A good laugh is a good thing. Don't fail to hear Prof. Gaston give his Humorous Lecture on the Yosemite in the Opera House Nov. 12. Admission will be 25 cents. Reserved seat tickets for this lecture, the Electrical Exhibition and Concert will cost one dollar, single admission to Exhibition and Concert 35 cents each, reserved seats 15 cents extra.
H. C. Perkins is in possession of a beautiful specimen of green chrome garnet or oyarovite, so pronounced by the U. S. geological survey, which came from the southwest portion of the county. This is the same mineral that was recently discovered in Trinity county, Cal., and was supposed to be emerald. The mineral occurs in crystals of rich, dark green. The crystals thus far found are small and of little intrinsic value, but of great interest.
Nearly all the songs introduced by Mason and Mason and their company in "Rudolph and Adolph" were written especially for them and will not be used by any other organization. The most notable ones are "Once in a Very Great While," "The Selfish Little Duckling," "Peter at the Gate" and a trio entitled "So Much Depends on Knowing Just How Far a Girl Should Go," which will be rendered by Mason and Mason and Lottie Williams Salter.
Dan Cawley, who drove the first and last stage over Scott Mountain, on the through route from Sacramento to Portland, died at Yreka last week from neuralgia of the heart. The funeral will be held tomorrow. He was 77 years of age. In the forenoon on the day of his death he visited the vault in the cemetery which he had prepared years ago as his final resting-place. In the evening he complained of pains in the region of the heart. The deceased had years ago ordered a steel casket, and his remains are now resting therein.

D. Dixon, father of E. C. Dixon and formerly one of our solid business men, arrived on Friday from Walls, Wash., and will spend several weeks visiting with the family of his son and renewing former acquaintances. Mr. Dixon finds a great change and improvement in the town since he has been here, this being his first visit since the fire.
E. E. Redfield spent a few days in town during the past week. Ed is now a resident of Glendale. He is not operating his sawing machine at present, being interested in the Cow Creek Irrigation Co., a corporation recently organized for the purpose of supplying water to southern Douglas county for irrigation and mining purposes.
J. W. Baker went to Medford Wednesday in the interests of the Grants Pass steam laundry, the excellent work of which is gaining for it far more than a local reputation. The laundry has a very fine and complete equipment and is in charge of men who fully understand their business. Competent judges say that the Grants Pass steam is as near perfect as that of any laundry on the coast.

Mr. and Mrs. F. V. Metts and son, Roy, and Mr. and Mrs. J. C. Leigh who have been spending the summer at Silver creek, basin where Messrs. Metts and Leigh are engaged in tunnelling under the Silver creek falls, to tap a large area of placer ground, spent several days in Grants Pass last week. The whole party, including the ladies, made the trip from Silver creek to Galice in a forenoon. Mrs. Metts and Roy left on Sunday evening for their home at Florence, Colo., expecting to return in the near future. The rest of the party returned to the mine.

"Baby" Quartz Mine.
A mine which is rapidly achieving fame is the "Baby" quartz mine in the Jump-off Joe district. This mine is situated seven or eight miles due north of Grants Pass, on the north side of the mountain locally termed "Bear mountain." It is owned by Pollock, Jewell and Dodge and is under bond to Myers, Rice and Smith Bros. who are operating it at present. The mine was formerly worked with profit by Pollock and Phillips by means of an arrastre. A tunnel was run to tap the mine at a lower level but after being driven about 200 feet and the pay chute not found the work was abandoned. Almost immediately after beginning work the present operators uncovered a 26 inch vein of very rich ore which the former miners had just failed to reach. The ore runs in value up to hundreds of dollars to the ton in free gold besides carrying considerable values in sulphurets. In some of the rock the particles of gold may be seen running through it in veins and streaks.

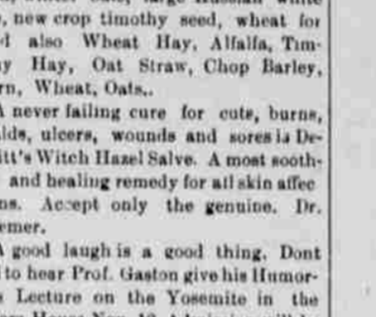

Between the present tunnel and the former workings is a solid pay chute of 80 feet. In the upper tunnel the pay streak was four inches in width. In the lower tunnel, 80 feet deeper, it has increased to a depth of 26 inches. By a tunnel 250 feet long, the mine can be tapped 100 feet lower.
The mine is equipped with a two stamp mill, with concentrator, which handles four or five tons of ore daily.

Fourth Crop of Alfalfa.
At the Miller farm near the mouth of Applegate last week the fourth crop of alfalfa for the summer of 1901 was cut and gathered in. This gives an idea of the agricultural possibilities of this section where irrigation is used. This last crop was not extra heavy but was fairly good nevertheless. The Applegate valley, though its area is not large, is one of the most fertile in the United States. There is a fine opening in this valley for a creamery.

