

An Opportunity FOR Investment

Rogue River valley is full of Oil, Natural Gas, Artesian water and other valuable minerals.

Nature's storehouse is bulging out with wealth and only needs the magic hand of man to unlock and reveal the hidden wealth stored up for the use of the Twentieth Century.

Our arid lands will produce wonders if we once can procure Artesian water to supply abundance of water with which to irrigate.

Oil and Natural Gas are the greatest economical fuel of this generation. Shall we let it be dormant here in Rogue River valley, while other sections of the country are using nature's storehouses?

Oregon cannot be beaten anywhere in the world, for natural Gas, Oil or Artesian water. Rogue River valley is truly the Italy of America. Here we have the finest climate, the best apples, the largest peaches and the prettiest girls.

Shall the people of Grants Pass forever continue to drink the slime and slush and sewage that pours into Rogue river while we can have the best of Artesian mountain water by the very simple process of drilling a few hundred feet?

What a beautiful city Grants Pass would be if there were a stream of pure Artesian water flowing along each side of her streets. It is the intention of The Oregon Natural Gas, Oil & Mining Co. to soon begin active operation of drilling a number of wells to the depth of 1000 feet to ascertain the presence of Natural Gas, Oil, Artesian water and other valuable minerals.

They are now bonding land in and around Grants Pass. Within the next six months they will be drilling on some of the property they have bonded for that purpose. They intend if it is possible, to supply the city with plenty of pure Artesian water before the coming fall.

The Oregon Natural Gas, Oil & Mining Co. requests all farmers and property holders to give them the privilege of drilling one or more wells on their property. They will give a percentage of the output of the wells to parties granting the privilege.

In order to get the people of Grants Pass and Josephine county interested in Natural Gas, Oil, and Artesian water they will give all of them a chance to subscribe for a few shares of the capital stock of the company on very liberal terms.

Suppose you take a few shares of the capital stock of The Oregon Natural Gas, Oil & Mining Co. of the par value of \$1 per share. You pay 10 per cent. down, 40 per cent. when the machinery is set up and is ready to begin operation and the remaining 50 per cent. when they strike a flow of natural gas, oil or artesian water or have drilled to the depth of 1000 feet. If they strike oil, natural gas or artesian water you have the option of taking ten times as many shares as you subscribed for. They will pay you back all the money received from you if they fail to drill a well as agreed upon.

You are invited to thoroughly investigate their proposition. You have nothing to lose but every thing to gain. If you are a capitalist it is a safe investment. If you are a farmer or property holder it will enhance the value of your place a hundred fold more than you invest if they should find either oil, gas or water near your property. If you are a working man it will pay you to take shares as this will open up a vast and a new work for you. The merchants and business men should invest in shares in order to start this enterprise. Professional men, in fact all classes of people, should take a few shares in this vast and new enterprise and it will be a help to all in Grants Pass and Josephine county. If you cannot take 100 shares you can take 50, or ten shares. Remember every dollar will be returned to you if the company fails to drill a well as agreed upon. The stocks are non-assessable and fully paid up as they are used. The by-laws of the company do not allow a debt to exceed 1 per cent of the capital.

COUNCIL PROCEEDINGS.

Street Sprinkling Uncertain. Damper on Medicine Companies.

The city council met in regular session on Thursday evening, the mayor and all the council being present.

A petition signed by members of the band soliciting the placing of four lights at the band stand in the depot park, to be used for one hour on one evening of each week, was read. It was favorably considered by the council and was referred to the water and light committee, with power to act, to investigate the cost and advisability of placing the lights.

Herbert Smith presented a petition, signed by residents of the Fourth ward asking for a hydrant to be placed somewhere in the vicinity of Pine and Barge streets. It was suggested that as the water contract had just expired, no intelligent action could be taken in that direction and the matter was referred to the fire and water committee for investigation.

The street committee presented a report in regard to sprinkling the streets and a subscription list was read, signed by business men with the amounts that each was willing to contribute toward the monthly expense of sprinkling. Some discussion ensued as to the advisability of sprinkling across the rail road track but the prevailing opinion was that it should be done. Bids for street sprinkling were submitted by S. Noron, J. C. Harper and J. W. Coffman. It was decided to refer the matter again to the street committee to obtain subscriptions from a greater number of business men. A motion was made that city would contribute not to exceed \$20 of the monthly expense of sprinkling. This motion passed, with two dissenting votes. The estimated cost is about \$100 per month.

