Artisans' Social.
The order of United Artisans held a very pleasant social at the A. O. U. W. hall on Tuesday evening, about 100 members and guests being present. A most excellent program was presented. The first number was a piano duet by Ethel Palmer and Laura Parker and was rendered in the most pleasing manner. These ladies play together with much sympathy and artistic effect. A tenor solo by Mr. George Cramer was a very enjoyable number and Miss Edna Parker amused the audience with her well rendered recitation concerning a "water-million." Miss Laura Parker sang a contralto solo very beautifully and, as always, gained the most intense appreciation from the audience. Protoged applause followed the violin solo by Miss Ada Umphlett, which was played with much skill and artistic expression and was one of the most delightful numbers of the program. Master Artisan W. L. Ireland gave a short talk concerning the beneficiary plan of the Artisans and the program closed with a ladies quartet by Misses Bertha Barrie, Edna Parker, Ethel Palmer, and Laura Parker, which was full of melody and was very beautifully rendered.

After the program, refreshments of lemonade and cake were served, after which the company were interested in a guessing contest of entertaining quality. The evening was one of pleasant enjoyment to all attending.

Aerobic Bronco.

A saddle horse that had been tied to a post in front of the building occupied by J. Hackett's harness shop on Monday, created a diversion for himself and assembled spectators by pulling the post out by the roots and performing various startling gymnastic feats in connection with it. His hitching rope was too short for him to run with the post as was his evident intention and his feet mingling too freely with said lumber soon brought him to grief. He finished his performance by stretching prone on the street while a number of men unfastened his legs from the post with some difficulty and extricated the timber. The animal was unhurt though the post sustained serious contusions and abrasions.
