Northern Pacific stock sold at the sensational figure of \$1,000 per share in New York on Thursday morning, a wild scramble for stock causing the advance. In the manipulations which brought this about, many claim to dimern the hand of Jim Hill, the long headed magnate of the Great Northern. Hill, however, denies any connection with the matterand disclaims any intention of acquiring control over the Northern

The time draws near for the settlement of the question as to whether or not Grants Pass will celebrate this year. sentiment has found expression that inasmuch as we have held in the Parker, Maggie Chiles, Minnie Tuffs, past two years, two highly successful and glorious celebrations, it is time to Wade, Ethel Hackett, Astella Goodin, rest and give neighboring cities our May Sutton, Mrs. G. A. Savage, Mary Rev. Bouche, of Merlin, preached here attendance on that festal occasion. We Day, Florence Akin, Allie Pool, Dora last Sunday morning and evening, are informed that Ashland is preparing for a grand celebration and we have not forgotten the generous attendence that the Ashland people gave us last year. All who have sentiments on the Fourth of-July question should voice them soon so that the matter may be determined

The new mayor and council assumed their official positions last Thursday evening. There officials serve the city without pay. They give their time and attention to the various municipal matters and assume an oppressive re sponsibility without other remuneration than a small measure of glory. No matter what course they may take on any question, nothing is surer than that harsh criticism await them. Councilmen are sometimes appreciated but the apprecation is seldom expressed. Contrary sentiment finds free utterance, It must seem to these city officers that theirs is a thankless task. We believe it to be an exceptional case when one of our councilmen does not work con scientiously, according to his light, for the interests of his people. His efforts should be appreciated and his hands