The Oregon Natural Gas, Oil and Mining Co., by Scott Griffin, secretary, presented a proposition to the city to furnish water for 50 hydrants at \$8 1/2 per month, should artesian water be secured, boring to commence immediately if the proposition were accepted. Motion was made that the proposition be laid on the table; carried with one dissenting vote.

The following bills were allowed:
J. A. Montgomery, \$10 00
Dr. W. H. Farnham, 25 00
J. E. Peterson, 1 25
E. P. Judson, 3 50
English Dairy, 4 30
Slover Drug Co., 4 00
G. P. N. W. L. & P. Co., 14 00
Irwin Hudson Co., 12 00

An ordinance amending the license ordinance passed its three readings and became a law. This ordinance was passed for the purpose of excluding traveling medicine companies or individuals who give entertainments to advertise their medicines and fix the license for such shows at 25 per day.

The bond of R. L. Davis for auditor and police judge was presented and found correct.

In the matter of printing city ordinances the contract was awarded to A. E. Voorhies.

The water contract having expired, the fire and water committee was instructed to interview the water company in regard to terms for a new contract.

An election for chairman of the council was held. J. H. Williams and J. L. Frier were nominated. Williams received a majority and was declared elected.

No further business appearing, council adjourned.

Hall's Family Pills are the best.

Resolution.
The following resolution was adopted by Gen. Logan Post, G. A. R. June 5, 1901:

Resolved—That we are thankful for, and appreciate the patriotism manifested by the citizens of Grants Pass and vicinity in the observance of Memorial Day and especially are we grateful to Hon. R. A. Booth, for his masterly oration, he never fails to respond to our solicitations. Also to the choir that rendered such sweet sad music, neither do they fail us in time of need. Also the W. R. C. that so generously and efficiently assisted in the ceremonies. Also the fire company boys, who showed their patriotic sympathy. Also the cadets that was a unique and laudable feature in the observance of the festival of our dead. Also an appreciation for the assistance rendered by the ex-Confederate soldiers on the occasion.

School Notes.

On a visit to the school in district No. 28, I found the room well filled with busy children. This school had only one more week to continue. The teacher, Mr. Robbins, informed me there would be seven scholars to receive diplomas of honor. To these seven I shall be very proud to issue diplomas.

Mrs. Ida Savage is teaching the Jones Creek school. The school board of that district understand and appreciate the good work done by Mrs. Savage and have shown it by employing her continually.

In the school of district No. 23 I found the teacher so busy that she did not know I was in the room until fifteen minutes passed by. I was much pleased to see some of the work of our institute put into practice and I want to compliment the teacher, Miss Edna Harvey, and the school on the good results.

School in district No. 26 closed Friday. The scholars and the teacher closed the school by taking an excursion to Rogue river where the children enjoyed their school exercises and picnic dinner.

I am in receipt of a letter from Prof. McConnell, at Wilderville, stating that his school will close next Friday and for me to issue three diplomas of honor for his scholars. These diplomas are very nice and they are great incentives to get perfect attendance.

County Treasurer, J. T. Taylor, informs me that the clerks of district Nos. 21, 26, 37 and 42 have not presented their orders for the January apportionment. District clerks should remember that these orders should be presented as soon as possible and save bother and unnecessary trouble. The same applies in case of receipts to the county superintendent. To every school clerk I send a blank receipt when an apportionment is made. It seems to be but little trouble for clerks, immediately upon getting the order, to sign this receipt and mail it to me.

Lincoln Savage, County Supt.

County School Apportionment.

