The strike still drags itself on but is getting stale. The public interest has largely withdrawn itself from the contest. Efforts for settlement are being made and it is to be hoped that they will not fail always.

A petition will be presented to the on the north side of G street between Sixth and Fourth streets. This would meet the carnest wishes of many of our towns people, especially of the ladies, as it will give them an opportunity of avoiding the famous "corner," which has been an annoyance for many years on account of the fraternity of standers and legners who are wont to congregate there. Many ladies have a dread of the saloons, with which G street is plentiful ly supplied and the proposed sidewalk would enable them to avoid these.

The quarantine was effective and the disease did not spread in the slightest from this source outside been some place provided whereby the persons suspected of exposure could have been isolated, perhaps there would have been only one or two cases instead of over a dozen and the quarantine could have been lifted much sooner There is no reason for believing that cases of Manila smallpox will not drift down to Southern Oregon from the nerthern towns pext winter, as it did last winter and the winter before. Now is the time to prepare for it or any other contagious disease to which human flesh is helf. A town of our dimension should have some provision for handling such diseases anyway and it is not good policy to wait until they come before beginning preparation.