A disreputable band of gypsies passed through town Friday and camped one night near the bridge. They moved on next day, not finding the air of our town satisfactory for them.
Don't forget that Cramer Bros. sell the only genuine Oliver Chilled Flour.
On Tuesday evening, October 22, N. P. Dodge received a check for \$75 from the agents of the "Phoenix Fire Insurance of London." This was for full payment of Dr. Smith's claim for his loss by the small blaze in his house on A Street, Monday evening, the 14th. Upon receipt of notice of this firm, Mr. Dodge was instructed to make examination and settlement at once. The result was the receiving of full payment of the claim on the eighth day after the fire. Mr. Dodge thinks that the old "Phoenix" still stands at the head in both reliability and promptness in the paying of claims.
Frank Colvig came up from Friday from the Old Channel mine at Galice to spend a few days in town. The company is employing a large force of men fitting up the mine for winter's run. They are building a large reservoir and are also constructing a large amount of new dune. The ditch has been enlarged throughout and the mine will be worked this winter on a greatly larger scale than heretofore.

Went to Silver Creek.
H. C. Perkins, C. C. Taylor, George Phoby, G. D. Williams and others returned last Wednesday evening from an expedition to Silver creek, surveying mining property. Silver creek is situated at the edge of the earth, being the "last camp" westward and some 25 or more Oregon miles from a wagon road. The Silver creek mines stand at an angle of 45 degrees and are not gambled over to any great extent. Taylor telegraphed ahead for the inhabitants of the region to catch a few deer and tie them up that he might kill one but the message miscarried. One of the claims was so topographically irregular that the survey had to be stretched over like an awning, one corner being tacked to the side of a perpendicular

Comfort for the Little Fellows.
In our Children's Department you will find the Largest and Best Stock of Up-to-date Correctly Tailored, "not the ordinary hand-down kind" Boys' Suiting to be procured.

P. H. Harth & Son.
Headquarters for Boys' Clothing.

Resolutions of Condolence.
Whereas: It has pleased our Heavenly Father to take home to her reward our beloved sister Maria Leslie, it seems eminently befitting that we record our appreciation of her. Therefore:
Resolved, That the removal of such a life from our midst leaves a vacancy and a shadow that will be deeply realized by the members of this organization, and will prove a serious loss to the Baptist church of which she was a member, and to the community at large.
Resolved, That we, the members of the Woman's Christian Temperance Union, extend to the bereaved husband our heartfelt sympathy and express the hope that so great a loss to us may be over ruled for good by Him who doeth all things well.
Resolved, That these resolutions be published in the Grants Pass papers, inscribed on our minutes and a copy be sent to the bereaved husband.
Mrs. M. J. Fay,
Mrs. L. W. Hood,
Committee.

Library Notice.
Hereafter all library books must positively be returned to the librarian, exchanging of books not allowed. By order of the President.
Mrs. T. P. Judson, Sec'y.

Advertised Letter List.
Following is the list of letters remaining un-called for in the Grants Pass post-office, Saturday Oct. 19, 1901:
GENTLEMEN
Johnson, Mr C W, Pierson, G B, Shield, Herman, Williams, Billy, C. E. Harmon, P. M.

Bible School, at 10:00 a. m.; preaching, at 11:00 a. m. and 7:30 p. m.; B. Y. P. U., at 6:30 p. m.
You are cordially invited.
ROBERT LESLIE, Pastor.

Beware of Ointments for Catarrh that Contain Mercury
As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. HALL'S CATARRH CURE, manufactured by F. J. CUREY & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. CUREY & Co. Testimonials, free.
Sold by druggists, 75c. per bottle. Hall's Family Pills are the best.

ADLETS.
WANTED,
500 Sheep; all breeds, three or four years old. Address

Any one thinking of buying any of the above, it will pay them to go to Rehkopf and Ratch and examine their vehicles and get their prices and terms before buying. They also carry the Buckeye motor and rick. Remember the place, 6th street opposite Second-hand store.

BICYCLE REPAIRING.
TAKE your wheel to Cramer Bros. for repairs.

Dam That Will Stay.
The Grants Pass New Water, Light and Power Co. has completed work on their dam and in the opinion of those best acquainted with the ways of Rogue river, it is a structure which will withstand the water frets. The company has gone on so quietly and steadily with this work that comparatively few of our citizens realize its extent or the real benefit to this city. The operations have covered a period of five months during which time about 30 men have been steadily employed, while numerous others have been directly benefited.
About 400 piles were driven in the main break of last winter and near the power house. These are braced by a network of cross timbers forming a series of cribs which are filled with rock. Hundreds of tons of rock and thousands of feet of timber have been used in the work. No expense has been spared and we think that both the city and the water company are to be congratulated on the result.

The Six.
A social dance was given on Friday evening by the new orchestra, "The Six." It was a very pleasant affair, the crowd being just large enough for the perfection of social enjoyment and the dancers seemed to enjoy themselves to the utmost.
The music furnished by the orchestra was of the most pleasurable character and was accorded the most hearty appreciation by the dancers. While fully adapted to the needs of the dance it was full of melody and thoroughly enjoyable to the listeners.
The orchestra intends to give dances each week during the dancing season, on Friday or Saturday evenings. The composition of the orchestra is as follows: Miss Ada Umphlette, violin; Miss Ethel Palmer, piano; Waldo Greene, cornet; T. E. Palmer, trombone; Fred Chesire, tuba; Carl McCroskey, drums. W. E. Taylor is manager.

Auction!
Mr. H. J. Winters having purchased a large stock of goods in the town of Oakland, Oregon, and being about to remove there will offer his