To partly satisfy the schools, districts and the teachers employed I have made an extra apportionment. The amount apportioned is \$2411.13 and the manner of apportioning the same is: First, to each district the amount making balance of the January 5th apportionment and the balance in proportion to number of pupils enumerated in each district to whole enumeration. The amount each district receives is as follows:

1	854 92	23	42 02
2	49 24	24	72 73
3	53 29	25	45 37
4	55 37	26	41 12
5	54 50	27	69 37
6	50 92	28	68 04
7	460 77	29	35 82
8	39 58	30	40 92
9	33 47	31	46 47
10	40 67	32	39 47
11	75 84	33	35 62
12	47 24	34	44 27
13	40 23	35	34 92
14	41 57	36	44 27
15	40 68	37	24 92
16	55 37	38	50 02
17	51 37	39	41 87
18	45 57	41	44 92
19	48 69	42	38 92
20	48 29	43	29 82
21	48 29	44	29 82
22	50 92	45	61 45

Lincoln Savage, County Supt.

THE TROUBLE IN CHINA.

Some British Fastidious were acting as police at Tientsin sought to prevent French soldiers from hounding-brokers, when they were attacked with bayonets and bricks. The Fastidious, in self-defense, fired in the air. This brought a number of Germans to the aid of the Frenchmen. They numbered together 350 men. The Fastidious fired again, killing a Frenchman and wounding three others. In subsequent fighting four Fastidious, five Germans and one Japanese were wounded. The arrival of a German officer and a strong guard ended the fray.

A Peking dispatch dated June 2 says: Field Marshal Count von Waldersee will start tomorrow. He will, however, leave here temporarily nine skeleton battalions of 300 men each, which nearly equal the number of British troops here. The French are withdrawing from the province of Chihai. Nine thousand Japanese, 3000 British and the Twenty-sixth Russian regiment left yesterday. The rest of the troops will remain until July, or until the sun's return to certain latitudes is given that the Chinese authorities are able to maintain order.

A Peking dispatch says that China's monetary assistance of \$3,000,000 to the powers has caused great satisfaction among the foreign ministers, as it leaves practically only a few minor details to be settled by the negotiators. The phrase in the past note, "to the satisfaction of the powers," may cause some delay in the evacuation of Chinese territory, as the ministers fail to see how China can guarantee payment, and as all the ministers believe it would be a mistake to have a large body of foreign officials collecting revenues. Were the revenues to be collected in this way over 2,000 officials would be required, and the aggregate salaries of these men would be a heavy burden on the Chinese treasury. The majority of the ministers favor raising the customs to 10 per cent and taking 5,000,000 taels yearly for the liquid tax. This method would give, after the payment of interest on foreign debts now existing, about \$2,000,000 taels a year. The ministers would agree to this system if China would discontinue the collection of all tithes on foreign goods.

A Berlin dispatch says the German government has chartered 13 steamers to bring home the troops in China. It is rumored that about 10,000 men will have arrived by the end of September.

The Doctor told me my cough was incurable. "One Minute Cough Cure made me a well man." Corrie Silver, North Stratford, N. H. Because you've not found relief from a stubborn cough, don't despair. One Minute Cough Cure has cured thousands and it will cure you. Sale and store—Dr. W. F. Kremer.

PACIFIC COAST NEWS.

ITEMS OF INTEREST PICKED FROM THE WEEK'S DISPATCHES.

Five Men Lynched in California—A Bride Attempted to Poison Her Husband—Butte, Mont., Still Sliding—A Girl Bicycle Thief.

R. Wilkin, the president of the Southern Men's association, died at his epiphy near Newhall. He was 72 years of age.

The lumber schooner Alois Kimball, well known on the coast, was wrecked at Kahului, an island of the Hawaiian group. The crew was saved.

Madame Wu, the wife of Wu Ting Fang, the brilliant diplomat who so ably represents the imperial government of China at Washington, and is herself the most noted woman of her race in America, visited San Francisco, the guest of her husband's nephew, Ho Yow, the consular general.

There were brought into the county clerk's office at Visalia one day recently 32,000 squirrel tails from the White river country. This is the largest number ever brought in by one squirrel hunter. The bounty on these tails amounts to \$900.

Herman Lunkherath, the suspected murderer of the boy Robert Hialop at San Francisco, was released from custody, as it was evident to the authorities that he had nothing to do with the crime.

A Seattle dispatch says that many persons who failed to procure accommodations on the steamers for Nome were offering large sums for tickets, but those lucky enough to possess the passes refused to part with them. One offer of \$1,000 to ship two horses on the Centennial was refused.

