 Astoria cannery men claim that this year's run of salmon is the largest ever known. The canneries and cold storage plants are unable to care for more than a small portion of the fish that are caught.  
 What might have been a runaway with all the possibilities of danger was prevented Monday evening by the prompt action of some men standing in front of Cornell's store. A double team attached to a lumber wagon had been carelessly left in front of the store while its owner was making some purchases. The horses became frightened and started on a run but were caught before they had made much headway.  
 The billiard parlor next to Coe's big store was the scene of a lively time for a few minutes Friday night when the gasoline tank which supplies the light for illumination sprung a leak and began to blaze. An alarm of fire was turned in and the department responded promptly; hose was laid and in another minute a stream of water would have been playing on the tank, had not a man who works at the pine needle factory stepped up and put the blaze out by the liberal use of his hat.  
 Rev. F. W. Black formerly pastor of the Baptist church at this place but now of Burns, and little daughter Carrie, arrived here last Thursday by team, having made the distance, some 350 miles in seven days actual travel. They fished, hunted and camped along the way and Mr. Black preached at a number of points; he also presided at the union service in the Baptist church at this place last Sunday. Rev. Black will be met here by Rev. Blackburn, D. D., pastor of the First Baptist church at Portland, Rev. Mordley, D. D., district missionary for Oregon, Washington, Idaho and California, and Rev. Geo. B. Varney of McMinnville, Baptist state missionary. This party will make the tour by team through Eastern Oregon, stopping at the various mission stations.  
 Noble Parker on Thursday last was driving a four-horse team of young cayuses which had recently broken when the horses became frightened and unmanageable. They went up the street and past Clever's gallery at a terrific speed with Parker holding on with all his might and endeavoring to reach the brake rope. The horses were attached to the running gear only of a lumber wagon, so it was physically impossible to stop the run of the team. He was thrown off, but escaped injury, the team coming to a standstill further on, after tearing up several lengths of sidewalk, and getting badly mixed up themselves. The leaders were somewhat cut and bruised, but not seriously, while the wheelers were uninjured.

Tax Books Close August 28. Sheriff Lister notifies the public that taxes will become delinquent after the 28th day of August, and that the books will close promptly on that date.

Charged With Embezzlement. Francis Fitch, son of the well-known silver-tongued orator of Nevada, who during the past dozen years has, at intervals, practiced law in Jackson County and at Portland, dabbled some in Democratic politics and acquired a reputation as a knight of the green cloth, is up against the law himself and is wanted by Sheriff Orme, charged with larceny by embezzlement of \$150 from Mrs. Besie Plymale of Ashland. About five months ago Fitch disappeared suddenly from Medford, without leaving his address. He went from there to Los Angeles and then to Tucson, A. T., where he hung out his shingle as an attorney and announced his specialty as mining law, and through the in fluence of the reputation of his father, for awhile did quite a lucrative business. In the meantime an indictment was secured against him by District attorney A. E. Keames, in the Plymale case, and as soon as Fitch was located Sheriff Alex. Orme, armed with requisition and other necessary papers, made the trip to Tucson in quest of the fugitive, in the full expectation of bringing Fitch back to Jackson county to stand trial. But no such luck for the Sheriff, for Fitch's office in the Star Building was found deserted and he had felt it convenient to skip from Tucson where it was getting tropical for him in other than those of atmospheric lines. Tucson people who were also anxious as to Fitch's whereabouts were of the opinion that he had gone to Colorado.—Tidings.

Their Secret is Out. All Sadieville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. ### Sunday Base Ball

The base ball game played here last Sunday between the Grants Pass and Medford teams was quite a remarkable game, inasmuch as the home team made run after run until the total footed up to 10, while the visiting team refrained from making a run until the last half of the ninth inning when a solitary run was made, giving a score of 10 to 1 in favor of Grants Pass. Another feature of the game was the deliberate fanning out in one-two-three order, of nineteen men in four innings, by Pitcher Martin, of Grants Pass.  
 Grants Pass, has without a doubt, a team second to none in the state outside of Portland, and many of the players, especially the battery, Martin and Earl, are artists in this line, and will probably be heard from in the professional ranks.  
 A game has been arranged for next Sunday between Ashland and Grants Pass, to be played here, and the following Sunday at Jacksonville, Grants Pass vs. Jacksonville.

LANDS OPENED TO SETTLERS. Two townships in the Cascade Forest Reserve will be thrown open on the 30th of September next. One township is in Crook and the other in Klamath and both are nearly west of Silver Lake. They are thrown open through the influence of the Little Deschutes Irrigation Co. This company have taken up and owns about 15 sections of land and have taken out a large irrigation ditch on the Deschutes river which will go directly through these two townships to be shortly opened to settlement. The land is said to be very fine and by putting water upon it there is no mistaking what the result will be.—Tidings.
