Deer Law.

The open season for deer commences July 15 and ends November 1. It is unlawful for any person to take, capture or destroy in any open season more than five deer. Any person who shall lawfully kill five deer or less can make an affidavit before any justice of the peace to that effect, and said justice shall thereupon deliver to said one leather tag (designed and issued by the State Game Warden) for the hide of each deer, not to exceed five in all. One of these tags shall be securely fastened with wire to each deer skin, and the owner is then entitled to offer such deer skin for sale or exchange or transportation to any point within the state. The punishment for the violation of any of the provisions of the act is by a fine of not less than \$25 nor more than \$50, together with the costs of prosecution of said action, or by imprisonment in the county jail for not less than 30 nor more than 120 days, or by both such fine and imprisonment.

Dentistry.

Dr. Jennings expects to leave the first of August for his summer vacation at Newport. Those desiring his services should call on him soon. He uses the best material that money will buy, combined with a high order of skill, and a ripe experience. He uses his own medicines for alleviating pain which are believed to have no equal. Runaway Accident.

Mr. and Mrs. W. I. Sweetland's two little children were injured on Friday by being thrown out of a buggy. Mrs. Sweetland had just driven up to their residence and got out of the buggy when the horse started for the barn with the children in the buggy. In making the turn into the alley, the buggy was upset and the children thrown out. The little girl's left wrist was broken. It was thought at first that the little boy was internally injured, but it seems probable now that he was only bruised. Both children are getting along nicely at present.

Gold Dredge Josephine.

An Ancient Violin.

One of the oldest violins perhaps on the Pacific coast is now in the possession of T. H. Everett, a miner in the employ of the St. Peters Mining Co., on Grave Creek. It was made in Italy in the year 1704 by Antonius Stradivarius and was brought to America in the early part of the last century and fell into possession of the celebrated Johnson family of Virginia, of whom General Joseph E. Johnston of Confederate fame was an illustrious member, and was brought to this state after the close of the war of the Rebellion by Major Johnson, a relative of the general who resides near Albany.

This old fiddle after constant use for more than a century is in a perfect state of preservation and is noted for the power and variety of its tones.

Woodmen's Excursion.

The Woodmen of the World are arranging an excursion to Portland for August 2. They expect to secure as cheap a rate as any previous excursion has ever offered.

Early Closing.

The early closing movement came to a climax on Tuesday evening and an almost unanimous agreement was reached for closing at 6:30 each evening except Saturday. On account, however, of some of the grocery establishments refusing to enter into the combine, it seems likely that the movement will fall to the ground as far as they are concerned, and the dry goods stores are also uncertain, being more or less intertwined with the grocery business. The hardware stores are in a condition to get independently of the others and they will close at half past six Saturdays excepted.

Fakir in Operation.

A man named Chas. S. Robinson has been lately working an advertising scheme in this city and seems to have been using the name of the Coconino (to further himself in his scheme, representing to some of our citizens that he was in some sort of partnership with the Coconino in the enterprise, an assertion which has no foundation in fact. The Coconino knows nothing of the man or his scheme, but takes this opportunity to advise its friends, when like schemes tell them they are in partnership with it to require them to back up the statement with some evidence.

Briggs Creek Placers.

H. W. Kinschiff has purchased the Briggs placer property on Briggs creek and will put on a hydraulic plant. These claims are among the most desirable placer properties in the Briggs creek district and contain some very rich ground. As the mine pays to ground sluice, there is little doubt of its productiveness under hydraulic equipment. It has a first class available water right and all hydraulic advantages.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Head-End Collision.

The Tilting has the following account of the collision of passenger trains that occurred at Black Butte summit on Sunday: Black Butte summit, on the S. P. Co's railroad, 22 miles north of Dunsmuir, was the scene of a head end collision between two passenger trains, yesterday morning at 5:40 o'clock, that fortunately was light in the loss of life and limb.
The south-bound California express which left Ashland on time, under charge of Conductor Ben Barker, when rounding a sharp curve just east of the summit was crashed into by an extra special that was making for a switch to side track at the summit in order to permit the regular train to pass; but for some reason the train held the main track and Conductor Farrier noticing the location signaled the engineer, Ed Fox, by pulling the air, to stop. The engineer was unable to bring the train to a stand and on the down grade the two passenger trains came together with a mighty crash.
The two forward locomotives on each train and the mail and express cars were so badly wrecked that it took six hours to clear the track of the debris. A hobo named Lloyd Rankin, who was riding on the north bound train, was instantly killed, and another had his arm dislocated and sustained a compound fracture of the leg. Engineer Henry Wents, of Dunsmuir, who was in charge of the helper on the south bound train, received severe scalp wounds, and a number of passengers were considerably cut, bruised and shaken up by the collision.

Hello There Everybody!

Guess we'd better introduce ourselves. We're delegates to the

BARGAIN BECKONERS' CONVENTION

That is to be held at R. L. Coe & Co's Big Store in a week or so. We have been summoned here to Grants Pass by the Big Store from all over the country and we are going to make things pretty lively in your town after we all arrive. We thought we would send a few delegates ahead to get everything ready. There will be several thousand of us when we all get together and