At White Horse, Alaska, the first and only brickyard in the territory is now making brick on a large scale for shipment down the Yukon on scows to Dawson. The business is being operated by B. P. Whitney and O. J. Young, the latter having discovered a mountain of clay for making red brick a short distance west of White Horse. Dawson builders are a large party for the brick. Their desire to erect buildings that cannot be so easily destroyed the next time a fire sweeps through the Klondike capital.

As a result of the explosion of a blast in the Golden Hill mine, Grass Valley, Cal., William Dewan was instantly killed and James Ledwith probably fatally injured. When the men went on duty in the morning Foreman Richard B. Ross was informed by the men that a blast had missed fire. The foreman gave orders to Dewan and Ledwith to fire the blast, which was in a drift of the 700-foot level. It is not known whether the night men had left two blasts and supposed there was only one, or the men failed to fire the blast after being told to do so.

Arling Ross, a 14-year-old orphan who has been making her home with Mrs. Frost on North 18th street, San Jose, has half a dozen stolen bicycles placed to her credit. On several occasions she came home with bicycles, but as she never gave a very satisfactory explanation the wheels were put aside and finally returned to the owners. Recently she stole a wheel from the Normal school grounds, but was identified as she was riding away, and the case was reported to the police. They recovered the wheel at the home of Mrs. Frost, but the Ross girl could not be found. She had left the city, and it is supposed she took somebody else's wheel with her.

One of the worst cases of lynching ever known in California occurred at Lookout, 12 miles from Alturas, in Modoc county, when Caleb Smith, 72 years of age, and his three sons and one-in-law, Dan Yantis, were hanged by a mob of 40 masked men. Hall formerly lived with an Indian squaw, and by her had three sons, aged 26, 19 and 16 years. The family was worthless, and as a suspect of the house revealed his forks, knives, forked wire and other things that had been recently stolen. The neighbors had determined to rid the county of the worthless gang, and without giving them any chance for defense, hanged them to Pitt river bridge. The coroner's jury rendered a verdict that "the deceased came to their deaths by hanging by parties unknown to the jury." Governor Gage has offered a reward of \$5,000 for the arrest and conviction of those concerned in the lynchings.

J. H. Witt, a morphine "fiend," who was in jail at Fresno, Cal., for vagrancy, hanged himself with a piece of cloth fastened to the knob of the vault safe in what was formerly the tax collector's office, but is used as a temporary place of detention while the jail is under quarantine. Witt formerly lived at Visalia.

Fire Commissioner Carter of San Diego, having had a personal difference with Fire Chief Cairnes, has been doing his utmost to prevent the fire chief's re-election. Business men of the city furnished affidavits, accompanied by a long petition, asking Mayor Fry to take such action as he might deem proper to prevent the carrying out of Carter's plan. When Mayor Fry received the petition and the affidavits he sent a notification to Mr. Carter removing him from office. Carter will appeal to the courts.

Lester Kemp, a 15-year-old paralytic, was being removed from the San Francisco Children's hospital, where he had been since 1895, and on arriving at the city he was transferred to the almshouse vehicle. As he looked about upon the miserable creatures who were to be his companions, and the full meaning of the change dawned upon him, he exclaimed, "Death would be preferable to this," and expired.

The strange sliding movement in the city of Butte, Mont., has again manifested itself by five large cracks in the earth in different parts of the city. Three of the openings occur on the west side of the town and two on the east side. There is no owing, but a distinct parting of the earth, and the granite walls can easily be seen in them. The continuance of the strange phenomenon is beginning to cause some alarm among the citizens of Butte.

Miss Augusta Williams a stenographer, residing at 855 Madison street,

110 SIXTH STREET

Oakland, Cal., was held up and robbed at 10:30 o'clock last Sunday night by two footpads after she had been brutally beaten. The robbery was committed within a block of the young lady's home.

John O. Clemans was arrested at San Francisco on a warrant from Los Angeles charging him with embezzlement. Clemans was formerly bookkeeper for the Ice and Cold Storage company of Los Angeles. He left the employ of the company on Feb. 6, and it is said he is short in his accounts between \$800 and \$900.

