
few days ago a lady in pursuit of a  
cook was interviewing and being in-  
terviewed at a certain employment  
bureau. "I shall want you to go into  
the country with me," she remarked  
to the nightly personage, who was  
crying her head to foot, "your  
man; and do you have low-neck  
dresses, no man's? Cook looked  
"Low-neck dresses!" What do you  
mean by that?" said the lady. "Well,  
ma'am, do you eat yer dinner in low-  
neck dresses? I take a friend who says  
she'll not take no price unless the  
family eats in low-necks, and I thought  
I wouldn't, either." So this is what  
we are all coming to! No even our  
domestics will endure "plain living,"  
and if one wants a six dollar cook  
she can't have her without promising  
to "eat in low-necks!"

Among the tales of a traveler  
brought home by certain Buffalo  
tourists is one which, according to  
the Commercial, they declare true in  
every particular of an overhauling  
between two girls from Rochester, N. Y.,  
overheard from neighboring dwellers  
said No. 1, "Who is the post-hurricane  
now?" "Why, Tenyson," said No. 2.  
The well informed one knew every-  
thing. "And the one before him was  
-let's see, what was his name?" "2,"  
could not recall the name instant-  
ly, but she got it last, "Oh, yes;  
John Greenleaf Whittier! He was the  
post-hurricane before Tenyson."

Forggetting his pleasures, be-  
cause it permits the closing of the  
mind's eyes to harsh experiences and  
depressing incidents. It is not a  
crime to fall, but it is a crime  
against one's better nature to lie  
upon pillows, says the St. Louis  
tribune-Democrat. The fellow who  
forgets all other things, every new  
bit of news, every new discovery, every  
new bit of news, and covering at the  
revelation of past events. Dwellers  
in a swamp grow to have the lifeless  
look of the lowlands. Remembrance  
of the blues makes one life. No man  
is ever born a pessimist. He becomes  
one by forgetting the wrong things.

The success of a dull or average  
youth and the failure of a brilliant  
one is a constant surprise in Ameri-  
can history, says a writer in Success.  
But if