A dispatch from Fergus Falls, Minn., says that a stranger came to the Occidental hotel and registered as George Gilbert of Portland, Or. He was next morning found lying on the floor of his room with a bullet-hole in his forehead. He died a short time afterward without regaining consciousness. Gilbert had evidently killed himself. He was 30 years of age, well dressed and had considerable money.

Police Commissioner Carmichael of San Jose, who was attending a meeting of the commissioners in New York city, fell into the hands of the Philistines. Instead of enjoying an excursion to Coney Island Carmichael decided to study the life and vicissitudes of the New York police. When he returned to his hotel he found that he had been robbed of his watch, money and return ticket.

William R. Keith, an anarchist belonging to Union No. 68 of San Francisco, attempted suicide at San Jose by taking three kinds of poison, and when an attempt was made by the doctors to use a stomach pump he bit a part of his tongue off in desperate resistance. His case came to San Jose from the Needles, and failure to obtain work induced despondency, resulting in the taking of the poison.

At Wilkeson, Wash., Mrs. Vincent Hendricks confessed to having attempted to poison her husband by putting carbolic acid in his wine. She is only 17 years old, and the couple were but recently married. After taking the wine he was seized with spasms, and a doctor had difficulty in saving his life. An investigation showed that the glass given him bore a strong odor of carbolic acid, while the glass from which she drank had nothing but the smell of wine.

Articles of incorporation were filed at Pierre, S. D., for the United Copper company of Montana with a capital of \$90,000,000, half preferred and half common stock. The incorporators are Arthur P. Heinz, Stanley Gifford, Franklin Nien, Frederick Eckstein, Carl Swenson and Oscar Nelson.

The report of the grand jury at San Francisco charges Chief of Police Sullivan with "willful violation of the law," and further says that "We recommend an amendment to the charter taking the appointment of officials from the mayor and giving selection of the same to the people as heretofore."

The United States supreme court decided that Charles W. Nordstrom, under sentence of death in the state of Washington for murder, who has escaped the gallows nearly ten years, must hang. Robert Hasmussen, agent for Wells, Fargo & Co. at Angels Camp, Cal. committed suicide by shooting himself in the head. He was in bad health.

Word comes from Eszenoda of the capture and incarceration there of Pedro Morales, one of the most noted outlaws

of the lower peninsula. He is charged with almost every crime of importance that had been committed in the upper district of Lower California, and he is wanted both in San Diego and Los Angeles counties. In Los Angeles county he killed Deputy Sheriff H. W. Wilson several years ago, and the officers of that county have been anxious to have him caught and extradited.

Aggie Kelly, a well-dressed woman of 23 years, was arrested at San Francisco and charged with enticing 15-year-old Sophie Finagold of 1108 Bryant street, San Francisco, away from her home. The girl was plied with liquor and shipped to Eureka, where she supposed that she was to be given employment in a theater at a salary of \$15 a week. After reaching Eureka she was met by a notorious woman, who is known to the police as Eveline Miller, who took her to a disreputable house, where she was held a prisoner for two weeks. The girl's brother from San Francisco ultimately rescued his sister and took her home. The Kelly woman was charged with felony, and released on \$3,000 bond.

In a fit of insanity induced by sickness and by an alleged insult, Hon. Frank S. LaSalle, who has a ranch in Windermere valley in Kootenay, B. C., killed his servant, a Chinese, who had been in his employ for some years. LaSalle believed some one was trying to break into his house. He shot the Chinese in the hall just after the servant had entered the door. He was taken to the Provincial Insane asylum at Westminster. LaSalle is a brother of the Earl of Harewood.

A company has been formed which will build an electric railway that will encircle San Bernardino county. The line will touch Redlands, Colton, the state insane asylum at Highland, Edgewood mission and Utrita Springs. It is intended to extend the road to Los Angeles, a distance of 60 miles, within a year.

A Few Pointers.
The recent statistics of the number of deaths show that the large majority die with consumption. This disease may commence with an apparently harmless cough which can be cured instantly by Kemp's Balsam for the Throat and Lungs, which is guaranteed to cure and relieve all cases. Price 25c. and 50c. For sale by all druggists.
